The Influence of Computers, the Internet and Computer-Mediated Communication on Everyday English Sandra Greiffenstern,2010 Computers and the Internet gave rise to the emergence of computer mediated communication CMC The *Influence of Computers the Internet and Computer Mediated Communication on Everyday English* focuses on the use of English in connection with computers and the Internet and on its influences on everyday English by analysing the dispersal of new meanings of words neologisms features of CMC and new metaphors The intention is to show the computer and Internet related impact on the English language from several perspectives and to take several ways into consideration in which the Internet and CMC are changing language use and to evaluate this influence at least as far as this is possible

Advances in Computers Marvin Zelkowitz,2009-05-20 This is volume 76 of the *Advances in Computers* Since 1960 annual volumes are produced containing chapters by some of the leading experts in the field of computers today For almost 50 years these volumes present ideas and developments that are radically changing our society

One of the most important ideas sweeping through society today is the social networking website. Names like Wikipedia, Flickr, Second Life, Twitter, Facebook, Meetup, MySpace, LinkedIn among others are becoming common parlance as the youth and a growing segment of the adult population now view such websites as alternatives to the corner convenience store or coffee shop and critically important avenues for social interactions. In this volume we explore this phenomenon to describe the development of some of these ideas as well as developments in web technology that enable this to occur. This volume contains seven chapters divided into two parts. The first three chapters describe the social networking phenomenon and provide insights into the technology and influences on our culture. The last four chapters provide details of the underlying technology that allows the web to expand to include these social networking sites as well as other new applications for information dissemination, accessing and sharing.
