Transparent Simulacra Robert C. Spires, 1988 The development of basic textual strategies in Spanish fiction from 1902 to 1926 is the focus of this study. Challenging traditional views of the relationships between the literature produced by the Generation of 1898 and the Spanish vanguard movement, Spires traces through analyses of select works a process of evolution beginning at the turn of the century and continuing into the 1920s. Spires demonstrates how the somewhat tentative strategies of the first decade became more daring in the second. As opposed to the extant historical autobiographical and thematic surveys of this period, *Transparent Simulacra* features structuralist and post-structuralist readings of fiction by Baroja, Azorín, Unamuno, Pérez de Ayala, Gómez de Serna, Jarnés and Salinas. These approaches offer not only revisionist views of a literary period but also revisionist readings of some of Spain's best known fiction.

Spanish Literature David William Foster, Daniel Altamiranda, Carmen Urioste-Azcorra, 2001 This anthology examines *Love's Labours Lost* from a variety of perspectives and through a wide range of materials. Selections discuss the play in terms of historical context, dating and sources, character analysis, comic elements and verbal conceits, evidence of authorship, performance analysis and feminist interpretations. Alongside theater reviews, production photographs and critical

commentary the volume also includes essays written by practicing theater artists who have worked on the play An index by name literary work and concept rounds out this valuable resource *Nada menos que todo un hombre* Miguel de Unamuno,1920* Escritores, editoriales y revistas del exilio republicano de 1939 Manuel Aznar Soler,2006

from the Spanish literary tradition notably Don Quixote and Don Juan biological theories of gender prevalent in the 1920s and 1930s and the growth of an organized feminist movement that coincided with the burgeoning Republican movement This is the first book dealing with this period of Spanish literature to consider women novelists such as Maria Martinez Sierra Carmen de Burgos and Concha Espina alongside canonical male novelists including Miguel de Unamuno Ramon del Valle Inclan and Pio Baroja With its contrasting conceptions of modernism Johnson s work provides a compelling new model for bridging the gender divide in the study of Spanish fiction

Gothic Terrors Abigail Lee Six,2010 Gothic Terrors brings together two discursive fields that have had very little contact hitherto Gothic Studies and Hispanism Though widely accepted in English studies Hispanists seldom invoke the concept of a Gothic mode existing beyond its first appearance in the eighteenth century Highlighting Gothic elements in mainstream Spanish fiction from the nineteenth century until the present day Lee Six challenges the view that Spanish writers rejected what the Gothic had to offer Through

close study of texts by Benito Pérez Galdós, Emilia Pardo Bazán, Miguel de Unamuno, Camilo José Cela, Adelaida García Morales Espido Freire and Javier García Sánchez Lee. Six traces the evolution of three staples of the Gothic: the heroine imprisoned on grounds of madness, the doubled or split character, and the use of violent, gory description. Persuasively argued and well researched, *Gothic Terrors* reflects on the Gothic presence in Spanish mainstream literature and identifies two important ways in which it crosses cultural divides: the traditional gulf between high and low culture within Spain, and the engagement of Spanish creative writers with transnational literary trends. *Gothic Terrors* will thus appeal to Gothic scholars who are interested in the Spanish dimension of their field, as well as to Hispanists who may have been unaware of how relevant and useful Gothic studies could be for them.
