### **Deleuze and the Unconscious**

Christian Kerslake,2007-03-08 By the end of the twentieth century it had been almost forgotten that the Freudian account of the unconscious was only one of many to have emerged from the intellectual ferment of the second half of the 19th century The philosophical roots of the concept of the unconscious in Leibniz Kant Schelling and Schopenhauer had also been occluded from view by the dominance of Freudianism From his earliest work of the 1940s until his final writings of the 1990s Gilles Deleuze stood at odds with this dominant current rejecting Freud as sole source for ideas about the unconscious This most contemporary of French philosophers acted as custodian of all the ideas that had been rejected by the proponents of the psychoanalytic model carefully preserving them and when possible injecting them with new life In 1950s and 60s Deleuze turned to Henri Bergson s theories of memory and instinct and to Carl Jung s theory of archetypes In Difference and Repetition 1968 he conceived of a differential unconscious based on Leibnizian principles He was also immersed from the beginning in esoteric and occult ideas about the nature of the mind Deleuze and the Unconscious shows how these tendencies combine in Deleuze s work to engender a wholly new approach to the unconscious for which active relations to the unconscious are just as important as the better known pathologies of neurosis and psychosis

Jung's Wandering Archetype Carrie B. Dohe,2016-07-01 Is the Germanic god Wotan Odin really an archaic archetype of the Spirit Was the Third Reich at first a collective individuation process After Friedrich Nietzsche heralded the death of God might the divine have been reborn as a collective form of self redemption on German soil and in the Germanic soul In Jung s Wandering Archetype Carrie Dohe presents a study of Jung s writings on Germanic psychology from 1912 onwards exploring the links between his views on religion and race and providing his perspective on the answers to these questions Dohe demonstrates how Jung s view of Wotan as an archetype of the collective Germanic psyche was created from a combination of an ancient discourse on the Germanic barbarian and modern theories of primitive religion and how he further employed v Ikisch ideology and various colonialist discourses to contrast hypothesized Germanic Jewish and primitive psychologies He saw Germanic psychology as dangerous yet vital promising rebirth and rejuvenation and compared Wotan to the Pentecostal

Spirit suggesting that the Germanic psyche contained the necessary tension to birth a new collective psycho spiritual attitude In racializing his religiously inflected psychological theory Jung combined religious and scientific discourses in a particularly seductive way masterfully weaving together the objective language of science with the eternal language of myth Dohe concludes the book by examining the use of these ideas in modern Germanic religion in which members claim that religion is a matter of race This in depth study of Jung s views on psychology race and spirituality will be fascinating reading for all academics and students of Jungian and post Jungian studies religious studies and the history of religion

**On Racial Frontiers** Gregory Stephens,1999-06-28 Frederick Douglass Ralph Ellison and Bob Marley each inhabited the shared but contested space at the frontiers of race Gregory Stephens shows how their interactions with mixed audiences made them key figures in a previously hidden interracial consciousness and culture and integrative ancestors who can be claimed by more than one racial or national group Douglass something of an Irishman as well as a Negro was an abolitionist but also a critic of black racism Ellison s Invisible Man is a landmark of modernity and black literature which illustrates the true interrelatedness of blackness and whiteness Marley s allegiance was to God s side who cause me to come from black and white His Bible based Songs of Freedom envisage a world in which black liberation and multiracial redemption co exist The lives of these three men illustrate how our notions of race have been constructed out of a repression of the interracial

*Childhood, Well-Being and a Therapeutic Ethos* Richard House,Del Loewenthal,2018-04-17 A key theme of this book is that we urgently need a therapeutic ethos in order to bring both educational and therapeutic sensibilities to bear on the issue of children s wellbeing if truly effective and appropriate policy responses to the current malaise are to be fashioned Not least we must pay particular attention to childhood experience showing that scientific and technical developments are always secondary to the resources of the human soul if we are to minimize the extent to which today s children will need therapy as adults This will entail moving beyond narrowly mechanistic definitions of and ways of thinking about well being and the psychological therapies This book offers pointers to the kinds of arguments that can inform what is rapidly becoming a central concern of politicians and policy makers

[Challenging Addiction in Canadian Literature and Classrooms](#) Cara Fabre,2016-11-14 In the richly interdisciplinary study Challenging Addiction in Canadian Literature and Classrooms Cara Fabre argues that popular culture in its many forms contributes to common assumptions about the causes and personal and social implications of addiction Recent fictional depictions of addiction significantly refute the idea that addiction is caused by poor individual choices or solely by disease through the connections the authors draw between substance use and poverty colonialism and gender based violence With particular interest in the pervasive myth of the Drunken Indian Fabre asserts that these novels reimagine addiction as social suffering rather than individual pathology or moral failure Fabre builds on the growing body of humanities research that brings literature into active engagement with other fields of study including biomedical and cognitive behavioural models of addiction medical and health policies of harm reduction and the practices of

Alcoholics Anonymous The book further engages with critical pedagogical strategies to teach critical awareness of stereotypes of addiction and to encourage the potential of literary analysis as a form of social activism
