Handbook of Nanoceramic and Nanocomposite Coatings and Materials Abdel Salam Hamdy Makhlouf, Dieter Scharnweber, 2015-05-08 In this new handbook top researchers from around the world discuss recent academic and industrial advances in designing ceramic coatings and materials They describe the role of nanotechnology in designing high performance nanoceramic coatings and materials in terms of the unique advantages that can be gained from the nano scale including the latest techniques for the synthesis and processing of ceramic and composite coatings for different applications Focuses on the most advanced technologies for industry oriented nano ceramic and nano composite coatings including recent challenges for scaling up nano based coatings in industry Covers the latest evaluation methods for measuring coatings performance Discusses novel approaches for improving the performance of ceramic and composite coatings and materials via nanotechnology Provides the most recent and advanced techniques for surface characterization **Materials Science and Applied Chemistry III** Mâris Turks, 2020-06-30 Selected peer reviewed papers from 60th International Scientific Conference of Riga Technical University RTU Section of Materials Science and Applied Chemistry MSAC *Radioisotopes* Nirmal Singh, 2011-10-21 The book *Radioisotopes Applications in Physical Sciences* is divided into three sections namely Radioisotopes and Some Physical Aspects Radioisotopes in Environment and Radioisotopes in Power System Space Applications Section I contains nine chapters on radioisotopes and production and their various applications in some physical and chemical processes In Section II ten chapters on the applications of radioisotopes in environment have been added The interesting articles related to soil water environmental dosimetry tracer and composition analyzer etc are worth reading Section III has three chapters on the use of radioisotopes in power systems which generate electrical power by converting heat released from the nuclear decay of radioactive isotopes The system has to be flown in space for space exploration and radioisotopes can be a good alternative for heat to electrical energy conversion The reader will very much benefit from the chapters presented in this section **Zeolites and Their Applications** Mohamed Nageeb Rashed, P.N. Palanisamy, 2018-06-27 Zeolites are hydrated aluminosilicate minerals of the family of microporous solids According to the US Geological Survey there are about 40 naturally occurring zeolites forming in sedimentary and volcanic rocks The most commonly mined forms include clinoptilolite chabazite and mordenite There are over 200 synthetic zeolites For their abundance natural and synthetic zeolites are widely used in the industry agriculture water treatment wastewater treatment and as dietary supplements to treat diarrhea autism cancer and other This book *Zeolites and Their Applications* deals with several aspects of zeolite morphology synthesis and applications The book is divided into three sections and structured into nine chapters The first section includes the introductory chapter the second section explains mineralogy morphology and synthesis of zeolites and the third section focuses on the different applications of both natural and synthetic zeolites So in this book the readers will obtain updated information on mineralogy morphology synthesis and application of zeolites

Food Supplements Containing Botanicals: Benefits, Side Effects and Regulatory Aspects Patrizia Restani, 2017-10-27 This book provides a detailed analysis of the scientific technical and regulatory aspects of plant food supplements designed for integration into the normal diet Each contributor is involved in the European Plant LIBRA project and the chapters summarize the results of the project while integrating further research on botanical supplements With its focus on the epidemiology risk assessment and evidence based approaches this text presents a unique and comprehensive overview of botanical food supplements from their production and chemistry to their side effects and regulatory aspects Food Supplements Containing Botanicals Benefits Side Effects and Regulatory Aspects begins by outlining the general aspects of food supplements before examining quality and risk assessment of food supplements with botanicals The following chapters focus on sources models and human studies which support health claims for these supplements followed by chapters outlining side effects and potential causes for concern The issue of increasing consumer expectations is also explored with methods for meeting these expectations provided In presenting this well rounded and up to date collection of information on botanical supplements this book is of great importance to food industry professionals working with botanical supplements

Superhydrophobic Surfaces Alain Carré, K. L. Mittal, 2009-04-24 Superhydrophobic surfaces water contact angles higher than 150 can only be achieved by a combination of hydrophobicity low surface energy materials with appropriate surface texture In nature one can find an array of impressive and elegant examples of superhydrophobic surfaces For example on a lotus leaf rain drops bounce off after impact then entirely roll off the lotus leaf and drag along any dirt particles without leaving residues The artificial design of superhydrophobic and self cleaning surfaces has become an extremely active area of fundamental and applied research This book presents both fundamental and applied aspects of superhydrophobic surfaces It describes also different strategies for making superhydrophobic surfaces from a large diversity of materials polymers metals and other inorganic materials composites and processes lithographic techniques electrochemical processes self assembly processes colloidal particles sol gel processes nanofilaments or simple scraping A bountiful of information is covered in this book which represents cumulative wisdom of many world renowned researchers in the fascinating and burgeoning area of superhydrophobic surfaces

Urban Environment Sébastien Rauch, Gregory M. Morrison, 2012-01-02 The 10th Urban Environment Symposium 10UES was held on 9 11 June 2010 in Gothenburg Sweden UES aims at providing a forum on the science and practices required to support pathways to a positive and sustainable future in the urban environment The UES series is run by Chalmers University of Technology within the Alliance for Global Sustainability The AGS Papers by leading experts are presented in sections on Sustainable Urban Development and Urban Planning Air Quality and Human Health Urban Waters and Urban Soil Contamination and Treatment
