MINDING JUSTICE

LAWS THAT DEPRIVE PEOPLE
WITH MENTAL DISABILITY
OF LIFE AND LIBERTY

Minding Justice Minding Justice

Eyjólfur K. Emilsson

Minding Justice Minding Justice:

Minding Justice Christopher Slobogin, 2006 This comprehensive examination of the laws governing the punishment detention and protection of people with mental disabilities provides innovative solutions to problems associated with criminal responsibility protection of society from dangerous individuals and the state's authority to act paternalistically **Mining for Justice** Kathleen Ernst, 2017-10-08 The eighth in the series contrasts the difficult life of Wisconsin's Cornish miners with the heroine's burgeoning romance highlighting both her researching skills and her unusual feel for the past Kirkus Reviews Digging Up Secrets Uncovers a Legacy of Peril Chloe Ellefson is excited to be learning about Wisconsin's Cornish immigrants and mining history while on temporary assignment at Pendarvis a historic site in charming Mineral Point But when her boyfriend police officer Roelke McKenna discovers long buried human remains in the root cellar of an old Cornish cottage Chloe reluctantly agrees to mine the historical record for answers She soon finds herself in the middle of a heated and deadly controversy that threatens to close Pendarvis While struggling to help the historic site Chloe must unearth dark secrets past and present before a killer comes to bury her Praise Richly imagined and compelling Mining for Justice once again highlights Kathleen Ernst's prowess as a storyteller Ernst is a master of reconstructing the past Susanna Calkins author of the Macavity winning Lucy Champion Mysteries **Justice V. Law in Greek Political Thought** Leslie G. Rubin, 1997 Do we believe the law good because it is just or is it just because we think it is good This collection of essays addresses the relationship of justice to law through the works of Homer Herodotus Plato Aristotle Sophocles and the Islamic thinker al Farabi The issues explored include the foundations of our understanding of justice the foundation of authority of law the relative merits of the rule of law versus the authority of a wise and just king the uneasy relationship between particular laws and the general notion of justice equity various aspects of justice reciprocity proportionality and their application in law and the necessity of the rule of law to the goodness and success of a political order The distinguished contributors often make explicit comparisons to modern situations and contemporary debates This book will be valuable for those interested in classical political theory political philosophy and law *The Republic* Plato, Sir Henry Desmond Pritchard Lee, 2003 A model for the ideal state includes discussion of the nature and application of justice the role of the philosopher in society the goals of education and the effects of art upon character **The Odyssey of Political Theory** Patrick J. Deneen, 2003-04-14 This important book offers readers original insights into The Odyssey and it provides a new understanding of the classic works of Plato Rousseau Vico Horkheimer and Adorno **Philosophers in the "Republic"** Roslyn Weiss, 2012-08-22 In Plato's Republic Socrates contends that philosophers make the best rulers because only they behold with their mind's eye the eternal and purely intelligible Forms of the Just the Noble and the Good When in addition these men and women are endowed with a vast array of moral intellectual and personal virtues and are appropriately educated surely no one could doubt the wisdom of entrusting to them the governance of cities Although it is widely and reasonably assumed that all the

Republic's philosophers are the same Roslyn Weiss argues in this boldly original book that the Republic actually contains two distinct and irreconcilable portrayals of the philosopher According to Weiss Plato's two paradigms of the philosopher are the philosopher by nature and the philosopher by design Philosophers by design as the allegory of the Cave vividly shows must be forcibly dragged from the material world of pleasure to the sublime realm of the intellect and from there back down again to the Cave to rule the beautiful city envisioned by Socrates and his interlocutors Yet philosophers by nature described earlier in the Republic are distinguished by their natural yearning to encounter the transcendent realm of pure Forms as well as by a willingness to serve others at least under appropriate circumstances In contrast to both sets of philosophers stands Socrates who represents a third paradigm one however that is no more than hinted at in the Republic As a man who not only loves what is but is also utterly devoted to the justice of others even at great personal cost Socrates surpasses both the philosophers by design and the philosophers by nature By shedding light on an aspect of the Republic that has escaped notice Weiss's new interpretation will challenge Plato scholars to revisit their assumptions about Plato's moral and political philosophy

An Introduction to Web Mining Ulrich Matter, 2025-09-08 This book is devoted to the art and science of web mining showing how the world's largest information source can be turned into structured research ready data Drawing on many years of teaching graduate courses on Web Mining and on numerous large scale research projects in web mining contexts the author provides clear explanations of key web technologies combined with hands on R tutorials that work in the real world and keep working as the web evolves Through the book readers will learn how to scrape static and dynamic JavaScript heavy websites use web APIs for structured data extraction from web sources build fault tolerant crawlers and cloud based scraping pipelines navigate CAPTCHAs rate limits and authentication hurdles integrate AI driven tools to speed up every stage of the workflow apply ethical legal and scientific guidelines to their web mining activities Part I explains why web data matters and leads the reader through a first hello scrape in R while introducing HTML HTTP and CSS Part II explores how the modern web works and shows step by step how to move from scraping static pages to collecting data from APIs and JavaScript driven sites Part III focuses on scaling up building reliable crawlers dealing with log ins and CAPTCHAs using cloud resources and adding AI helpers Part IV looks at ethical legal and research standards offering checklists and case studies enabling the reader to make responsible choices Together these parts give a clear path from small experiments to large scale projects This valuable guide is written for a wide readership from graduate students taking their first steps in data science to seasoned researchers and analysts in economics social science business and public policy It will be a lasting reference for anyone with an interest in extracting insight from the web whether working in academia industry or the public sector

The Socio-Economic Impacts of Artisanal and Small-Scale Mining in Developing Countries G.M. Hilson, 2003-01-01 The purpose of this book is to examine both the positive and negative socioeconomic impacts of artisanal and small scale mining in developing countries In recent years a number of governments have attempted to formalize this

rudimentary sector of industry recognizing its socioeconomic importance However the industry continues to be plagued by

Comstock Mining and Miners Eliot Lord,2025-08-04 Reprint of the original first published in 1883 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *Comstock Mining and Miners* Eliot Lord,1883 **Engineering and Mining Journal** ,1884 **Commentaries on the Mining Ordinances of Spain**

Francisco Javier de Gamboa,1830 **Finitude and Transcendence in the Platonic Dialogues** Drew A.

Hyland,1995-08-10 This book explains how to read Plato emphasizing the philosophic importance of the dramatic aspects of the dialogues and showing that Plato is an ironic thinker and that his irony is deeply rooted in his philosophy **Critical**
