The North African Military Balance Anthony H. Cordesman,Aram Nerguizian,2009-01-28 **Handbook of Defence Politics** Isaiah "Ike" Wilson III,James J.F. Forrest,2011-03-28 Issues of defence politics and policy have long been at the forefront of political agendas and defining of international affairs However the dramatic changes to the global system that have taken place since the end of the Cold War and particularly since the terror attacks on the USA on 11 September 2001 have amplified the world s attention toward political and policy issues of national regional and global security The focus of this volume is on examining the fundamental causes of and defence policy responses to this new post 9 11 security environment Edited by Isaiah Ike Wilson III and James J F Forest of the US Military Academy West Point USA this volume is international in scope with pieces written by experts in the field offering a collection of up to date and balanced insights on key contemporary issues of concern to defence policymakers The book will be an invaluable reference tool for academics and students researchers in international relations policymakers media professionals and government officials

The Gulf Military Balance Anthony H. Cordesman,Robert M. Shelala,Omar Mohamed,2014-03-12 The United States faces major challenges in dealing with Iran the threat of terrorism and the tide of political instability in the Arabian Peninsula The presence of some of the world s largest reserves of oil and natural gas vital shipping lanes and Shia populations throughout the region have made the peninsula the focal point of US and Iranian strategic competition Moreover large youth populations high unemployment rates and political systems with highly centralized power bases have posed other economic political and security challenges that the Gulf states must address and that the United States must take into consideration when forming strategy and policy *European Military Crisis Management* Bastian Giegerich,2017-10-03 International demand for military crisis management missions continues to grow and demand for troops continues to outstrip supply Like other

Western democracies European Union member states because of their wealth relative military competence and commitment to human rights bear a particular responsibility to expand the international communitys capacity for action But while the EU has succeeded in defining a complex military technical and political strategic framework to boost its role and that of its member states in crisis management its performance so far has fallen well short of its ambitions This paper analyses what the EU wants to be able to do militarily its level of ambition and contrasts this aspiration with the current reality To explain the gap between the two the paper examines national ambitions and performance across the EU and analyses their domestic determinants using the examples of Austria Germany and the United Kingdom The paper concludes by suggesting that the EU might need to strike a new balance between the inclusiveness and the effectiveness of its activities in this area if it wants to increase its military crisis management performance and live up to its declared ambitions

Israel and Syria Anthony H. Cordesman, Aram Nerguizian, Inout C. Popescu, 2008-07-30 Israel and Syria The Military Balance and Prospects of War provides a detailed and current picture of the military capabilities of Israel and Syria reflecting the changes and lessons of the Israel Hezbollah War in 2006 and other recent conflicts It offers extensive analysis supported by tables and charts on the trends in military spending arms imports and technology transfers military manpower weapons and orders of battle By going beyond military balance analysis Cordesman examines the probable nature and results of a future war and how the readiness capability tactics and technology on each side would shape its outcome Israel and Syria The Military Balance and Prospects of War shows how a dangerous new conflict between both nations would cripple all strides in strategic gains and Israeli Syrian diplomacy On the other hand peace negotiations would offer a safer more productive relationship Israel and Syria need to consider the true nature of their military balance and the undermining effect to both nations as well as the costs and risks of any future conflict Although Syria does retain important options in terms of asymmetric and proxy conflicts it would fail in its attempt to recapture the Golan While Israel would almost certainly win a future war it cannot make gains from acquiring more Syrian territory and a new war would create major problems with its neighbors and in dealing with the Palestinians The risk of a new Israeli Syrian conflict is so serious that both sides need to understand the true nature of their military balance and the costs and risks of any future conflict Israel and Syria The Military Balance and Prospects of War shows how dangerous a new conflict could be that neither side can make lasting strategic gains from a future conflict and that peace negotiations offer a far safer and more productive option It provides a detailed and current picture of the military capabilities of Israel and Syria reflecting the changes and lessons of the Israel Hezbollah War in 2006 and other recent conflicts Israel and Syria The Military Balance and Prospects of War provides extensive analysis supported by tables and charts on the trends in military spending arms imports and technology transfers military manpower weapons and orders of battle By going beyond military balance analysis Cordesman examines the probable nature and results of a future war and how the readiness capability tactics and technology on each side would shape its outcome

Russian Military Reform

Carolina Vendil Pallin,2008-08-29 This book examines reform of the Russian military since the end of the Cold War It argues that Putin s policies of bolstering central control has left untouched many key problems including infighting between different forces lack of transparency over defence spending and absence of consensus on the main threats **The Military Balance 2012** The International Institute for Strategic Studies (IISS),2020-03-26 The Military Balance is the International Institute for Strategic Studies annual assessment of the military capabilities and defense economics of 170 countries worldwide It is a useful resource for those involved in security policy making analysis and research The book is a region by region analysis of the major military and economic developments *Continental Powers and Naval Development* Brian C. Chao,2025-10-16 This book examines how continental great powers have attempted to develop and wield strong navies since 1801 Continental Powers and Naval Development argues that a continental great power s ability to build and effectively use a strong navy is greatly affected by two factors a naval force design capable of executing national strategy strategy coherence and the deployment of that navy to places or for purposes that minimize the dominant naval power s threat perception threat diffusion Each factor is deceptively difficult for a continental great power to achieve but through an analysis of four historical case studies this book shows how both factors are vital not just for successful naval development but for keeping the peace among great powers Finally it highlights how states commonly thought of as unnatural naval powers can nonetheless achieve their political objectives at sea This book will be of much interest to students of naval history maritime strategy and International Relations **The Military Balance 2013** The International Institute for Strategic Studies (IISS),2020-12-15 The Military Balance 2013 is the annual assessment of the military capabilities and defence economics of 171 countries world wide New features of the 2013 edition include reorganised and expanded analytical essays New sections on trends in contemporary armed conflicts in Afghanistan and Syria as well as trends in defence capability areas with a focus on equipment technological or doctrinal developments There is also an essay on trends in defence economics and procurement one on European defence industries and another on anti access area denial detailed analysis of regional and national defence policy and economic issues for selected states updated graphics feature on comparative defence statistics with focus on defence economics and major land sea and air capability concerns tables graphics and analysis of defence economics issues additional national capability summaries additional data on land forces combat support and combat service support new graphics and maps on defence capability issues and additional data on cyber capabilities Tools of War, Tools of State Robert Tynes,2018-09-01 Examines why many governments rebels and terrorist organizations are using children as soldiers The Changing Military Balance in the Koreas and Northeast Asia Anthony H. Cordesman,Aaron Lin,2015-07-07 The tensions between the Koreas and the potential involvement of China Japan Russia and the United States in a Korean conflict create a nearly open ended spectrum of possible conflicts These conflicts could range from posturing and threats to a major conventional conflict on the Korean peninsula with intervention by outside powers to

the extreme of nuclear conflict The Korean balance is also affected by the uncertain mix of cooperation and competition between the United States and China particularly with the U S pivot toward Asia and the steady modernization of Chinese forces This new volume up to date through Spring 2015 provides a detailed examination of the military forces in Northeast Asia North and South Korea China Russia Japan and the United States setting those forces in the larger geostrategic context
