Mind Trinity Trilogy:

The Master Set Universe Maxwell Katz, 2007 The Master Set Universe is an in depth investigation through the realms of Quantum Mechanics and Mathematics of the concept of the Master Set an all encompassing every thing entirely self referential in nature Maxwell Katz makes use of a number of analogies to illustrate his themes The way in which the Master Set projects the illusion of a mechanical world for example is likened to a computer game which plays out certain events although at the same time it contains infinite possibilities within itself Meaning and truth are analysed in the light of this Projective Realm There are no absolutes meaning is simply a way that we define ourselves giving us perspective in the way we perceive all other The overriding feature of the Master Set Universe is its Oneness From it comes every thing it is every thing
