Political Journalism in Transition Raymond Kuhn, Rasmus Kleis Nielsen, 2013-11-07 The 21st century has already seen dramatic changes affecting both journalism and politics The rise of a range of new digital and networked communication technologies combined with the stagnation and decline of many traditional mass media has had a profound impact on political journalism The arrival of new digital media has affected the ways in which political actors communicate with the public with or without journalists as intermediaries Newspapers that once held political leaders to account are now struggling to survive broadcasters that once gathered whole nations for the evening news are now fighting for relevance faced with innumerable new competitors on cable and digital television online only media such as blogs and social networking sites are changing how we communicate about politics News media remain central to political processes but the ways in which journalists and politicians interact are changing This book examines how and provides a comprehensive and comparative analysis of the state of political journalism in Western Europe today including the many challenges facing journalists in this important period of transition Media and Maltese Society

Carmen Sammut, 2007-01-01 This seminal work is the first comprehensive analysis of the media landscape in the Mediterranean island of Malta. It examines the media owned by political parties, trade unions, and the church, and how they successfully compete for audiences with the public and private sectors.

The Journalist's Predicament Matthew Powers, Sandra Vera-Zambrano, 2023-08-22 Low pay, uncertain work prospects, diminished prestige. Why would anyone still want to be a journalist? Drawing on in-depth interviews in France and the United States, Matthew Powers and Sandra Vera Zambrano explore the ways individuals come to believe that journalism is a worthy pursuit and how that conviction is managed and sometimes dissolves amid the profession's ongoing upheavals. For many people, journalism represents a job that is interesting and substantial, with opportunities for expression, a sense of self-fulfillment, and a connection to broader social values. By distilling complex ideas, holding the powerful to account, and revealing hidden realities, journalists play a crucial role in helping audiences make sense of the world. Experiences in the profession, though, are often far more disappointing. Many find themselves doing tasks that bear little relation to what attracted them initially or are frustrated by institutions privileging what sells over what informs. The imbalance between the profession's economic woes and its social importance threatens to erode individuals' beliefs that journalism remains a worthwhile pursuit. Powers and Vera Zambrano emphasize that, as with many seemingly individual choices, social factors—class, gender, education, and race—shape how journalists make sense of their profession and whether or not they remain in it. An in-depth story of one profession under pressure, *The Journalist's Predicament* uncovers tensions that also confront other socially important jobs, like teaching, nursing, and caretaking.

Deep Mediatization Andreas Hepp, 2019-12-06 Andreas Hepp takes an integrative look at one of the biggest questions in media and communications research: how digital media is changing society. Often such questions are discussed in isolation, losing sight of the overarching context in which they are situated. Hepp has developed a theory of the refiguration of society by digital media and their infrastructures and provides an understanding of how profound today's media-related changes are not only for institutions, organizations, and communities but for the individual as well. Rooted in the latest research, this book does not stop at a description of media-related change; instead, it raises the normative challenge of what deep mediatization should look like so that it might just stimulate a good life for all. Providing original and critical research, the book introduces deep mediatization to students of media and cultural studies as well as neighboring disciplines like sociology, political science, and other cognate disciplines.
