Anonymous,2022-02-06 JFT offers a short reflection on a quote from NA literature followed by a closing intention or affirmation for each day of the year Parents, Help Your Child Say No to Drugs Norman Leibrock,2002-08-07 Books are like people each one has its own story My book is a story about teenagers with an addiction for drugs and the adverse effects these addictions have on their parents My hope is that this book will present a picture of the many changes that can present themselves in the lives of young people and parents in their battle with mind altering drugs Many parents unfortunately are lost in the complexities of our everyday busy lives and their minds are clouded to the problems that are developing before them Many of us are either oblivious to the problem of drugs or are too afraid to admit to ourselves that we do not know what to do if it happens in our families Parents are sadly convinced that drug addiction can never happen to their children My wife Jane and I had to face that sudden realization that drugs were destroying the life of our son I believe that my book when read in its entirety will give you the guidance and insight to help all parents and their children to fight drug addiction and to render proper guidance to those already in the grip of mind altering drugs This book will help to illuminate those hidden changes that drugs can bring into the lives of our children and teenagers and with it the effects it will have on those around them I hope and pray that the sharing of this valuable information along with my own experiences will be a positive force in the thinking of our teenagers and their loving parents My fellow parents it is of the utmost importance that no matter what happens and how tough it may get remember there is no other way but up Wherever you are and whatever the problem dont ever stop the fight against drug addiction I am aware that in the hard nosed world we live in there are a multitude of self help books and numerous concepts and scientific theories on how to successfully face your problems and bring about

changes in your life But I have written my book for this reason that parents can be hopeful in a time of adversity suffering from a family drug addiction problem Let faith and understanding change your life around As parents we often read about drugs and the effects they have upon our children Invariably our many conversations will drift to the topic of drug addiction and whether our children are in fact using drugs and what we can do about it I remember sitting with a group of parents discussing drugs Although we all agreed that the rapid introduction of mind altering substances was a critical problem to our children not everyone was in agreement what we should and could do about this problem if it affects our family Some parents told us our family is very content since all our children are young this problem doesnt pertain to us at this time Some parents sat back and told me that their teenage children have never taken drugs They never had to discuss drugs with their children because they knew they would never touch them A third group of parents were honest enough to admit that their teenage son was a drug addict for years and they didnt know it and when they found out about it they didnt know what to do about it Parents do these statements sound familiar Perhaps something you have heard before but shrugged it off as something you would never have to worry about I realize that this is a sad scenario but very true Too many parents are not taking the time to talk to their children and establish a drug free family when they are young and vulnerable The result has been too many young people becoming drug addicts Some of them could have been prevented or helped at a young age That initial help must come from us as their parents We must have a constant sense of awareness of this problem facing our children today Remember parents we cannot change the nature of the drug addict or his addiction but we can help

Life on Drugs in Iran Nahid Rahimipour Anaraki, 2022-08-22 When they initiated a war on drugs in 1979 Iran developed a reputation as having some of the world s harshest drug penalties and as an opponent of efforts to reform global drug policy As mass incarceration failed to stem the growth of drug use Iran shifted its policies in 1990 to introduce treatment regimens that focus on rehabilitation While most Muslim countries and some Western states still do not espouse welfare oriented measures Iran has established several harm reduction centers nationwide through the welfare system for those who use substances In doing so Iran moved from labeling drug users as criminals to patients In *Life on Drugs in Iran* Anaraki moves beyond these labels to explore the lived experience of those who use and have used illicit substances and the challenges they face as a result of the state s shifting policies Gaining remarkable access to a community that has largely been ignored by researchers Anaraki chronicles the lives of current and former substance users in prisons treatment centers and NGOs In each setting individuals are criminalized medicalized and marginalized as the system attempts to normalize them without addressing the root cause of the problem Drawing upon first hand accounts Anaraki s groundbreaking study takes an essential step in humanizing people with substance abuse issues in Iran
