National Politics And European Integration National Politics And European Integration:

Europeanised Politics? Klaus H. Goetz, Simon Hix, 2012-12-06 This comparative examination of the impact of European integration on the politics and government of EU member states covers the parties the legal system voters and public administration

National Politics and European Integration Maurizio Carbone, 2010-01-01 This book discusses the domestic politics of treaty reform in the European Union from the failed referendums on the Constitutional Treaty held in France and the Netherlands in May June 2005 to the entry into force of the Treaty of Lisbon in December 2009 The chapters written by some of the finest scholars in the field of EU European politics show how European integration has increasingly become a contested issue in a majority of Member States Going beyond the view that national governments are the main if not the sole driving force in the process of European integration this book shows that other actors and factors have played a central role in preference formation and inter state bargaining These include political parties public opinion the media presidents constitutional courts and more broadly political systems ratification hurdles and the general negotiation context National Politics and European Integration combines empirical analysis and theoretical explanations for one of the most controversial periods in the history of the European Union This important book will be of great interest for advanced students in EU studies comparative politics and public policy

European Integration Chris J. Bickerton, 2012-12-13 European Integration outlines in empirical detail the mysteries and paradoxes of European integration It challenges the convention of studying individual aspects of EU policymaking in isolation from the wider whole and situates the EU within the broader conceptual universe of the changing nature of the state in Europe

National Political Elites, European Integration and the Eurozone Crisis Nicolò Conti, Borbála Göncz, José Real-Dato, 2018-06-18 The global financial economic and sovereign debt crisis since 2008 has led to increases in political disaffection among citizens a loss of legitimacy of political institutions the discredit of mainstream parties and the rise of extremist or anti system political alternatives This comparative volume sheds greater light on this critical juncture in the recent history of the European Union EU by focusing on the evolution of attitudes of national political elites It examines whether the crisis has affected the legitimacy of the EU integration project as perceived by national political elites and consequently if the elite consensus that constituted one of the most solid fundamentals supporting that project has been eroded Analysing these changes across the different dimensions in which support for the EU is organized and its relationship with the evolution of support towards European integration among citizens in member states the book addresses a basic question How have these events affected the perceptions of the EU of national political elites Ultimately it sheds light on the evolution of the relationship between the perception of the EU and the national contexts as well as the likely evolution of the project of European integration in the near future This book will be of key interest to scholars and students of political elites EU politics European integration political parties and more broadly to comparative politics European studies and sociology

Europe Today Ronald Tiersky, 2004 This engaging book a true

twenty first century enterprise is the only text that offers both country case studies and discussion of the European Union in one sustained volume Now thoroughly revised for 2004 it is the first European politics text to offer current analysis on the invasion of Iraq NATO and European security U S European relations and enlargement issues All chapters from the first edition have been comprehensively updated and completely new chapters have been added on Germany France Great Britain Spain Poland monetary union security and migration With its strong international emphasis and focus on Europe before and after Iraq professors will be able to use this text to lead students toward a coherent view of intra European conflicts Europe and the United States and Europe s international responsibilities A new website devoted exclusively to the book with regularly updated statistics analysis and links for each chapter will provide a rich resource for students seeking additional information and researching classroom assignments

National Political Elites, European Integration and the Eurozone Crisis Nicolò Conti, Borbála Göncz, José Real-Dato, 2018-06-18 The global financial economic and sovereign debt crisis since 2008 has led to increases in political disaffection among citizens a loss of legitimacy of political institutions the discredit of mainstream parties and the rise of extremist or anti system political alternatives This comparative volume sheds greater light on this critical juncture in the recent history of the European Union EU by focusing on the evolution of attitudes of national political elites It examines whether the crisis has affected the legitimacy of the EU integration project as perceived by national political elites and consequently if the elite consensus that constituted one of the most solid fundamentals supporting that project has been eroded Analysing these changes across the different dimensions in which support for the EU is organized and its relationship with the evolution of support towards European integration among citizens in member states the book addresses a basic question How have these events affected the perceptions of the EU of national political elites Ultimately it sheds light on the evolution of the relationship between the perception of the EU and the national contexts as well as the likely evolution of the project of European integration in the near future This book will be of key interest to scholars and students of political elites EU politics European integration political parties and more broadly to comparative politics European studies and sociology

The European Parliament, the National Parliaments, and European Integration Richard S. Katz, Bernhard Wessels, 1999-06-24 European integration is progressing at an even more rapid rate Accompanying this progress is an increasing debate about the institutional shape and legitimacy of this new political order This debate is driven in part by conflicting values and in part by uncertainty This book addresses the question of parliamentary involvement in the emerging European political system by looking at both national and European levels of parliamentary representation In doing this it gives greater attention to the role of national parliaments than is usual in discussions about democracy in the European Union Based on interviews and surveys among members of parliament at the European level and in eleven member states it analyses the role of parliaments and parliamentarians the linkages between national citizenry and the European level and the problems and perspectives of institutional change The book provides analyses of the views from within

concerning European integration and concentrates on three dimensions the MPs themselves their embeddedness in the process and their perspectives on institutional structures These views from within offer new insights and answers to institutional problems in the European Union and the so called democratic deficit

The New Politics of European Integration Ghita Ionescu, 1972-06-18 *Europeanization and National Politics* Robert Ladrech, 2010-03-10

Europeanization has become a key topic in analysis of the politics of the new Europe This broad ranging new text focuses centrally on the impact of the EU on its member states but also on the way in which states up load their policy priorities to the European level

The Europeanization of National Policies and Politics of Immigration T. Faist, A. Ette, 2007-02-28 The Europeanization of National Policies and Politics of Immigration is the first cutting edge volume presenting a comparative empirical investigation on the impact of the EU on migration policy at national level Revealing striking differences this collection examines traditional member states new member states as well as non member states

Democracy in Europe Vivien A. Schmidt, 2006-10-20 Democracy in Europe is about the impact of European integration on national democracies It argues that the oft cited democratic deficit is indeed a problem but not so much at the level of the European Union per se as at the national level This is because national leaders and publics have yet to come to terms with the institutional impact of the EU on the traditional workings of their national democracies The book begins with a discussion of what the EU is a new form of regional state in which sovereignty is shared boundaries are variable identity composite and democracy fragmented It then goes on to examine the effects of this on EU member states institutions and ideas about democracy finding that institutional fit matters The compound EU in which governing activity is highly dispersed among multiple authorities is more disruptive to simple polities like Britain and France where governing activity has traditionally been more concentrated in a single authority than to similarly compound polities like Germany and Italy But the book concludes that the real problem for member states is not so much that their practices have changed as that national ideas and discourse about democracy have not The failure has been one of the communicative discourse to the general public which again has been more pronounced for simple polities despite their potentially greater capacity to communicate through a single voice than for compound polities where the coordinative discourse among policy actors predominates

The State of Political Science in Western Europe Hans-Dieter Klingemann, 2007-03-20 This volume is the definite statement on the current state of political science as a discipline in Western Europe Detail four chapters portray European developments To know about the historical development the organization of teaching and research professional communication and the chances of students of political science in the job market is of essential importance to political scientists university administrators and policy makers national European and global This is particularly true after the Bologna Declaration when universities across Europe were asked to adopt 1 a system of easily readable and comparable degrees 2 a system based on two cycles 3 the establishment of a common system of credits 4 to increase student and teacher mobility 5 to assure quality

standards and 6 to improve the European dimension in teaching The book informs on these general issues and reports country specific developments International Relations and the European Union Christopher Hill, Michael Smith, Sophie Vanhoonacker, 2017 The most comprehensive introduction to the EU's role in the international system written by a team of international experts and incorporating the study of the EU's world role into the wider field of international relations this book is the key text for anyone wishing to understand the EU's external relations *Health Governance in Europe* Monika Steffen, 2005-11-28 Health constitutes a core element of welfare states and a vital nerve in the trust relation between citizen and their governments Focusing on the health sector this book analyzes the closely interwoven relationship between the European Union and Member States The authors explore the dynamic and multi fold process of de nationalizing health policies and illustrate how European policies develop in a sector that still appears to be under exclusively national competence They describe the multiple forms and ways the Europeanization process takes driven by market integration public health crises and politics of consumer protection The authors also provide a detailed analysis of key topics the pharmaceutical sector market regulation of medical goods and devices food safety the blood provision and plasma industry European politics on bioethics and risk reduction in the field of drug abuse Providing a comprehensive and informed assessment of the Europeanization process in the field of health policies this book will be of interest to students and scholars of health European integration and policy making **Governing Europe** Jack Ernest Shalom Hayward, Anand Menon, 2003 This comprehensive survey aims to provide an overview of all aspects of politics in western Europe Aspects of the European Union the Europeanization of institutions are discussed in detail along with the welfare state economic issues the condition of democracy across the continent Party Politics in Central and Eastern Europe Tim Haughton, 2013-09-13 What impact has EU membership had on party politics in Central and Eastern Europe Although there is an emerging body of literature on the Europeanization of political parties most of these accounts focus exclusively on Western Europe Drawing on a range of qualitative and quantitative approaches including detailed studies of party programmes and manifestos analysis of the media semi structured interviews and expert surveys this collection provides not just conceptually informed but also empirically rooted analyses of party politics in Central and Eastern Europe during the first four years of EU membership In particular the contributions assess the impact of EU membership on parties internal balance of power the use of European issues in inter party competition the role of transnational party federations and the broader role the EU plays in party politics The findings not only shed light on the impact of EU membership on party organization and programmes they also inform broader debates concerning the dynamics fluidity and motors of party politics in Central and Eastern Europe This book was based on a special issue of Journal of Communist Studies and Transition Politics *European Integration as an Elite Process* Max Haller, 2008-05-05 Max Haller's impressive book presents an analysis of the process of European integration which keeps the relation between elites and citizens at the forefront It is shown on the basis of new empirical data surveys interviews

analyses of documents and biographies that European integration has been led since the beginning by the elites and that today there exists a considerable split between elites and citizens this split is becoming more profound in the course of time The book covers the following themes the structure interests and behaviour of the different elites political economic bureaucratic the expectations and perceptions of the populations concerning the integration process and the elites the strategies of the elites to win the consent of the people in view of widespread scepticism proposals for reform of the EU especially with regard to a strengthening of democratic elements which could reduce the split between elites and citizens A timely and original read this book will be a useful addition to the library of any political sociologist political scientist or scholar of European integration

Euroscepticism in Southern Europe Susannah Verney, 2013-09-13 Euroscepticism has emerged as a growing constraint on European integration starting with the Maastricht Treaty in the early 1990s continuing with the mid 2000s constitutional debacle and intensifying with the eurozone crisis a crisis in which Southern Europe has played a key role But is opposition to European integration really greater now than in the past The only way to answer this question is through diachronic studies focusing on change over time This is the gap in the literature which the present volume aims to fill through an examination of the origins evolution and prospects of opposition to integration focusing on a region traditionally regarded as exceptionally europhile As a laboratory for the study of attitudes towards European integration Southern Europe offers a particularly rich range of case studies including a founder member Italy three second generation states Greece Spain and Portugal two recent entrants Cyprus and Malta and a negotiating candidate Turkey The volume traces the evolution of euroscepticism in each South European country assessing its significance identifying key turning points and highlighting both continuity and change Covering party and popular euroscepticism the book illuminates similarities and differences between national experiences of euroscepticism This book was published as a special issue of South European Society and Politics

Europe in Search of Political Order Johan P. Olsen, 2007-02-01 This book deals with ongoing processes of European cooperation and integration processes that may have a potential to change the political organization of Europe Based on ideas from the new institutionalism the book offers a systematic perspective on institutional change and in particular the role of institutions in relation to four central and durable issues in the study of political life These are 1 the mediation between unity and diversity what ties a society together and what keeps it apart 2 The relations between citizens and their helpers why the democratic deficit in the European Union can not be eliminated solely by making mechanisms of direct citizens participation and representation more efficient Needed are also institutions that make direct participation redundant because they routinely work with integrity generating expected and desired outcomes 3 The relation between democratic design and historical drift To what degree democracies are able to design and reform key institutions of governance so that their structures reflect popular will understanding and control 4 The co existence of old and new political orders How elements of a new order may supplement rather than replace elements of the old order generating a mixed order

based on partly inconsistent principles and rules Political Conflict in Western Europe Hanspeter Kriesi, 2012-07-26
Analyzes the effects of globalization on the restructuring of politics in Western Europe over the past three decades
