**Newspaper City** Phillip Gordon Mackintosh, 2017-04-24 In Newspaper City Phillip Gordon Mackintosh scrutinizes the reluctance of early Torontonians to pave their streets He demonstrates how Toronto s two liberal newspapers the Toronto Globe and Toronto Daily Star nevertheless campaigned for surface infrastructure as the leading expression of modern urbanity despite the broad resistance of property owners to pay for infrastructure improvements under local improvements

by laws To boost paving newspapers used their broadsheets to fashion two imagined cities for their readers one overrun with animals dirt and marginal people the other civilized modern and crowned with clean streets However the employment of capitalism to generate traditional public goods such as concrete sidewalks asphalt roads regulated pedestrianism and efficient automobilism is complicated Thus the liberal newspapers promotion of a city of orderly infrastructure and contented people in actual Toronto proved strikingly illiberal Consequently Mackintosh s study reveals the contradictory nature of newspapers and the historiographical complexities of newspaper research
