Napoleons Waterloo Campaign An Alternate History Volume I:

Napoleon's Waterloo Campaign Steven Marthinsen, 2003-04 Napoleon's Waterloo Campaign An Alternate History is a story of this famous campaign with a twist What would have happened if Marshal Grouchy Napoleon's wing commander had marched to the sound of the guns as his subordinate commanders had urged This intriguing idea is an open invitation for taking a closer look at what might have been in June of 1815 This volume is the first modern full length alternative history written about the Waterloo campaign but it does not stop there First the narrative seeks to examine and explain the logic behind the French emperor's decisions and to a lesser extent those made by his famous enemies Then the change in history is seamlessly inserted into the overall context of the campaign and followed to its dramatic climax at the battle of Ohain on June 19 1815 The campaign of Waterloo was a series of opportunities taken and missed by both sides and the volume shows how a single decision could have changed the course of history What If . . . The return of Napoleon from Elba though a surprise to many was far from being so to those who well aware of his restless disposition his insatiable ambition and the enthusiastic attachment of the French soldiery to his person and fortunes had scarcely expected that he would have remained so long as he actually did without some new attempt at disturbing the general peace The steps taken on this occasion by the different European Powers their preparations for a renewal of the bloody scenes so lately ended are out of my province They belong to the historian and not to the simple journalist whose affair it is to confine himself strictly to those transactions in which he was himself a participator or at most to glance at those more general subjects merely to give connection to his narrative and make it better understood At the time the news of this extraordinary event arrived the troop of horse artillery which I commanded was stationed at Colchester and the reductions necessary to put us on a peace establishment had already commenced when the order arrived for our being immediately equipped again for foreign service To do this effectually another troop then in the same barracks was broken up and we got the picked horses of both thus making it the finest troop in the service and such diligence was used that although our equipment fell little short of a complete reorganisation Major Sir A Fraser commanding the horse artillery in Colchester was enabled to report on the third day that the troop was ready to march at a moment s warning Meantime the town of Colchester situated as it is on the great road from Harwich to London presented a scene of bustle and anxiety seldom equalled couriers passing to and fro incessantly and numerous travellers foreign and English arriving day and night from the Continent many travelling in breathless haste as if fearful even here of Napoleon s emissaries The reports spread by these fugitives were various and contradictory as might be expected According to some Louis XVIII had been arrested in Paris according to others he had sought refuge in the Pays Bas and again it was asserted that his Majesty was at Ostend awaiting permission to pass the sea and return to his old and secure quarters in England In the midst of all this on the 8th April the post brought our order to march forthwith to Harwich there to embark for Ostend an order received with unfeigned joy by officers and men all eager to plunge into danger and bloodshed all hoping to obtain glory and distinction On the morning of the 9th the troop paraded at half past seven o clock with as much regularity and as quietly as if only going to a field day not a man either absent or intoxicated and every part of the guns and appointments in the most perfect order At eight the hour named in orders we marched off the parade The weather was fine the scenery as we skirted the beautiful banks of the Stour charming and the occasion exhilarating Near Manningtree we halted a short time to feed our horses and then pursuing our route arrived at Harwich about three o clock in the afternoon Here we found the transports the Adventure Philarea and Salus

in which last I embarked awaiting us but the tide being unfavourable although we immediately commenced operations we only succeeded in embarking the horses of one division and those of the officers the remainder were therefore put up in the barracks for the night As might be expected the little town of Harwich presented a most animated spectacle Its narrow streets of modest houses with brick trottoirs were crowded with soldiers some all over dust just arrived some who had already been a day or two in the place comparatively at home lounging about in undress others about to embark hurrying along to the beach with baggage and stores sailors marketing or rolling about half seas over country people bringing in vegetables and the like and towns people idling at their windows or in groups at corners of the streets in short the usual picture incident on such occasions

Concepts of War, 1650-1900 Paul Schuurman, 2023-02-17 Why do people wage war How can wars be won How has warfare been an engine of change for human civilization for better and for worse In this book Paul Schuurman shows how some of the best Western minds between 1650 and 1900 tried to answer these questions in an epoch when European developments became a matter of global concern In eight wide ranging chapters he discusses the key concepts that philosophers and generals of this era developed to grasp and influence the dramatic phenomenon of war Their concepts remain fresh and relevant down to the present day

Alternate Histories and Nineteenth-Century Literature Ben Carver, 2017-10-17 This book provides the first thematic survey and analysis of nineteenth century writing that imagined outcomes that history might have produced Narratives of possible worlds and scenarios referred to here as alternate histories proliferated during the nineteenth century and clustered around pressing themes and emergent disciplines of knowledge This study examines accounts of undefeated Napoleons after Waterloo alternative genealogies of western civilization from antiquity to the nineteenth century present day the imagination of variant histories on other worlds lost world fictions that discovered improved relations between men and women and the use of alternate history in America to reconceive the relationship between the New World and the Old The untimely imagination of other histories interrogated the impact of new techniques of knowledge on the nature of history itself This book sheds light on the history of speculative thought and the relationship between literature and the history of ideas in the nineteenth century

Telling It Like It Wasn't Catherine Gallagher, 2024-05-31 Inventing counterfactual histories is a common pastime of modern day historians both amateur and professional We speculate about an America ruled by Jefferson Davis a Europe that never threw off Hitler or a second term for JFK These narratives are often written off as politically inspired fantasy or as pop culture fodder but in *Telling It Like It Wasn't* Catherine Gallagher takes the history of counterfactual history seriously pinning it down as an object of dispassionate study She doesn't take a moral or normative stand on the practice but focuses her attention on how it works and to what ends a quest that takes readers on a fascinating tour of literary and historical criticism Gallagher locates the origins of contemporary counterfactual history in eighteenth century Europe where the idea of other possible historical worlds first took hold in philosophical disputes about Providence before being repurposed by military theorists as a tool for improving the art of war In the next century counterfactualism became a legal device for deciding liability and lengthy alternate history fictions appeared illustrating struggles for historical justice These early motivations for philosophical understanding military improvement and historical justice are still evident today in our fondness for counterfactual tales Alternate histories of the Civil War and WWII abound but here Gallagher shows how the counterfactual habit of replaying the recent past often shapes our understanding of the actual events themselves The counterfactual mode lets us continue to envision our future by reconsidering the range of previous alternatives Throughout this engaging and eye opening book Gallagher encourages readers to ask important questions about our obsession with counterfactual history and the roots of our tendency to ask What if The Journal of Military History, 2000 **The Napoleon Options** Jonathan North, 2017-05-31 Compelling fictional scenarios exploring how the Napoleonic Wars could have gone very differently This compelling alternate history brilliantly written by fourteen leading international authors presents the great maybes of the Napoleonic Wars It focuses on some of the pivotal episodes of these catastrophic wars giving them a resounding twist and explores in detail an alternative sequence of historical events Rooted firmly in reality and projected from entirely factual events these dramatic and plausible possibilities are played out as though they actually happened in vivid and dramatic narratives The Napoleon Options presents ten scenarios spanning the years between 1796 and 1815 These include a full blown French invasion of Ireland a very real danger in the 1790s Napoleon's successful conquest of Egypt and the Middle East Junot's victory at Vimerio the Austrian invasion of Bavaria in 1809 the Russian success at Borodino and what might have happened at Waterloo Among the additional contributions in this new extended edition are alternative outcomes to the battles of Essling Austerlitz Fuentes d Ooro and New Orleans These captivating scenarios colorfully illustrate how alternate results might have radically reshaped events and demonstrate the far reaching consequences minor changes could have had upon the future course of history **The Campaign of 1815** William
