**Technology and Theology** William H. U. Anderson, 2021-01-05

Technology is growing at an exponential rate vis vis humanity's ability to control it Moreover the numerous ethical issues that technology raises are also troubling These statements however may be alarmist since Telus would tell us The Future is Friendly The Modernist vision of the future was utopic for instance Star Trek of the 1960s But postmodern views such as are found in Blade Runner 2049 are dystopic Theology is in a unique interdisciplinary position to deal with the many issues pro and con that technology raises Even theologians like Origen in the third century and Aquinas in the thirteenth century made forays into Artificial Intelligence and surrounding issues they just didn't know it at the time Artificial Intelligence AI and Transhumanism raise questions about what it means to be human What is consciousness What is soul What are life and death Can technology really save us and give us eternal life Theology is in a unique position to handle these questions and issues This book also has practical applications in terms of ecclesiology church in the context of the COVID 19 pandemic both in terms of what it means to be a church and in terms of the sacraments or ordinances Is there such a thing as a Virtual Church or must we gather physically to constitute one Are Baptism and Communion legitimate if one is not physically in a church building but are online This book struggles with these and many other questions which will help the scholar or reader make up their own minds however tentatively

**The Online Church** Chris Segun Onayinka, 2021-04-02 In recent times the whole world has witnessed a very strange occurrence a pandemic that practically shut down the whole world Churches at this instance were either forced compelled or made to hold their services in ways other than physical gatherings Somewhat it appears that there seems to be a theology that has evolved from this occurrence Many have started advocating for what is known as the virtual gathering of saints with good intentions I believe But oftentimes things that lead to error could be paved with good intentions The road to such

perfidy if at all or such abnormality could equally have been paved with good intentions Is there an online virtual church inscribed on the pages of the scriptures Some will readily say that there was no online technology so we can t say but definitely no one will say that there was no technology at all We can ask what role did the technology of their day play in the constitution of the local church and the churches in those Bible times Those are the issues we seek to explore in this material Theology must not be made to be subservient to the whims and caprices of the present times or become expedient such that incidences occurrences and events begin to shape our view of scriptures This is the heart cry of this short and incisive material but we trust God to answer the questions When Jesus founded a church both in Matthew 16 and instructions in Matthew 18 did it give allowances and permission for an online non physical gathering of saints that equally should be called church This we trust will be our study together with every reader as we go through Old Testament books scriptures of the prophets the 4 gospels the Book of Acts and the epistles We have also added historical and statistical facts to help us see the possibility and scriptural validity of what is today called The Online Church Once again arm yourselves with your regular study materials and let us study through the scriptures as we find out whether there is truly an online church     *Digital Mission* Bryce Ashlin-Mayo,2020 This book is designed as a theological and methodological exploration of online ministry with the specific goal of aiding the reader in creating an implementable online ministry strategy for a church or ministry It moves quickly along a pathway that assists the reader to understand technology form a theology of technology and explore its nature Part One The author then addresses digital technology s potential impact on the functions practices and structures of the church Part Two The final sections of the book assist pastoral leaders to design an implementable online ministry strategy that serve the congregation s mission and vision Part Three
