reinforce the security state as they claim responsibility for protecting the country from racialized others Under advanced neoliberalism Grewal shows others in the United States strive to become exceptional by participating in humanitarian projects that compensate for the security state's inability to provide for the welfare of its citizens In her analyses of microfinance programs in the global South security moms the murders at a Sikh temple in Wisconsin and the post 9 11 crackdown on Muslim charities Grewal exposes the fissures and contradictions at the heart of the US neoliberal empire and the centrality of race gender and religion to the securitized state

**Postfeminist War** Mary Douglas Vavrus, 2018-12-10 By examining news and documentary media produced since September 11 2001 Vavrus demonstrates that news narratives that include women use feminism selectively in gender equality narratives She ultimately asserts that such reporting advances post feminism which in tandem with banal militarism subtly pushes military solutions for an array of problems women and girls face

**Bodies at War** Belinda Linn Rincón, 2017-10-31 In the wake of U S military intervention abroad and collapsing domestic economies scholars have turned their attention to neoliberalism and militarization two ideological and material projects that are often treated as coincident though not interdependent Bodies at War examines neoliberal militarism a term that signifies the complex ways in which neoliberalism and militarism interanimate each other as they naturalize disempowering notions of masculinity and femininity alter democratic practices and circumscribe the meaning of citizenship and national belonging Bodies at War examines the rise of neoliberal militarism from the early 1970s to the present and its transformation of political economic and social relations It charts neoliberal militarism's impact on democratic practices economic policies notions of citizenship race relations and gender norms by focusing on how these changes affect the Chicana o community and more specifically on how it shapes and is shaped by Chicana bodies The book raises important questions about the cultural legacies of war and the gendering of violence topics that reach across multiple disciplinary fields of inquiry including cultural and media studies It draws attention to the relationship between war and society to neoliberal militarism's destructive social impact and to the future of Latina soldiering Through Chicana art activism and writing Rincón offers a visionary foundation for an antiwar feminist politic

**Voting to Kill** Jim Geraghty, 2007-11-01 In Voting to Kill author Jim Geraghty offers a comprehensive look at why recent elections have given the Republican Party its greatest political success since the 1920s Despite a lot of talk about values problems within the GOP red state culture and the slow but vital progress in Iraq the biggest difference between the two parties remains the subject of safety As the Democrats continue to project an image of confusion and pacifism even in the face of increasingly vicious terrorist activity in the Middle East more Americans trust the GOP to be ruthless in killing terrorists From security moms to neo Jacksonian bloggers people across the country are confronting the post 9 11 era with white knuckle anger and relentless determination Voting to Kill captures this zeitgeist showing why terrorism was the defining issue in 2002 and 2004 and will be in 2006 and 2008 as Republicans rev up instinctively hawkish Americans to vote and campaign as if their lives depend on it

**Gendering the GOP** Catherine N. Wineinger, 2022 In Gendering the GOP Catherine N Wineinger argues that to truly understand the evolution of women's congressional representation it is necessary to move beyond an analysis of legislative behavior and toward an analysis of intraparty gender dynamics Unlike previous research on women in Congress Wineinger focuses exclusively on the experiences of Republican congresswomen to uncover some of the gendered implications of congressional polarization Developing a novel theory of

partisan gender identity defined as a categorical identity that sits at the intersection of one's partisan affiliation and gender identity. Gendering the GOP argues that Republican women in Congress are not merely gender-blind partisans. In fact, polarization and party competition have incentivized Republican women to organize around their partisan gender identity and distinguish themselves from both Democratic women and Republican men. In so doing, Republican congresswomen have increased their visibility as party messengers while simultaneously upholding a party culture that limits women's presence and power in the institution. Through extensive interviews with women members of Congress and in-depth analyses of House floor speeches, Wineinger details how women have both navigated and shaped existing gender dynamics within the House GOP conference.

Women in the American Political System Dianne G. Bystrom, Barbara Burrell, 2018-12-01. This book examines how women candidates, voters, and office holders shape U.S. political processes and institutions, lending their perspectives to gradually evolve American life and values. This book provides an encyclopedic sourcebook on the evolution of women's involvement in American politics from the colonial era to the present, covering all of the individuals, organizations, cultural forces, political issues, and legal decisions that have collectively served to elevate the role of women at the ballot box, on the campaign trail in Washington, and in state and city-level political offices across the country. The in-depth essays document and examine the rising prominence of women as voters, candidates, public officials, and lawmakers, enabling readers to understand how U.S. political processes and institutions have been and will continue to be shaped by women and their perspectives on American life and values. The entries cover a range of women politicians and officials, female activists, and media figures, relevant organizations, and interest groups, such as Emily's List, League of Women Voters, and National Right to Life. Key laws, court cases, and events, such as the Nineteenth Amendment, the Equal Rights Amendment, the Seneca Falls Convention, the passage of Title IX, and *Roe v. Wade*, and other topics like media coverage of appearance, women's roles as campaign strategists, fundraisers, gender differences in policy priorities, and the gender gap in political ambitions. The text is supplemented by sidebars that highlight selected landmarks in women's political history in the United States, such as the 2012 election of Tammy Baldwin, the first openly gay U.S. senator.
