Heintze, 2015-05-07 This is the first comprehensive reference work on America's Independence Day Bringing attention to persons places and events of historical significance the book focuses on the Fourth of July as it has been commemorated over the span of more than two centuries starting with the first celebrations public readings of the Declaration of Independence that occurred within days of its signing Biographical sketches feature presidents and how each celebrated the Fourth and other politicians famous soldiers educators engineers scientists athletes musicians and literary figures Other topics include parks monuments and statues dedicated on the Fourth famous speeches and the personalities behind their stories and general subjects of interest including education abolition temperance African Americans Native Americans wars transportation and holiday catastrophes *Our Lost Declaration* Mike Lee, 2019-04-23 New York Times bestselling author and committed constitutional conservative Senator Mike Lee reveals the little known stories behind the Founder's takedown of a tyrannical king and the forgotten document that created America There is perhaps no more powerful sentence in human history written in Philadelphia in the oppressively hot summer of 1776 We hold these truths to be self evident that all men are created equal that they are endowed by their Creator with certain unalienable Rights that among these are Life Liberty and the pursuit of Happiness Despite the earth shattering power of Jefferson's simple sentence and the document in which it is found many Americans today don't understand or appreciate the Declaration's gravity As a result we have lost touch with much of what makes our country so special the distinctly American belief in the dignity of

every human soul Our nation was born in an act of rebellion against an all powerful government In Our Lost Declaration Senator Mike Lee tells the dramatic little known stories of the offenses committed by the British crown against its own subjects From London s attempts to shut down colonial legislatures to hauling John Hancock before a court without a jury the abuses of a strong central government were felt far and wide They spurred our Founders to risk their lives in defense of their rights and their efforts established a vision of political freedom that would change the course of history Lee shares new insights into the personalities who shaped that vision such as Thomas Paine a populist radical who nearly died making his voyage from Great Britain to the colonies before writing his revolutionary pamphlet Common Sense Edmund Randolph who defied his Loyalist family and served in the Virginia convention that voted for independence Thomas Jefferson who persevered through a debilitating health crisis to pen the document that would officially begin the American experiment Senator Lee makes vividly clear how many abuses of federal power today are rooted in neglect of the Declaration including federal overreach that corrupts state legislatures the judicial system and even international trade By rediscovering the Declaration we can remind our leaders in Washington D C that they serve us not the other way around
