Babel Samuel L. Boyd, 2023-06-20 In *Babel Political Rhetoric of a Confused Legacy* Samuel L Boyd offers a new reading of the Tower of Babel in Genesis 11 1 9 Using recent insights on the rhetoric of Neo Assyrian politics and its ideology of governance as well as advances in biblical studies Boyd shows how the Tower of Babel was not originally about a tower Babylon or the advent of multilingualism at least in the earliest phases of the history and literary context of the story Rather the narrative was a critique against the Assyrian empire using themes of human overreach found in many places in Genesis 11 11 Boyd clarifies how idioms of Assyrian governance could have found their way into the biblical text and how the Hebrew of Genesis 11 1 9 itself leads to a different translation of the passage than found in versions of the Bible one that does not involve language This new reading sheds light on how the story became about language Boyd argues that this new understanding of Babel also illuminates aspects of the call of Abram when the Tower of Babel is interpreted as a story about something other than the origin of multilingualism Finally he frames the historical critical research on the biblical passage and its reception in ancient Jewish Christian and Islamic sources with the uses of the Tower of Babel in modern politics of language and nationalism He demonstrates how and why Genesis 11 1 9 has become so useful in often detrimental ways to the modern nation state Boyd explores this intellectual history of the passage into current events in the twenty first century and offers perspectives on how a new reading of the Tower of Babel can speak to the current cultural and political moment and offer correctives on the uses and abuses of the Bible in the public sphere
