Kirkwood,2020-08-24 This new edition of Strauss s guide helps users to find current information for and about businesses of all kinds both private and public U S based and international related to finance investment

industries and entrepreneurship Strauss's Handbook of Business Information is a resource for finding and understanding business information. It contains explanation and instruction on the key facets of business information and provides detailed descriptions of key resources within both broad and specific categories. It can be used as a guide to further understanding the what, how, and why of business information research. The changing arena of business information requires regular updating and awareness. This new edition has been thoroughly updated with three new chapters: Entrepreneurship, Competitive Intelligence, and Corporate Social Responsibility. Other additions of note include subsections on internet and mobile marketing and tax havens and related issues, coverage of new legislation (e.g., Dodd-Frank) and subsections on index funds, investment communities, regulatory bodies and laws, hedge funds, venture capital companies, assessing risks, robo-advisors, and more. The Handbook is for students, faculty, librarians, and information professionals looking to gain a broader and deeper understanding of business information. Anyone needing to gain quick exposure to business information needs and resources for solutions will benefit from the volume as well.

The art of Self Publishing and Website creation

Premyogi Vajra, 2021-01-02 This book is a compilation of Premyogi Vajra's blog posts that he has created for demystifyingkundalini.com. Premyogi Vajra is a self-aware and mysterious person. With his Kundalini awakening, there was a flood of high mentality in his brain. Impressed by that, he created many books and the above website. Regarding his experiences related to book publishing and website making, he made them known as his blog posts. A separate chapter has been created for each article. Readers will surely find this e-book interesting, informative, and comfortable to read. Knowledge sharing is a fundamental tool to grow a society. Experience gained without subsequent sharing is of little value. It remains confined to a single man and gets perished with him. Therefore, to be able to properly and easily share one's experiences, one must know at least the basics of self-publishing and website creation, for these are basic modern tools of sharing knowledge. The writer had to deal with a great deal of hassle while learning self-publishing and website creation. He took many years to learn their basic tips so that people do not get suffered like himself. He compiled all tips he got while learning these in form of this book. Hope that people will find this book brief, practical, and easy. Friends, if the art of sharing experiences with everyone is not learned, then those experiences would not have special significance. Those experiences remain confined to that single man and perish with him. In today's times, websites and e-books are the most important means of sharing experiences. Therefore, it is important for everyone to have basic knowledge of website creation and self-publication. This book serves very well the same purpose of achieving this goal.
