### **Poetry and Contemporary Visual Culture / Lyrik und zeitgenössische**

**Visuelle Kultur** Magdalena Elisabeth Korecka, Wiebke Vorrath, 2023-10-24 This book's goal is to determine the significance of visual culture in the production of contemporary poetry and to sound out the insights poetry might generate into contemporary visual culture. Its main hypothesis is that poetry holds considerable potential for post-digital language image and media criticism. The visual dimensions of recent poetry encompass for instance kinetic writing in digital poetry, visual elements in social media poems and spoken and written text image interactions in poetry films as well as in book poetry. The articles examine these medial correlations and their political implications by asking how visual culture is applied, exposed and debated in poetry. This volume brings together contributions by authors from various countries working in disciplines such as literary media and film studies, linguistics, cultural and visual culture studies and in poetic practice. It covers poetry in English, German, Norwegian, Polish, Ukrainian, Russian, Serbian and also multilingual works. The book thus aims to promote international exchange between poetry researchers and stimulate further investigation into current relations between poetry and visuality from additional research perspectives and languages.

Sexuality and Eroticism in a Post-pandemic World, 2023-09-20 The cultural change denominated as the new normal goes far beyond the adaptation to habits like physical distancing, limited person-to-person contact, teleworking and self-isolation established with the COVID-19 pandemic. A series of significant transformations in human behavior spreads today in societies all around the world: physical intimacy decreases while virtual reality expands and alterity declines while artificial intelligence emerges leading to structural reconfigurations of sex relationships, gender awareness and subjectivity. Sexuality and Eroticism in a Post-pandemic World explores this new cultural atmosphere through twelve interdisciplinary essays questioning global governmentality and challenging the biopolitics of the new normal, the administration of self-control societies so politically correct that repressed desire for otherness only finds a simulation of its satisfaction with the forced abnormality, outrageousness and violence of mainstream porn going from ars erotica to alternative pornography, from online dating to gender fluidity, from LGBTQI activism to sex life cultivation and more.
