From Project-Based Learning to Artistic Thinking Raleigh Werberger, 2015-12-14 This book follows the course of a year long experiment in which the students were tasked with recreating a McDonald's Happy Meal by making all the components from food to packaging by hand from local ingredients. It was meant to test a hypothesis that a very well designed project in the arts can teach high school students academic skills and habits of mind while increasing motivation, emotional intelligence, creativity, and holistic thinking skills. This book is an antidote to other books that purport to show teachers an exact formula to follow to get amazing results in the classroom. It will help to create a classroom that is more like play with much more freedom and less scripting in order to engage students at a deeper level and still get excellent results. By teaching a project based history class like an arts studio and having the students redesign an archetypal American product in a very natural improvisational way, Werberger was able to have an energizing effect on their academic learning. This book will serve as a guide for teachers to learn more about the adaptive, creative, and epistemologically fascinating concept of arts based research. Proceedings of the International Joint Conference on Arts and Humanities 2022 (IJCAH 2022)

Handbook of Research on Creating Motivational Online Environments for Students Bilodeau, Julie A., Hughes, Larry W., 2023-08-18 There are many ways to motivate students to achieve their academic and personal goals. Due to the pandemic, more emphasis has been placed on finding alternative approaches to instruct students. Online learning has become the focal point of the educational setting, and new approaches to teaching are necessary. Since the change in delivery from face-to-face to online, teachers have been faced with motivating their students in an environment that is new and foreign to them. Teachers must find new methods to enhance their curriculum to motivate all students in this modality. The Handbook of Research on Creating Motivational Online Environments for Students considers how online students learn and how they progress through the learning process. The book also provides teaching techniques and technology that will improve motivational success for students in all modalities. Covering topics such as student behavior, online education, and motivational techniques, this premier reference source is ideal for administrators, researchers, academicians, scholars, practitioners, instructors, and students.

Localization and Quality Assessment of Project-Based Learning in China Xuemei Xia, 2025-09-17 This book provides a systematic assessment of the quality of Project-Based Learning (PBL) and proposes a diagnostic criteria framework for evaluating project design and implementation. It identifies key characteristics that vary as a result of differentiation. The book offers a feasible framework for implementing competency-based teaching on an international scale, drawing from our long-term exploration in China to address shortcomings in Chinese education. Furthermore, it delineates the boundaries and limitations of project-based design, facilitating professional learning in its implementation. Educational practitioners will gain multidimensional perspectives to develop their capacities and critically reflect on PBL's impact on students' learning processes.
