is written to light the spark of mind mapping keep the spark burning to increase the chances of mind mapping becoming an integral part of your life *Inside a Non-Believer's Mind Compilation* Francisco J. Miranda,2011-01-29 This book is the compilation of the two parts of the Inside a Non Believer s Mind series In the first part the author explains why he became a freethinker and atheist despite having a strong religious upbringing He also explains the concept of atheism and why he believes that our differences only reflect our humanity that we all come from different parts of the world different backgrounds and have different belief systems He only hopes that we can recognize that we are more alike than we are different In the second part he argues that the concept of God is poorly explored by believers and greatly explored by non believers when in reality should be the opposite As religious people grow up in religious environments at some point God becomes just a word without a definition and people lose perspective of what they really mean when they say I do believe in God The author also defends the concept of morality on the absence of religion which is of paramount importance for those who wonder about good and evil in a humanist science driven society His only true objective is to promote reason and

tolerance and both believers and non believers alike will find his work enticing and thought provoking
