

Eastern Front 1942-1944

The halting of the Germans by the Russians outside Moscow at the end of 1941 did not mean defeat for the Wehrmacht on the Eastern Front – far from it. In early 1942 Stalin ordered a counteroffensive all along the front, and the Russians were pushed back far into the impenetrable Caucasus.

However each page still contains informative step by step text along with detailed but easy to follow illustrations diagrams and sidebars to tell the stories behind the things we sometimes take for granted. For example did you know that Edison didn't really invent the light bulb. Or that the first bar code was on a pack of Wrigley's Spearmint gum. Or that a maple seed inspired the design for the helicopter. Discover these fascinating anecdotes and much more in *How Things Are Made*. *The Greenwood Encyclopedia of Clothing through American History, 1900 to the Present* Amy T. Kellogg, José Blanco F., Scott Leff, Lynn Payne, 2008-10-30 Find out what we wore and why we wore it in *The Greenwood Encyclopedia of Clothing in American History Twentieth Century to the Present*. This fascinating reference set provides two levels of information: descriptions of styles of clothes that Americans have worn and as important why they wore those types of clothes. With volume one covering 1900-1949 and volume two covering 1950 to the present, the first half of each volume provides four chapters that each examine the impact that political and cultural events, arts and entertainment, daily life and family structures have on fashion. The second half of each volume describes the important and everyday fashion and styles of the period, decade by decade for women, men and children. The set also includes helpful timelines, resource guides, listing web sites, videos and print publications, an extensive glossary and illustrations. Fashion influences how we view other people and how we view ourselves. Bruce Goldstein, 2010 Because of the ease with which we perceive, many people see perception as something that just happens. However, even seemingly simple perceptual experiences involve complex underlying mechanisms which are often hidden from our conscious experience. These mechanisms are being investigated by researchers and theorists in fields such as psychology, cognitive science, neuroscience, computer science and

philosophy A few examples of the questions posed by these investigations are What do infants perceive How does perception develop What do perceptual disorders reveal about normal functioning How can information from one sense such as hearing be affected by information from another sense such as vision How is the information from all of our senses combined to result in our perception of a coherent environment What are some practical outcomes of basic research in perception These are just a few of the questions this encyclopedia will consider as it presents a comprehensive overview of the field of perception for students researchers and professionals in psychology the cognitive sciences neuroscience and related medical disciplines such as neurology and ophthalmology
