Military Stress And Performance The Australian Defence Force Experience:

Military Stress And Performance George E. Kearney, Mark Creamer, Ric Marshall, Anne Goyne, 2013-06-18 People comprise the backbone of any military force But what happens when the stress of operations becomes overwhelming and those people fail to cope Stress can have negative consequences for the individual the organisation and even for overall combat effectiveness The Australian Defence Force has spent many years researching how to maximise individual resilience and performance in the face of extreme stress For the first time this wealth of knowledge and experience has been brought together in one volume This work examines the impact of highly stressful events such as combat and peacekeeping operations on individual troops and leaders with a particular focus on factors that build resilience and maximise performance under stress Managing stress is an important issue not only for the military but equally for other high risk professions such as the police and emergency services This work provides a unique synthesis of a wide range of research and clinical and personal experience providing a coherent integrated approach to the subject Of particular use to mental health professionals it will also be of interest to general readers of military and psychology books United Nations Peacekeeping Challenge Anna Powles, Negar Partow, 2016-03-09 Drawing from a diverse range of military policing academic and policymakers experiences this book seeks to provide solutions of how national militaries and police can work together to better support future United Nations peacekeeping operations It addresses the growing tension between increasing non combat related responsibilities being placed on land forces and the ability of UN peacekeeping forces to fulfil the demands of government and development tasks in fragile and conflict affected environments An original contribution to the debate on UN peacekeeping reforms that includes constructing an enhanced partnership for peacekeeping building on renewed commitment to share the burden and for regional cooperation providing peacekeepers with the necessary capabilities to protect civilians and supporting nations in transition from conflict to stabilisation This book offers the very latest in informed analysis and decision making on UN peacekeeping reform Military Veteran Psychological Health and Social Care Jamie Hacker Hughes, 2017-05-12 When servicewomen and men leave the armed forces their care transfers to the statutory and third sector where the quality and provision of services can vary enormously This edited book encompassing a range of perspectives from service user to professional provides a comprehensive overview of services available Each chapter in turn examines the policy underpinnings of systems and services covering the psychological health and social care of military veterans and then focuses on the needs of a discrete number of types of military veterans including early service leavers veterans in the criminal justice system older veterans and reservists together with the needs of the children of veterans families This is the first UK book to examine the whole spectrum of contemporary approaches to the psychological health and social care of military veterans both in the United Kingdom and overseas The book is edited by Professor Jamie Hacker Hughes a former head of healthcare psychology within the UK Ministry of Defence and all contributors are experts in policy

service provision and academic research in this area It will be of special interest to those designing and planning commissioning managing and delivering mental health and social care to military veterans and their families **Australian Soldiers in South Africa and Vietnam** Effie Karageorgos,2016-03-24 The South African and Vietnam Wars provoked dramatically different reactions in Australians from pro British jingoism on the eve of Federation to the anti war protest movements of the 1960s In contrast the letters and diaries of Australian soldiers written while on the South African and Vietnam battlefields reveal that their reactions to the war they were fighting were surprisingly unlike those on the home fronts from which they came Australian Soldiers in South Africa and Vietnam follows these combat men from enlistment to the war front and analyses their words alongside theories of soldiering to demonstrate the transformation of soldiers as a response to developments in military procedure as well as changing civilian opinion In this way the book illustrates the strength of a soldier s link to their home front lives The Limits of Peacekeeping: Volume 4, The Official History of Australian Peacekeeping, Humanitarian and Post-Cold War Operations Jean Bou,Bob Breen,David Horner,Garth Pratten,Miesje de Vogel,2018-10-10 The Limits of Peacekeeping highlights the Australian government s peacekeeping efforts in Africa and the Americas from 1992 to 2005 Changing world power structures and increased international cooperation saw a boom in Australia s peacekeeping operations between 1991 and 1995 The initial optimism of this period proved to be misplaced as the limits of the United Nations and the international community to resolve deep seated problems became clear There were also limits on how many missions a middle sized country like Australia could support Restricted by the size of the armed forces and financial and geographic constraints peacekeeping was always a secondary task to ensuring the defence of Australia Faith in the effectiveness of peacekeeping reduced significantly and the election of the Howard Coalition Government in 1996 confined peacekeeping missions to the near region from 1996 2001 This volume is an authoritative and compelling history of Australia s changing attitudes towards peacekeeping **Rescuing Soldiers of Misfortune** Evan R. Seamone,2018-12-06 This unique book concerns those veteran inmates who have failed to complete a readjustment process and who continue to wage their own personal wars to regain a sense of normalcy those veterans who have not yet redeployed home from combat even though they have relocated to the inherently traumatizing confinement setting Aside from identifying factors that will help those seeking to be aware of the unique problems of incarcerated veterans and those advocating for them the book attempts to help these individuals as well as correctional professionals understand veteran inmates and their unique needs which stem from military service The text offers that programs must be implemented flexibly despite operational and budgetary challenges The book clearly provides guidelines to develop relevant programs that do far more than simply warehouse troublesome individuals Major topics include components of veterans readjustment military discipline and military discharge the relationship between military service and crime criminal manifestations of military service war zone deployment and combat trauma veterans benefits and outreach during incarceration popular approaches to

divert veterans from confinement attributes of veterans groups in confined settings institutionally based programs for veterans veterans dorms and urgency in the preparation for the coming storm of veteran offenders This book which represents years of research and the author s experience as a military lawyer in both prosecution and defense is an important reference for a variety of readers including law enforcement and first responders corrections professionals mental health providers lawyers judges and anyone who desires to understand the challenges faced by military veterans in conflict with the law

The Psychology of the Peacekeeper Thomas W. Britt, Amy B. Adler, 2003-09-30 In this remarkable volume a multinational team of scientists catalogs the stressors and benefits for combat trained soldiers deployed on missions where they are told to hold their fire and assume the role of peacekeeper Theory and direct research with peacekeepers is incorporated Missions covered include but are not limited to peacekeeping operations in Haiti Somalia Bosnia Kosovo Iraq and Lebanon The terminology of peacekeeping and military operations is listed The stressors threats dangers frustrations and benefits of the peacekeeper role are described in dramatic detail with additional attention to the Peacekeeper Stress Syndrome With the goal of increasing peacekeeper health and well being which in turn increases the likelihood of establishing a stable peace this volume also addresses interventions and preventative measures The extent of psychological distress and disorders following peacekeeping operations is documented Interventions are recommended for various phases of deployment in order to minimize the likelihood of post deployment psychological problems Experts in social industrial organizational health clinical and cross cultural psychology contribute to a multi dimensional perspective Each chapter author reports psychological research with military personnel in peacekeeping operations

A Vietnam Trilogy, Vol. 3: War Trauma Raymond M. Scurfield, 2006 War Trauma draws on the experience of prior wars for valuable insights to help people who are now in the military or in the healing professions and their families and communities to deal with today s realities of combat and its aftermath which so often entails PTSD post traumatic stress syndrome depression and the risk of suicide This is part three in A Vietnam Trilogy which studies the psychiatric impact of war on soldiers and veterans and their families The effects go on for decades after the violence occurred and we are still just learning to understand the depth and variety of problems it can cause Further Scurfield documents his proven innovative therapies for treating PTSD This third volume looks at what military and mental health professionals and the Veterans Administration VA should have learned from the Vietnam War in order to better protect American servicemen and servicewomen in later conflicts and to help them recover afterwards The Persian Gulf War for instance had an immense impact on veterans of all wars The author was a national faculty member for joint VA DOD training programs to enhance mental health response readiness for receiving anticipated medical and psychiatric casualties from the Persian Gulf War What he found was a resurgence of selective amnesia and denial about the true impact of war Scurfield notes Chillingly what happened in Vietnam in 1968 69 regarding psychiatric casualties has enormous parallels to what is happening today regarding U S psychiatric casualties from the Iraq
