The Making of the "Rape of Nanking" Takashi Yoshida, 2009-03-04 On December 13 1937 the Japanese army attacked and captured the Chinese capital city of Nanjing planting the rising sun flag atop the city's outer walls What occurred in the ensuing weeks and months has been the source of a tempestuous debate ever since It is well known that the Japanese military committed wholesale atrocities after the fall of the city massacring large numbers of Chinese during the both the Battle of Nanjing and in its aftermath Yet the exact details of the war crimes how many people were killed during the battle How many after How many women were raped Were prisoners executed How unspeakable were the acts committed are the source of controversy among Japanese Chinese and American historians to this day In *The Making of the Rape of Nanking* Takashi Yoshida examines how views of the Nanjing Massacre have evolved in history writing and public memory in Japan China and the United States For these nations the question of how to treat the legacy of Nanjing whether to deplore it sanitize it rationalize it or even ignore it has aroused passions revolving around ethics nationality and historical identity Drawing on a rich analysis of Chinese Japanese and American history textbooks and newspapers Yoshida traces the evolving and often conflicting understandings of the Nanjing Massacre revealing how changing social and political environments have influenced the debate Yoshida suggests that from the 1970s on the dispute over Nanjing has become more lively more globalized and immeasurably more intense due in part to Japanese revisionist history and a renewed emphasis on patriotic education in China While today it is easy to assume that the Nanjing Massacre has always been viewed as an emblem of Japan's wartime aggression in China the image of the Rape of Nanking is a much more recent icon in public consciousness Takashi Yoshida analyzes the process by which the Nanjing Massacre has become an international symbol and

provides a fair and respectful treatment of the politically charged and controversial debate over its history **The Nanking Atrocity, 1937-38** Bob Tadashi Wakabayashi, 2007 Events in Nanking during 1937-38 are the subject of a ferocious historiographical debate between Chinese and Japanese points of view This volume seeks to debunk the myths promoted by scholars on both sides of the argument present a revisionist view of the atrocity that complicates the picture [The Nanking Atrocity, 1937-1938](#) Bob Tadashi Wakabayashi, 2007-06-30 December 13 2007 marks the 70th anniversary of the fall of the Chinese city of Nanking to the Japanese army The Nanking Atrocity of winter 1937-8 also known as the Nanking Massacre lies at the core of bitter disputes over history wartime victimization and postwar restitution that preclude amicable Sino-Japanese relations to this day This volume which is both history and historiography offers the most recent scholarship about what actually happened in Nanking and places those findings in the context of how Chinese and Japanese writers have attributed mutually incompatible meanings to the event ever since an event that is coined on the Chinese side as the forgotten Holocaust after the subtitle of Iris Chang's 1997 bestseller The Rape of Nanking uncritically adopted by Western public opinion a gross distortion according to the contributors of this volume However the authors also deflate Japanese exculpatory narratives which serving their own ideological agendas holds that Nanking was a combat operation against unlawful belligerents which produced only a few dozen innocent victims This volume presents new facts and fresh interpretations with the overriding aim to complicate the picture and to debunk myths expose fallacies and rectify misconceptions that obstruct a clear understanding of the issues and prevent ultimate reconciliation between China and Japan **Historical Dictionary of World War II** Anne Sharp Wells, 2023-12-15 World War II was the largest and most costly conflict in history the first true global war Fought on land on sea and in the air it involved numerous countries and killed maimed or displaced millions of people both civilian and military around the world In spite of the alliances that bound many of the same participants the war was essentially two separate but simultaneous conflicts one involved Japan as the major antagonist and took place mostly in Asia and the Pacific and the other initiated by Germany and Italy was contested mainly in Europe North Africa the Mediterranean and the Atlantic This book focuses on the lesser known war the war with Japan It begins with Japan's seizure of Manchuria from China in 1931 and covers Japan's ambitious attacks on Pearl Harbor and other territories ten years later the use of atomic bombs on Japan's cities and the end of the Allied occupation of Japan in 1952 Although Japan renounced war in its 1947 constitution conflict continued across Asia as former colonies fought for independence and civil war engulfed other areas Historical Dictionary of World War II The War Against Japan Second Edition contains a chronology an introduction and an extensive bibliography The dictionary section has more than 500 cross-referenced entries on the military diplomatic political social economic and scientific aspects of the war in addition to the lives of the people who participated in and directed the war This book is an excellent resource for students researchers and anyone wanting to know more about the war against Japan during World War II *Japanese War Crimes during World War*

II Frank Jacob, 2018-06-08 A challenging examination of Japanese war crimes during World War II offers a fresh perspective on the Pacific War and a better understanding of reasons for the wartime use of extreme mass violence The 1937 Rape of Nanjing has become a symbol of Japanese violence during the Second World War but it was not the only event during which the Japanese used extreme force This thought provoking book analyzes Japan's actions during the war without blaming Japan helping readers understand what led to those eruptions In fact the author specifically disputes the idea that the forms of extreme violence used in the Pacific War were particularly Japanese The volume starts by examining the Rape of Nanjing then goes on to address Japan's acts of individual and collective violence throughout the conflict Unlike other works on the subject it combines historical sociological and psychological perspectives on violence with a specific study of the Japanese army seeking to define the reasons for the use of extreme violence in each particular case Both a historical survey and an explanation of Japanese warfare the book scrutinizes incidents of violence perpetrated by the Japanese vis vis theories that explore the use of violence as part of human nature In doing so it provides far reaching insights into the use of collective violence and torture in war overall as well as motivations for committing atrocities Finally the author discusses current political implications stemming from Japan's continued refusal to acknowledge its war time actions as war crimes *Beyond*

*Suffering* James Flath, Norman Smith, 2011-04-13 China was afflicted by a brutal succession of conflicts through much of the nineteenth and twentieth centuries Yet there has never been clear understanding of how wartime suffering has defined the nation and shaped its people In *Beyond Suffering* a distinguished group of Chinese historians draws on often fragmentary accounts of nearly forgotten incidents to piece together the multiple fronts social institutional and cultural on which wars have been fought experienced and remembered From the Blagoveshchensk Massacre to the trials of the Jiangxi Number One Children's Home these accounts of war inflicted suffering bring us closer to understanding war and militarism in China

Uchiyama, 2019-03-14 This cultural history of the Japanese home front during the Asia Pacific War challenges ideas of the period as one of unrelenting repression Uchiyama demonstrates that carnival war coexisted with the demands of total war to

promote consumerist desire alongside sacrifice and fantasy alongside nightmare helping mobilize the war effort

**Negative Exposures** Margaret Hillenbrand, 2020-03-06 When nations decide to disown their troubled pasts how does this strategic disavowal harden into social fact In Negative Exposures Margaret Hillenbrand investigates the erasure of key aspects of such momentous events as the Nanjing Massacre the Cultural Revolution and the Tiananmen Square protests from the Chinese historical consciousness not due to amnesia or censorship but through the operations of public secrecy Knowing what not to know she argues has many stakeholders willing and otherwise who keep quiet to protect themselves or their families out of shame pragmatism or the palliative effects of silence Hillenbrand shows how secrecy works as a powerful structuring force in Chinese society one hiding in plain sight and identifies aesthetic artifacts that serve as modes of reckoning against this phenomenon She analyses the proliferation of photo forms remediations of well known photographs of troubling historical events rendered in such media as paint celluloid fabric digital imagery and tattoos as imaginative spaces in which the shadows of secrecy are provocatively outlined

**Chinese Cinemas** Felicia Chan, Andy Willis, 2016-05-20

*Chinese Cinemas International Perspectives* examines the impact the rapid expansion of Chinese filmmaking in mainland China has had on independent and popular Chinese cinemas both in and outside of China. While the large Chinese markets are coveted by Hollywood, the commercial film industry within the People's Republic of China has undergone rapid expansion since the 1990s. Its own production, distribution and exhibition capacities have increased exponentially in the past 20 years, producing box office success both domestically and abroad. This volume gathers the work of a range of established scholars and newer voices on Chinese cinemas to address questions that interrogate both Chinese films and the place and space of Chinese cinemas within the contemporary global film industries, including the impact on independent filmmaking both within and outside of China, the place of Chinese cinemas produced outside of China and the significance of new internal and external distribution and exhibition patterns on recent conceptions of Chinese cinemas. This is an ideal book for students and researchers interested in Chinese and Asian Cinema as well as for students studying topics such as World Cinema and Asian Studies.

*The Afterlife of Toyotomi Hideyoshi* Susan Westhafer Furukawa, 2023-11-20

Popular representations of the past are everywhere in Japan, from cell phone charms to manga, from television dramas to video games, to young people dressed as their favorite historical figures hanging out in the hip Harajuku district. But how does this mass consumption of the past affect the way consumers think about history and what it means to be Japanese? By analyzing representations of the famous sixteenth-century samurai leader Toyotomi Hideyoshi in historical fiction based on Taikōki, the original biography of him, this book explores how and why Hideyoshi has had a

continued and ever changing presence in popular culture in twentieth and twenty first century Japan The multiple fictionalized histories of Hideyoshi published as serial novels and novellas before during and after World War II demonstrate how imaginative representations of Japan's past have been used by various actors throughout the modern era Using close reading of several novels and short stories as well as the analysis of various other texts and paratextual materials Susan Furukawa discovers a Hideyoshi who is always changing to meet the needs of the current era and in the process expands our understanding of the powerful role that historical narratives play in Japan

*Exhibiting the Past* Kirk A. Denton, 2013-12-31 During the Mao era China's museums served an explicit and uniform propaganda function underlining official Party history eulogizing revolutionary heroes and contributing to nation building and socialist construction With the implementation of the post Mao modernization program in the late 1970s and 1980s and the advent of globalization and market reforms in the 1990s China underwent a radical social and economic transformation that has led to a vastly more heterogeneous culture and polity Yet China is dominated by a single Leninist party that continues to rely heavily on its revolutionary heritage to generate political legitimacy With its messages of collectivism self sacrifice and class struggle that heritage is increasingly at odds with Chinese society and with the state's own neoliberal ideology of rapid paced development glorification of the market and entrepreneurship In this ambiguous political environment museums and their curators must negotiate between revolutionary ideology and new kinds of historical narratives that reflect and highlight a neoliberal present In *Exhibiting the Past* Kirk Denton analyzes types of museums and exhibitionary spaces from revolutionary history museums military museums and memorials to martyrs to museums dedicated to literature ethnic minorities and local history He discusses red tourism a state sponsored program developed in 2003 as a new form of patriotic education designed to make revolutionary history come alive and urban planning exhibition halls which project utopian visions of China's future that are rooted in new conceptions of the past Denton's method is narratological in the sense that he analyzes the stories museums tell about the past and the political and ideological implications of those stories Focusing on official exhibitionary culture rather than alternative or counter memory Denton reinserts the state back into the discussion of postsocialist culture because of its centrality to that culture and to show that state discourse in China is neither monolithic nor unchanging The book considers the variety of ways state museums are responding to the dramatic social technological and cultural changes China has experienced over the past three decades
