

# TECHNIQUES OF NARRATIVE THERAPY

**1**

## PUTTING TOGETHER THE NARRATIVE

Allows the client to express their thoughts and explore events in their lives and the meanings they have placed on these experiences.

**2**

## EXTERNALIZING THE PROBLEM

Leading clients towards viewing their problems or behaviors as external instead of an unchangeable part of themselves - they realize they themselves are not the problem.

**3**

## DECONSTRUCTION

Working with the client to break down or deconstruct their stories into smaller, more manageable parts to clarify the problem.

**4**

## UNIQUE OUTCOMES

This refers to the exceptions to the dominant story. Also known as 're-authoring' or 're-storying,' clients go through their experiences to find alterations to their story or make a whole new one.

## **Narrative Therapy Training And Supervision:**

**The Integrative Family Therapy Supervisor: A Primer** Robert E. Lee, Craig A. Everett, 2004-03-01 Encouraging the development of a personal model of supervision built upon the integration of theory research and regard for the uniqueness of clinical settings this new text will prepare readers for approved supervisor credential while advancing their ability to blend systemic theory with clinical practice in the context of personal and professional development Strengths-Based Supervision in Clinical Practice Jeffrey K. Edwards, 2012-04-24 Moving away from the usual medical modeled framework of mental health focused on problems Strengths Based Supervision in Clinical Practice by Jeffrey K Edwards takes a postmodern social construction approach looking for and amplifying strengths and encouraging stakeholders to use them Based on research in brain science as well as from the Information Age Connectivity Age thinking the book reframes the focus of supervision management and leadership to one that collaborates and builds on strengths with supervisees as competent stakeholders in their work with their clients **Narrative Therapy** Martin Payne, 2006-02-08 A thought provoking and interesting book that will be of interest to nurses and others supporting patients Accident and Emergency Nursing It is a relevant and timely book that will remind therapists of the importance of the telling of client s stories as an important component of the therapeutic process Whatever approach we use the client s story will be a part of what we work with so a sophisticated questioning of what stories narratives are will benefit our work This book is a good starting point for such an exploration It s an interesting book that will appeal to counsellors ready to challenge or add to their existing approach Therapy Today Narrative Therapy An Introduction for Counsellors Second Edition offers a clear and concise overview of this way of working without oversimplifying its theoretical underpinnings and practices Narrative therapy places peoples accounts of their lives and relationships at the heart of the therapeutic process Its main premise is that the telling and re telling of experience by means of guided questioning can facilitate changed more realistic perspectives and open up possibilities for the person seeking assistance to position him or herself more helpfully in relation to the issues brought to therapy Drawing on the ideas of Michael White and David Epston this fully revised extended and updated second edition incorporates recent developments in narrative theory and practice and introduces developments initiated by other narrative therapists worldwide New material has been added around counselling for post traumatic reactions couples conflict and a sense of personal failure The book is illustrated with extensive examples of practice with individuals and couples It is ideal for anyone on training courses in narrative therapy and also for counsellors who wish to consider common ground between narrative ideas and their current approach Martin Payne is an independent therapist and trainer in Norwich UK The Strength-Based Clinical Supervision Workbook Christopher L. Heffner, Jessica A. Cowan, 2022-08-25 Supervision is the cornerstone of clinical training across all types of mental health providers It facilitates the growth of mental health trainees and maintains the integrity of the field of mental health services by ensuring the competency of clinicians However the

process can be complex and potentially confusing for both supervisors and trainees at any stage of their development or post licensure career Utilizing strength based approaches is crucial to the success of supervision This workbook facilitates a collaborative and strength based approach to clinical supervision that both supervisors and trainees can use during the entire course of supervision or for specific goals related to supervision Each chapter of this workbook contains information and activities specific to both the trainee and supervisor to facilitate dialogue about individual and combined strengths areas for growth and goals for collaborative work This is an essential start to finish guide addressing the entire supervision process from preparing for the first session to conducting the last session and everything in between
