Nice Book Invisible Sovereign Revolution Reconstruction Intellectual:

Invisible Sovereign Mark G. Schmeidler, 2016-01-12 This history of early American political thought examines the emergence evolution and manipulation of public opinion In the early American republic the concept of public opinion was a recent and ambiguous invention While appearing to promise a new style of democratic politics the concept was also invoked to limit self rule cement traditional prejudices stall deliberation and marginalize dissent As Americans contested the meaning of this essentially contestable idea they expanded and contracted the horizons of political possibility and renegotiated the terms of political legitimacy Tracing the concept from its late eighteenth century origins to the Gilded Age Mark G Schmeidler's *Invisible Sovereign* argues that public opinion is a central catalyst in the history of American political thought Schmeidler treats it as a contagious idea that infected a broad range of discourses and practices in powerful occasionally ironic and increasingly contentious ways Ranging across a wide variety of historical fields *Invisible Sovereign* traces a shift over time from early political constitutional concepts which wrapped public opinion in the language of constitutionalism to more modern social psychological concepts which defined public opinion as a product of social action and mass communication

Walter Lippmann Tom Arnold-Forster, 2025-06-03 The life and ideas of one of the twentieth century's leading political thinkers Walter Lippmann 1889 1974 was among the most influential and wide ranging political writers in modern America As both a journalist and political theorist he shaped ideas about liberalism and democracy the nature of public opinion US power and empire and the roles of journalists experts and citizens Tom Arnold Forster provides a bold historical reassessment of Lippmann's intellectual life offering fresh perspectives on a career at the intersection of daily news and democratic theory This incisive book shows how Lippmann helped define the public debates of American liberalism from the Progressive Era to the Cold War By exploring his ideas in their historical context Arnold Forster challenges the claim that Lippmann was primarily a theorist of expertise and technocracy Instead Lippmann emerges as a strikingly political thinker public facing and multifarious who focused on what politics meant and how it worked in modern democracies Covering subjects from press freedom to urban reform to economic and foreign policy while tracing the evolution from his early liberal socialism to later conservative liberalism this book explores Lippmann's thought as reflecting the protean character of liberal politics and the crises and paradoxes of democracy *Walter Lippmann An Intellectual Biography* is a richly historical account of a complex political thinker Lippmann's ideas played a formative role in the twentieth century and resonate powerfully with our fraught present

The Stormy Present Adam I. P. Smith, 2017-10-06 In this engaging and nuanced political history of Northern communities in the Civil War era Adam I P Smith offers a new interpretation of the familiar story of the path to war and ultimate victory Smith looks beyond the political divisions between abolitionist Republicans and Copperhead Democrats to consider the everyday conservatism that characterized the majority of Northern voters A sense of ongoing crisis in these Northern states created anxiety and instability which manifested in a range of social and political tensions in individual

communities In the face of such realities Smith argues that a conservative impulse was more than just a historical or nostalgic tendency it was fundamental to charting a path to the future At stake for Northerners was their conception of the Union as the vanguard in a global struggle between democracy and despotism and their ability to navigate their freedoms through the stormy waters of modernity As a result the language of conservatism was peculiarly and revealingly prominent in Northern politics during these years The story this book tells is of conservative people coming in the end to accept radical change

Bulletin of the Atomic Scientists ,1972-09 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world

Proving Pregnancy Felicity M. Turner,2022-08-02 Examining infanticide cases in the United States from the late eighteenth to the late nineteenth centuries Proving Pregnancy documents how women Black and white enslaved and free gradually lost control over reproduction to male medical and legal professionals In the first half of the nineteenth century community based female knowledge played a crucial role in prosecutions for infanticide midwives neighbors healers and relatives were better acquainted with an accused woman s intimate life the circumstances of her pregnancy and possible motives for infanticide than any man As the century progressed women accused of the crime were increasingly subject to the scrutiny of white male legal and medical experts educated in institutions that reinforced prevailing ideas about the inferior mental and physical capacities of women and Black people As Reconstruction ended the reach of the carceral state expanded while law and medicine simultaneously privileged federal and state regulatory power over that of local institutions These transformations placed all women s bodies at the mercy of male doctors judges and juries in ways they had not been before Reframing knowledge of the body as property Felicity M Turner shows how at the very moment when the federal government expanded formal civil and political rights to formerly enslaved people the medical profession instituted new legal regulations across the nation that restricted access to knowledge of the female body to white men
