## **An Introduction to Metametaphysics (Cambridge Introductions to Philosophy)**

### **Description :**

How do we come to know metaphysical truths? How does metaphysical inquiry work? Are metaphysical debates substantial? These are the questions which characterize metametaphysics. This book, the first systematic student introduction dedicated to metametaphysics, discusses the nature of metaphysics - its methodology, epistemology, ontology and our access to metaphysical knowledge. It provides students with a firm grounding in the basics of metametaphysics, covering a broad range of topics in metaontology such as existence, quantification, ontological commitment and ontological realism. Contemporary views are discussed along with those of Quine, Carnap and Meinong. Going beyond the metaontological debate, thorough treatment is given to novel topics in metametaphysics, including grounding, ontological dependence, fundamentality, modal epistemology, intuitions, thought experiments and the relationship between metaphysics and science. The book will be an essential resource for those studying advanced metaphysics, philosophical methodology, metametaphysics, epistemology and the philosophy of science.

Metaphysics is one of the traditional four main branches of philosophy alongside ethics logic and epistemology It is also an area that continues to attract and hold a fascination for many people yet it is associated with being complex and abstract For some it is associated with the mystical or religious For others it is known through the metaphysical poets who talk of love and spirituality This Very Short Introduction goes right to the heart of the matter getting to the basic and most important questions of metaphysical thought in order to understand the theory What are objects Do colours and shapes have some form of existence What is it for one thing to cause another rather than just being associated with it What is possible Does time pass By using these questions to initiate thought about the basic issues around substance properties changes causes possibilities time personal identity nothingness and emergentism Stephen Mumford provides a clear and simple path through this analytical tradition at the core of philosophical thought ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable      An Introduction to Metaphysics Jack S. Crumley II,2021-12-09

An Introduction to Metaphysics offers an engrossing survey of central metaphysical topics including truth universals the nature of mind personal identity free will time and the existence of God The book is pitched at an intermediate undergraduate level and is suitable for students without background knowledge in these areas Topically organized it examines a variety of historical and contemporary positions relevant to each of the included themes Memorable and amusing drawings by Gillian Wilson are interspersed throughout the text to illustrate concepts and examples      *Metaphysics* D. W. Hamlyn,1984-09-06 This book provides an introduction to metaphysics At the outset Professor Hamlyn distinguishes two conceptions of metaphysics running through the history of the subject One which goes back to Aristotle is concerned with ontology and with what has to exist for beings such as we are the other separates appearance and reality and attempts to establish what really exists Professor Hamlyn s account of metaphysics conforms with the first tradition This is not however primarily a historical exposition The discussion concentrates on central metaphysical concepts and problems including the principles of ontology substance particulars and universals monism and pluralism space and time minds selves and personal identity Throughout Professor Hamlyn s thoroughly informed and argued consideration of the topics presents both a persuasive view of the subject and an excellent grounding in it      **A Companion to Metaphysics** Jaekwon Kim,Ernest
