

Narrative Tenses

Narrative tenses can be used with four different tense and we often use to talk about past events. In the analysis made for short stories, transfers are made with different genre categories such as stage, painting, summarizing and commenting which constitute the units of the fictional narration.

Based on the narrative tenses functions, each of these information is given a proper name. The most common tenses is the past simple.

Another three tenses, the past continuous, the past perfect simple and the past perfect continuous, in this way it can help us to say what we want more efficiently.

Past Simple

- Nelson Mandela spent 27 years in prison in his battle against the system of apartheid.
- A day, she went for a walk in a forest and came across an abandoned hut.

Past Continuous

- While she was walking past the house, she heard a strange sound coming from it.
- That summer, Christian and his family were taking a holiday in France.

Past Perfect Continuous

Tense and Narrativity Suzanne Fleischman, 2010-07-22 In this pathfinding study Suzanne Fleischman brings together theory and methodology from various quarters to shed important new light on the linguistic structure of narrative a primary and universal device for translating our experiences into language Fleischman sees linguistics as laying the foundation for all narratological study since it offers insight into how narratives are constructed in their most primary context everyday speech She uses a linguistic model designed for natural narrative to explicate the organizational structure of artificial narrative texts primarily from the Middle Ages and the postmodern period whose seemingly idiosyncratic use of tenses has long perplexed those who study them Fleischman develops a functional theory of tense and aspect in narrative that accounts for the wide variety of functions pragmatic as well as grammatical that these two categories of grammar are called upon to perform in the linguistic economy of a narration
