graduate courses in moral development child and adolescent development social psychology sociology anthropology and family studies Moral Development in a Global World Lene Arnett Jensen, 2015-04-02 This book presents international research findings showing that humans share moral concepts but following development different cultures become increasingly morally diverse *Resilience Process and Its Personal and Social Bases* Chau Kiu Cheung, 2024-10-30 This book is to elucidate personal and social bases for personal resilience thus addressing the issue concerning the predominance of social factors in shaping resilience Essentially the book starts with a clarification of resilience as a phenomenon rather than a trait The clarification also identifies the personal bases in terms of the resilience process which specifies belief about resilience as a precursor to learning about resilience action for resilience and resilience successively To justify the personal and social bases the book expounds the analytical functionalist framework to specify voluntaristic and deterministic mechanisms to perform the four requisite functions of goal attainment adaptation integration and latency Equipped with the conceptual and theoretical grounds the book proceeds to scrutinize the effects of personal and social factors on resilience and its process The personal factors include personal background characteristics personality functional disability and various beliefs whereas the social factors include experiences of caring peace violence and social exclusion in society kindness sociability and aid from other people and social capital The scrutiny engages five databases about 6 948 Chinese people in Hong Kong and neighboring Chinese cities composed of the public service users older adults students and people with visual impairment Overall the book presents ample theoretical and empirical substances to clarify the genesis of resilience

Handbook of Parenting Marc H. Bornstein, 2019-03-08 This highly anticipated third edition of the Handbook of Parenting brings together an array of field leading experts who have worked in different ways toward understanding the many diverse aspects of parenting Contributors to the Handbook look to the most recent research and thinking to shed light on topics every parent professional and policymaker wonders about Parenting is a perennially hot topic After all everyone who has ever lived has been parented and the vast majority of people become parents themselves No wonder bookstores house shelves of how to parenting books and magazine racks in pharmacies and airports overflow with periodicals that feature parenting advice However almost none of these is evidence based The Handbook of Parenting is Period Each chapter has been written to be read and absorbed in a single sitting and includes historical considerations of the topic a discussion of central issues and theory a review of classical and modern research and forecasts of future directions of theory and research Together the five volumes in the Handbook cover Children and Parenting the Biology and Ecology of Parenting Being and Becoming a Parent Social Conditions and Applied Parenting and the Practice of Parenting Volume 1 Children and Parenting considers parenthood as a functional status in the life cycle Parents protect nurture and teach their progeny even if human development is more dynamic than can be determined by parental caregiving alone Volume 1 of the Handbook of Parenting begins with chapters concerned with how children influence parenting Notable are their more obvious characteristics like

child age or developmental stage but subtler ones like child gender physical state temperament mental ability and other individual differences factors are also instrumental The chapters in Part I on Parenting across the Lifespan discuss the unique rewards and special demands of parenting children of different ages and stages infants toddlers youngsters in middle childhood and adolescents as well as the modern notion of parent child relationships in emerging adulthood adulthood and old age The chapters in Part II on Parenting Children of Varying Status discuss common issues associated with parenting children of different genders and temperaments as well as unique situations of parenting adopted and foster children and children with a variety of special needs such as those with extreme talent born preterm who are socially withdrawn or aggressive or who fall on the autistic spectrum manifest intellectual disabilities or suffer a chronic health condition

The Cambridge Handbook of Prosociality Tina Malti, Maayan Davidov, 2023-06-08 Prosociality is a multifaceted concept referring to the many ways in which individuals care about and benefit others Human prosociality is foundational to social harmony happiness and peace it is therefore essential to understand its underpinnings development and cultivation This handbook provides a state of the art in depth account of scientific theoretical and practical knowledge regarding prosociality and its development Its thirty chapters written by international researchers in the field elucidate key issues including the development of prosociality across infancy childhood adolescence and beyond the biological cognitive emotional and motivational mechanisms that underlie and influence prosociality how different socialization agents and social contexts can affect children's prosociality and intervention approaches aimed at cultivating prosociality in children and adolescents This knowledge can benefit researchers students practitioners and policy makers seeking to nurture socially responsible caring youth

The Development of Prosocial Behavior Nancy Eisenberg, 2013-10-22 Approx 401 pages
