Millennium 2000 A Positive Approach:

Millennium 2000 Louise L. Hay, 1999 This collection of wisdom aims to provide a positive approach to this important time in history Contributors include Deepak Chopra Marianne Williamson Alan Cohen Terah Kathryn Collins Ron Roth Ph D and Sylvia Browne Removing the Masks That Bind Us John Randolph Price, 2001-02-01 The best selling author of The Abundance Book Based on intensive research bestselling author John Randolph Price reveals how we create our own experiences by the masks we choose to wear masks such as the Victim Tyrant Manipulator Fanatic Worrier and Deceiver We put on these absurd false faces sometimes unconsciously to get our way or to defend ourselves against the external forces that seem to be preying on us The challenges of life seem to be magnified because the universe always reflects back the disguises we are wearing replaying all of our misconceptions and vulnerabilities in the physical world *Women at the Well* Frances Schwabenland; Marielena Zun, 2001-06-13 You've read what the doctors have to say about menopause You've heard the experts speak about the change on TV talk shows Now it's time to listen to the women themselves *Women at the Well The Many Voices of Menopause* is the only book of its kind to provide a voice for women on the printed page In this compelling book women share their firsthand stories of what it's like physically emotionally and spiritually to experience perimenopause and menopause These are the women at the well who stand in a united circle to draw the healing waters of wisdom to share with others And what they tell us is both heart warming and heart rending They want us to know their struggles They want us to know what has helped them and what hasn't They want us to know that menopause is a natural biological process and that they are not crazy Most of all they want other women to know that they are not alone Informative and highly readable these 33 narratives take us into the personal lives of these ordinary and extraordinary women who share their journeys through this critical life passage They tell us what it's like physically and dispel the myth that all women have hot flashes and mood swings While some do experience these symptoms others don't One size does not fit all when it comes to menopause As Catharine one of the women in the book states Often I would feel like a chained horse in the starting gate right before the big race High anxiety would just come over me Twice I had to ask my husband to leave a restaurant because I became so anxious and just couldn't sit there any longer Or as Michelle shares The memory loss has been the most difficult for me Downright embarrassing I would be in the middle of a conversation and forget what I was saying The night sweats got somewhat better but now they are getting worse again But even as these women share their physical and emotional struggles they manage to find hope and laughter as Dee Adams writes The creator of the world famous mid life cartoon Minnie Paus she shares The most valuable thing I have is my sense of humor and I hope to share it with as many women as possible It really does help to laugh at ourselves things DO improve I promise Or as Dr Larrian Gillespie author of many books including *The Menopause Diet* writes One day you're feeling fine and the next day you discover a suicide note from your ovaries on the side of a box of Tampax As these women open their hearts we also learn about other mid life challenges occurring at the same time as

menopause divorce caring for aging parents dealing with an empty nest and looking ahead to their own aging and retirement While ultimately a woman must make her own decision as to treatment to help alleviate symptoms these women tell us what has worked for them and what hasn't Not intended as medical advice these options range from hormone replacement therapy HRT to natural herbs and products For any husband significant other family member or co worker who can't seem to understand the menopausal woman in their lives this book will help Medical and mental health professionals will also gain greater insight about women's menopausal experiences in these accounts Even more important perimenopausal and menopausal women or those women about to enter these stages will find support and validation in these stories At this nurturing well of firsthand information and wisdom they will find hope There they will hear the many voices of menopause

Happily Even After Alan Cohen,1999-08-01 Alan Cohen shows us how to approach relationship parting in a way that bestows us with strength and empowerment rather than pain and sadness Alan tells us that we should define the success of a relationship by the quality of aliveness we experienced while the relationship thrived and that although you may no longer have romantic love for each other you can have a spiritual love that can endure forever He calls this kind of love Big Love Big Lovers recognize that the key to enjoying a better relationship with your next partner is to appreciate the last one for both the joys you shared and what you learned through the challenges If you are ready to move from fear and separateness to mutual empowerment if you are ready to grow beyond strife this book offers you a new vision and many tools to live by

engaged properly resisters can help to improve change efforts and strengthen an organization's overall transformation

Managing Social and Ethical Issues in Organizations Stephen W. Gilliland, Dirk D. Steiner, Daniel P. Skarlicki, 2007-02-01 This volume provides up to date reviews of the research on a number of social and ethical issues of

increasing concern confronting today's managers and organizations. The authors who are recognized international experts on the topics they treat provide new theories and innovative perspectives on these issues. Further, they use a research base to identify ways for managers and human resources professionals to address these issues in their organizations. Given its breadth of coverage, practitioners faced with these issues as well as researchers and graduate students in management and organizational psychology should find this volume of interest. This collection of ten chapters provides the cutting edge on a number of the most pressing challenges in management today. Readers of the volume will discover new models, innovative theoretical approaches, comprehensive reviews, theoretical and methodological critiques, and specific and insightful suggestions for research on these different social and ethical issues facing organizations. Perhaps more importantly, the practical suggestions that come from the research provide a useful bridge between what we know and what we can do to address these challenges and thus contribute even in a small way to workplaces that respect ethics and individuals in all their diversity. *The Publishers Weekly*, 1999

Helping the Difficult Library Patron Linda S. Katz, 2013-10-31 This insightful book shows you how to deal with an issue as old as the library profession: interacting with problem patrons. It looks at this fact of life that affects almost every facet of library work and provides practical solutions, some developed within the field and some borrowed from other professions that will improve reference services for those you serve and make the work of your library staff less stressful, more productive, and increasingly meaningful. **Helping the Difficult Library Patron: New Approaches to Examining and Resolving a Long Standing and Ongoing Problem** examines the nature of the problem from historical and demographic perspectives, ways of dealing with the problem in academic and public libraries, competency-based training techniques that will empower your frontline staff, the impact of new technologies such as cellular phones and the Internet, and ways of dealing with the new breeds of difficult patrons that come with them. Solutions from our colleagues, what we can learn from the perspectives of others, psychotherapists, businesspeople, and corporate managers, you even get a Zen Buddhist viewpoint, effective ways to utilize community resources such as campus and local police, and much, much more. Nowhere in the library literature have so many practitioners and educators combined their efforts to examine and provide solutions to this ageless problem. Library administrators, staff, and educators will find **Helping the Difficult Library Patron** a matchless resource.
