As any practitioner will tell you, the future isn't a contract chiseled in concrete but rather a wish scribbled in beach sand just before high tide. Here's what you'll learn: Tarot history, How to clear your tarot card deck, How to create the best conditions to achieve the most powerful readings, The standard meaning of each card in the major arcana and minor arcana. This workbook contains 33 tarot spreads for enhancing your intuition and revealing your inner self. How you feel and think in the present moment will have an impact on the future in a way if we change our mindset and the way we feel about ourselves and our surroundings, we change the outcome of any situation in the future. If you follow the guidelines mentioned in this workbook, you have the opportunity to change the perception of your current reality and step into a new one.

Prediction through Dasha System S.C. Kursija, Prediction through Dasha System is the chief objective of Predictive Astrology. Maharshi Parashar has mentioned 43 types of Dashas in his Brihat Parashar Hora Shastra. Here in this book, the Vimshottari Dasha has been mentioned elaborately in particular, which is used extensively. Besides the Ashtottari and Yogini Dashas, have also been narrated briefly. Vimshottari Dasha system is based on constellation. This system is used throughout India and recognized by all. It is based on the lordship of planet. The native can have results according to the house of which the planet is the lord. So it is essential to know the Karakatva of the house and the merit of the lord of it. The book has been composed keeping in view the problems of the students of All India Federation of Astrologers Societies on the inspiration of Mr. Arun Kumar Bansal. This book explains the method of prediction on the basis of Dasha in an easy-to-understand manner. A learned astrologer has to make study of the three different parts of a horoscope: 1. Yoga, the combination of planets and Lords; 2. Period, sub-period, i.e. dasha; 3. Gochar, that is transit. All the three parts are the supplements of each other. Yoga is most important among all the three parts. Period, sub-period, i.e. dasha, may prove to be futile if there is no Yoga in a horoscope. For example, Period, sub-period, that of Lord of fifth house or of Karaka planet cannot bless a native with a child if there is no Santan Yoga in his horoscope. Likewise, Gochar too cannot do anything if there is no Yoga in a horoscope. So all the three parts are essential to have the result.

the incorporation of these five elements in the construction of a house then the people residing in the building shall reside happily These five elements are Earth Water Fire Air and Space Our universe also is made up of these five elements only Therefore the saying goes Yatpindetatbramhande God bhagwan has given these five gifts to us from bha bhumi land from ga gagan sky ether from va vayuq air from na neer water God is represented by the symbol Om These five elements are present in this Om also Aa is Agni fire Au is Jal water Ma is Vayu air W ardhachandra is Bhoomi land and 0 is Akash ether sky Similarly the word Vastu also denotes these five elements From Va Vayu air from Aa Agni fire from Sa Srishti Bhoomi land from Ta Tat means Akash ether sky and from Au Jal water These five elements also are represented by the five planets 1 Earth is represented by Mars 2 Water is represented by Venus 3 Fire is represented by Sun 4 Air is represented by Saturn 5 Ether is represented by Jupiter Similarly mind is controlled by Moon Intelligence is controlled by Mercury Ego and arrogance is controlled by Rahu and moksha or spirituality by Ketu Disbalance of these elements in the body produces ill health and disease In a similar manner the disbalance of these elements in a house creates varied kind of troubles for the persons living in it There are unlimited forces present in nature Some of these forces influence us for example the gravitational force of earth the magnetic and electrical energy of the universe and the electromagnetic force present everywhere These energies also exist in the constructed house and they continue influencing the electromagnetic force present in the human body This produces the auspicious or inauspicious results These results vary from place to place depending on the geographical location For these reasons the results of vastu principles are not the same all over the world They differ according to the longitude and latitude of the place They also differ according to the horoscope of the person concerned If man goes along with the flow of nature s energies it produces good health progress and prosperity If he goes against the flow of nature he faces hurdles and obstructions everywhere Hence it is utmost important and necessary for us to organize our lives according to nature only then we can live happily Halayudha kosha says that Vastu is that art of house construction which starts from Ishan kona etc and which protects the residents of the house from natural calamities and obstructions
