Nada Es Gratis Como Evitar La Decada Perdida Tras La Decada Prodigiosa:

The Theory of Crisis and the Great Recession in Spain Juan Pablo Mateo Tomé, 2019-11-08 This book has a dual purpose First it analyses the concept of economic crises within economic theory showing the various theoretical foundations and controversies amongst different schools of economic thought Second it presents an empirical analysis of the Great Recession in Spain addressing the growth period of 1995 to 2007 08 the subsequent depression until 2013 14 and the recovery that followed It also shows the way in which the inner contradictions of capital manifests itself in an European peripheral economy under a real estate bubble emphasizing the role of the Spanish economy in European capitalism This theoretical and empirical heterodox approach will be of interest to students and scholars in political economy and those with an interest in the Eurozone

Between Empire and Globalization Albert Carreras, Xavier Tafunell, 2021-02-22 This book provides a rigorously chronological journey through the economic history of modern Spain always with an eye opened to what happens in the international economy and a focus on economic policy making and institutional change It shows the central theme of the Spanish economy from the late 18th century to the early 21st century is the painful transformation from being a major imperial power to a small nation and later a member of the European Community and a player in a globalized economy It looks in detail at two major issues economic growth and convergence or divergence to the Western European pattern and the permanent tension between the two when assessing historical experience since the industrial revolution This book proposes new visions of the economic past of Spain and provides comparisons over time and space which will be of interest to academics and students of economic history European economic history and more specifically Spanish economic history

Los siete pecados capitales de la economía española Martínez Estévez, Aurelio, Pallardó López, Vicente Juan, 2013-01-01 Durante el prolongado ciclo expansivo previo a la actual crisis en España se produjo una conjunción insostenible de severos desequilibrios comportamientos públicos y privados inapropiados y ausencia de reformas estructurales Estos Pecados Capitales ocultos a la sociedad durante un tiempo por el crecimiento económico han conducido a la economía y la sociedad española a una situación de una excepcional gravedad y de graves fundamentalmente interna aunque agravada por la Gran Recesión mundial Este libro revela los orígenes e implicaciones de esos Pecados Capitales recuerda que no es la primera vez que España afronta y supera situaciones críticas presenta las imprescindibles reformas a realizar e insiste en que la recuperación exige un doble y difícil equilibrio el primero entre austeridad y reformas y está mulo al crecimiento el segundo entre un intenso esfuerzo de transformación de los agentes socioeconómicos españoles y la ayuda en forma de financiación y demanda externa de nuestros socios europeos
