history in interwar Europe and the Soviet Union Photographic Literacy Katherine M. H. Reischl, 2018-12-15 Photography introduced to Russia in 1839 was nothing short of a sensation Its rapid proliferation challenged the other arts including painting and literature as well as the very integrity of the self If Leo Tolstoy and Fyodor Dostoevsky greeted the camera with skepticism in the nineteenth century numerous twentieth century authors welcomed it with a warm embrace As Katherine M H Reischl shows in *Photographic Literacy* authors as varied as Leonid Andreev Ilya Ehrenburg and Alexander Solzhenitsyn picked up the camera and reshaped not only their writing practices but also the sphere of literacy itself For these authors a single photograph or a photograph as illustration is never an endpoint their authorial practices continually transform and animate the frozen moment But just as authors used images to shape the reception of their work and selves Russian photographers including Sergei Prokudin Gorsky and Alexander Rodchenko used text to shape the reception of their visual work From the diary to the print the literary word imbues that photographic moment with a personal life story and frames and reframes it in the writing of history In this primer on photographic literacy Reischl argues for the central place that photography has played in the formation of the Russian literary imagination over the course of roughly seventy years From image to text and back again she traces the visual consciousness of modern Russian literature as captured through the lens of the Russian author photographer **Photography in Children's Literature** Elina Druker, Bettina

Kümmerling-Meibauer, 2023-10-15 *Photography in Children's Literature* is the first study that examines the wide array of artistic techniques topics and genres used within photographic books for children Covering a time period from the 1870s to the 1980s the collection offers multifaceted insights into changing perceptions of children and childhood during an era when the world changed in unprecedented ways More than sixty full color illustrations demonstrate an impressive variety of genres from ABC books concept books and country portraits to photo reportage and poetry By discussing photographic books from ten countries and three continents the collection offers an international scope providing a glimpse into the production and reception of photography in children's literature in a range of contexts and cultures Photographic books for children thus open up new vistas for scholars interested in an interdisciplinary and transnational investigation of children's literature text and images across the centuries Making Strange Kim Sichel, 2020-03-17 A richly illustrated look at some of the most important photobooks of the 20th century France experienced a golden age of photobook production from the late 1920s through the 1950s Avant garde experiments in photography text design and printing within the context of a growing modernist publishing scene contributed to an outpouring of brilliantly designed books *Making Strange* offers a detailed examination of photobook innovation in France exploring seminal publications by Brassa Henri Cartier Bresson Robert Frank Pierre Jahan William Klein and Germaine Krull Kim Sichel argues that these books both held a mirror to their time and created an unprecedented modernist visual language Sichel provides an engaging analysis through the lens of materiality emphasizing the photobook as an object with which the viewer interacts haptically as well as visually Rich in historical

context and beautifully illustrated Making Strange reasserts the role of French photobooks in the history of modern art

Postcards from Absurdistan Derek Sayer, 2022-11-01 A sweeping history of a twentieth century Prague torn between fascism communism and democracy with lessons for a world again threatened by dictatorship Postcards from Absurdistan is a cultural history of Prague from 1938 when the Nazis destroyed Czechoslovakia's artistically vibrant liberal democracy to 1989 when the country's socialist regime collapsed after more than four decades of communist party rule Derek Sayer shows that Prague's twentieth century far from being a story of inexorable progress toward some end of history whether fascist communist or democratic was a tragicomedy of recurring nightmares played out in a land Czech dissidents dubbed Absurdistan Situated in the eye of the storms that shaped the modern world Prague holds up an unsettling mirror to the absurdities and dangers of our own times In a brilliant narrative Sayer weaves a vivid montage of the lives of individual Praguers poets and politicians architects and athletes journalists and filmmakers artists musicians and comedians caught up in the crosscurrents of the turbulent half century following the Nazi invasion This is the territory of the ideologist the collaborator the informer the apparatchik the dissident the outsider the torturer and the refugee not to mention the innocent bystander who is always looking the other way and Vclav Havel's greengrocer whose knowing complicity allows the show to go on Over and over Prague exposes modernity's dreamworlds of progress as confections of kitsch In a time when democracy is once again under global assault Postcards from Absurdistan is an unforgettable portrait of a city that illuminates the predicaments of the modern world

Reorientalism Nariman Skakov, 2025-10-28 It is commonly believed that Stalinism ended a vibrant period in Soviet avant garde art and literature The triumph of socialist realism in this view curtailed experimentation with aesthetic form and replaced it with a call for clarity accessibility and ideological conformity But Stalin's formula national in form socialist in content gave artists an opening for officially sanctioned formal innovation as long as it drew on the national cultures of the Soviet Union Nariman Skakov offers a new way to understand Soviet modernism showing how writers and artists looked to the East to renew avant garde experimentalism under Stalin He traces how figures such as Victor Shklovsky Aleksandr Rodchenko Varvara Stepanova Dziga Vertov and Sergei Eisenstein responded to the Soviet state's ideological demands by engaging with the traditions of the new socialist republics in Central Asia The concept of national form gave these artists a sanctuary for aesthetic innovation yet this experimentation relied on exoticization of the strangeness of the Soviet East and a fascination with ethnic others Recasting Soviet aesthetics from the vantage point of Central Asia Skakov rethinks orientalism and its relationship to socialism Challenging conventional narratives of the fate of the Soviet avant garde Reorientalism provides a deeply original decentering of modernism 2019

books Aleksandr Rodchenko Aglaya K. Glebova, 2022-01-01 Through the lens of Aleksandr Rodchenko's photography a new and provocative understanding emerges of the troubled relationship between technology modernism and state power in Stalin's Soviet Union Tracing the shifting meanings of photography in the early Soviet Union Aglaya K Glebova revises the relationship between art and politics during what is usually considered the end of the critical avant garde Aleksandr Rodchenko 1891 1956 was a highly versatile Russian artist and one of Constructivism's founders His photographic work between 1928 when Stalin rose to power and the late 1930s reveals a wide ranging search for a different pictorial language in the context of the extreme transformations carried out under the Five Year Plans In response to forced modernization Rodchenko's photography during this time questioned his own modernist commitments At the heart of this argument is Rodchenko's infamous 1933 photo essay on the White Sea Baltic Canal site of one of the first gulags Glebova's careful reading of Rodchenko's oeuvre yields a more diverse practice than has been generally acknowledged and brings to light new aspects of his work in adjacent media including the collaborative design work he undertook with Varvara Stepanova

Faster, Higher, Stronger, Comrades! Tim Harte, 2020-07-07 The revival of the Olympic games in 1896 and the subsequent rise of modern athletics prompted a new energetic movement away from more sedentary habits In Russia this ethos soon became a key facet of the Bolsheviks' shared vision for the future In the aftermath of the revolution glorification of exercise persevered pointing the way toward a stronger healthier populace and a vibrant Socialist society With interdisciplinary analysis of literature painting and film Faster Higher Stronger Comrades traces how physical fitness had an even broader impact on culture and ideology in the Soviet Union than previously realized From prerevolutionary writers and painters glorifying popular circus wrestlers to Soviet photographers capturing unprecedented athleticism as a means of satisfying their aesthetic ideals the nation's artists embraced sports in profound inventive ways Though athletics were used for doctrinaire purposes Tim Harte demonstrates that at their core they remained playful joyous physical activities capable of stirring imaginations and transforming everyday realities
