

I have also used the same heart mould for my physalis cake which uses Alene's True Snow as a textured icing.

T Use the blunt end of a one-ended cocktail stick (or cut one point off a double-ended one) with just a little of the sticky icing mix on the stick to hold the beads (cherries) on long enough for you to move them into place (h).

S Put the beads all the way round and then finish off with some of your little moulded roses. Or you can use two slices of strawberry (i) and three dots of a tiny leaf cane.

You can also use brown polymer clay for the heart-shaped blanks and make a chocolate version. These cakes were made by one of my class groups at Sweet.
