Next Generation Genres: Teaching Writing for Civic and Academic Engagement Jessica Singer Early, 2022-11-29

Students need updated writing genres and a real reason to write. Evolutions in technology and connectivity have brought about significant changes in the ways writing is produced and shared. Yet despite monumental shifts in the practice of writing, how we teach writing has remained largely static. What we need is a new set of genres for writing instruction—genres that will speak to students who are already immersed in rich and multifaceted literacy practices through social media, gaming, and new technologies. Jessica S. Early's *Next Generation Genres* provides an alternative framework for a secondary writing curriculum that places a central emphasis on helping students gain the experience they need to write with confidence in academic and civic life. If your students' eyes glaze over when they face a standard essay assignment, perhaps it's time to let them try writing an infographic or a podcast.

[Public Scholarship in Dance](#) Lynnette Young Overby, 2015-08-12

Dance educators in higher education have a long history of enriching the lives of others through community-based teaching, choreography, research, and service. Yet their valuable contributions to community development may not be acknowledged as legitimate scholarship by the university or other educational organizations. If you are a dance educator or student seeking to engage in public scholarship in dance and want to ensure your work receives the attention it deserves, this resource is for you. *Public Scholarship in Dance* is a dance-specific guide that provides examples of what others have done and suggestions for ways dance educators can evaluate their own projects or work for scholarship. Complete with research, teaching, performance, assessments, and dissemination tools, it is a total package that supports dance educators in their professional development through public scholarship and community engagement. Author Lynnette Young Overby combines Kolb's experiential education model with her three decades of experience as a dance educator to show how dance can be public scholarship as teaching, choreography, research, and service. Throughout the text, she shares examples of well-known dance educators who use the methodology to create community dance in a range of settings, including nursing homes, schools, community arts organizations, and underserved groups in the community. Through this text, future public scholars will learn how to do the following:

- Identify the criteria for public scholarship in dance and connect it to academic requirements for dance educators.
- Understand and apply to their projects the framework for public scholarship in dance.
- Broaden their view of public scholarship to include research, testing, choreography, performance, and service.
- Document their professional activities and development for university administrators.
- Demonstrate the value of their contributions within the framework of promotions, merit, and tenure.
- Lay the foundation for projects considered legitimate by the university and other academic settings.

Features include the following:

- Real-world examples of successful community dance projects.
- Dance-specific models for future project design.
- Assessment tools for connecting projects to rigor in dance education.
- An appendix with ready-to-use templates to guide the development, implementation, and dissemination of public scholarship in dance projects.
- Suggested readings and additional resources for continued learning and professional development.

The goal of this text is to assist dance educators in creating scholarly, community-focused projects. To that end, the book mirrors the stated missions of higher education: teaching

research service and for dance educators choreography Chapter 1 establishes the historical and theoretical basis for public scholarship while defining public scholarship in dance Chapter 2 focuses on academic service learning including the teaching of dance and the importance of meeting the experiential learning needs of students Chapter 3 explores choreography as community expression and offers guidelines on assessing and developing community based choreography In chapter 4 dance educators delve into research and the role it plays in shaping a career in public scholarship Chapter 5 makes a case for service as scholarship while demonstrating specific assessment criteria that demonstrate impact Chapter 6 explores various forms of assessment that can be used to document projects and prepare for tenure promotion and merit considerations Chapter 7 concludes by proposing a vision for the future of dance education in which community is an integral part Public Scholarship in Dance will inspire budding and experienced dance educators and arm them with the necessary tools to incorporate community engagement into their lives to positively affect students their community and their professional portfolios
