Latin American Identity in Online Cultural Production Claire Taylor, Thea Pitman, 2013-03-05 This volume provides an innovative and timely approach to a fast growing yet still under studied field in Latin American cultural production digital online culture It focuses on the transformations or continuations that cultural products and practices such as hypermedia fictions net art and online performance art as well as blogs films databases and other genre defying web based projects perform with respect to Latin Americanist discourses as

well as their often contestatory positioning with respect to Western hegemonic discourses as they circulate online The intellectual rationale for the volume is located at the crossroads of two equally important theoretical strands theories of digital culture in their majority the product of the anglophone academy and contemporary debates on Latin American identity and culture The Writers Directory ,2013 Съвременни предизвикателства пред туризма ,2022-05-12 12 2022

Globalisation and Services-driven Economic Growth Niels Beerepoot,Bart Lambregts,Jana Kleibert,2016-07-28

Following drastic shifts in the spatial organization of goods production increasingly fierce competition now forces firms also to look critically at how to organize the production of services While digitization and advances in information and communication technologies have enabled firms to unbundle service production processes the increased global availability of skilled labour allows for the relocation of ever more of these processes around the world As a result a new geography of services production takes shape a geography that is defined by new interregional and international divisions of labour and held together by increasingly complex global services production networks This book examines how the reorganisation of services production alters relations between and generates different sets of challenges and opportunities for economic development in the Global North and the Global South Drawing from 11 case studies probing various aspects of services production in different parts of the world the book brings out the remarkable heterogeneity and transformative capacities of services It successively shows how global trade in services creates new interdependencies between services producing and services consuming regions reveals how services help to mitigate the impact of and contribute to recovery from economic crises in the Global North and demonstrates how services offshoring fosters economic development and service sector driven modernisation processes in the Global South The book s openness to the heterogeneous and dynamic nature of services production enlarges our understanding of which particular services in which spatiotemporal context have the capacity to generate good jobs contribute to productivity and drive economic growth The book stands out from other books in the field in that it combines perspectives on services driven transformations from both the Global North and the Global South and looks into the role of various services segments Based on pioneering empirical research and original data it offers a timely contribution to this growing debate The book provides valuable insights for students scholars and professionals interested in services services offshoring services driven growth and socioeconomic transformations in the Global North and South

World Regions in Global Context Sallie A. Marston,Paul L. Knox,Diana M. Liverman,2002 This explicitly global approach to world regional geography emphasizes global connections and the stories behind the maps and offers lively discussions of how these forces and processes play themselves out in individual places The authors make the most current and powerful ideas in geography accessible to the introductory student Emphasis on core regions key cities and distinctive landscapes accommodates a global connections approach as well as the course s traditional focus on places at the local scale

National Geographic Collegiate Atlas of the World National Geographic Society (U.S.),2006 This compact easy to use

atlas offers the convenience of smaller scale without sacrificing clarity or detail instead identically scaled maps on a given continent enable readers to compare physical political and regional information simply and accurately In addition access to a companion Web site provides continuing and complementary information
