National Security In The Obama Administration Reassessing The Bush Doctrine:

National Security in the Obama Administration Stanley A. Renshon, 2009-09-10 This book examines the Bush Doctrine and its effect and influence on the new national security agenda of President Obama National Security in the Obama Administration Stanley Allen Renshon, 2010 The Bush Doctrine is dead At least that is what critics hope But while new U S national security challenges emerge many post 9 11 threats still persist and the policies of George W Bush offer one set of strategic answers for how President Obama can confront those dangers Neither a polemic nor a whitewash this book provides a careful analysis of the Bush Doctrine its development application and rationale and assesses its legacy How will Obama respond to the many foreign policy challenges that await him Through an examination of psychology as much as policy Renshon gives us the first comparative analysis of the Bush Doctrine and the developing Obama Doctrine The book analyzes the range of national security issues Obama will face and the political divisions that permeate U S national security debates It is essential reading for anyone looking to understand how presidents assess security risks generally and how Obama specifically is likely to adapt the Bush Doctrine to his own worldview

The National Security Doctrines of the American Presidency Lamont C. Colucci, 2012-08-08 This two volume set provides a chronological view of the foreign policy national security doctrines of key American presidents from Washington to Obama framed by commentary on the historical context for each discussions of major themes and examinations of the lasting impact of these policies The National Security Doctrines of the American Presidency How They Shape our Present and Future provides a chronological examination of the foreign policy and national security doctrines of key American presidents from Washington to Obama covering everything from our missionary zeal and our pursuit of open navigation of the seas to our involvement in the ongoing political and military conflicts in the Middle East It addresses the multiple sources behind the doctrines real rhetorical and ideological Arranged chronologically each chapter offers commentary on the historical evolution of these doctrines identifies the major themes and highlights unique revelations Ideal for universities colleges libraries academics classroom teachers policy makers and the educated electorate this two volume set represents a compendium of national security doctrines that explains how these first doctrines have constrained restrained and guided every American president regardless of party providing comprehensive information that cannot be found in any other single source Further the work presents the reader with examples and explanations of precisely how these doctrines from long ago as well as those from recent history directly affect our present and future

US National Security Reform Heidi B. Demarest, Erica D. Borghard, 2018-07-04 This collection of essays considers the evolution of American institutions and processes for forming and implementing US national security policy and offers diverse policy prescriptions for reform to confront an evolving and uncertain security environment Twelve renowned scholars and practitioners of US national security policy take up the question of whether the national security institutions we have are the ones we need to confront an uncertain future Topics include a characterization of future threats

to national security organizational structure and leadership of national security bureaucracies the role of the US Congress in national security policy making and oversight and the importance of strategic planning within the national security enterprise The book concludes with concrete recommendations for policy makers most of which can be accomplished under the existing and enduring National Security Act This book will be of much interest to students of US national security US foreign policy Cold War studies public policy and International Relations in general *The Obama Presidency* Bert A. Rockman, Andrew Rudalevige, Colin Campbell, 2011-07-26 In the latest volume in this classic series Rockman Rudalevige and Campbell once again bring together top notch scholars this time to take a comprehensive look at the first two years of Barack Obama's presidency Assessing Obama's political strategy as well as his administration's successes and setbacks chapter authors critically examine a presidency marked by continued partisanship major policy battles and continued global turmoil

The Obama Doctrine Colin Dueck, 2015-04-01 By mid 2015 the Obama presidency will be entering its final stages and the race among the successors in both parties will be well underway And while experts have already formed a provisional understanding of the Obama administration's foreign policy goals the shape of the Obama Doctrine is finally coming into full view It has been consistently cautious since Obama was inaugurated in 2009 but recent events in the Middle East Eastern Europe and the Far East have led an increasingly large number of foreign policy experts to conclude that caution has transformed into weakness In *The Obama Doctrine* Colin Dueck analyzes and explains what the Obama Doctrine in foreign policy actually is and maps out the competing visions on offer from the Republican Party Dueck a leading scholar of US foreign policy contends it is now becoming clear that Obama's policy of international retrenchment is in large part a function of his emphasis on achieving domestic policy goals There have been some successes in the approach but there have also been costs For instance much of the world no longer trusts the US to exert its will in international politics and America's adversaries overseas have asserted themselves with increasing frequency The Republican Party will target these perceived weaknesses in the 2016 presidential campaign and develop competing counter doctrines in the process Dueck explains that within the Republican Party there are two basic impulses vying with each other neo isolationism and forceful internationalism Dueck subdivides each impulse into the specific agenda of the various factions within the party Tea Party nationalism neoconservatism conservative internationalism and neo isolationism He favors a realistic but forceful US internationalism and sees the willingness to disengage from the world by some elements of the party as dangerous After dissecting the various strands he articulates an agenda of forward leaning American realism that is a policy in which the US engages with the world and is willing to use threats of force for realist ends The Obama Doctrine not only provides a sharp appraisal of foreign policy in the Obama era it lays out an alternative approach to marshaling American power that will help shape the foreign policy debate in the run up to the 2016 elections *The Trump Doctrine and the Emerging International System* Stanley A. Renshon, Peter Suedfeld, 2020-08-27 President Donald J Trump's America First outlook has inspired both

enthusiasm and condemnation among different segments of the American population This book examines the meaning and implications of that perspective and how the Trump Administration has implemented it or failed to do so Contributors subject matter experts with diverse points of view place the Trump Doctrine within the succession of presidential foreign policy themes and provide a case by case analysis of how it has been applied in specific regions and countries around the world The book s aim is to provide a fair and balanced assessment relatively rare in this period of intense partisanship and impending national election

Restraint Barry R. Posen,2014-06-03 The United States Barry R Posen argues in *Restraint* has grown incapable of moderating its ambitions in international politics Since the collapse of Soviet power it has pursued a grand strategy that he calls liberal hegemony one that Posen sees as unnecessary counterproductive costly and wasteful Written for policymakers and observers alike *Restraint* explains precisely why this grand strategy works poorly and then provides a carefully designed alternative grand strategy and an associated military strategy and force structure In contrast to the failures and unexpected problems that have stemmed from America s consistent overreaching Posen makes an urgent argument for restraint in the future use of U S military strength After setting out the political implications of restraint as a guiding principle Posen sketches the appropriate military forces and posture that would support such a strategy He works with a deliberately constrained notion of grand strategy and even more important of national security which he defines as including sovereignty territorial integrity power position and safety His alternative for military strategy which Posen calls command of the commons focuses on protecting U S global access through naval air and space power while freeing the United States from most of the relationships that require the permanent stationing of U S forces overseas

The Real Psychology of the Trump Presidency Stanley Renshon,2020-09-14 The United States has never had a president quite like Donald J Trump He violated every rule of conventional presidential campaigns to win a race that almost no one including at times he himself thought he would win In so doing Trump set off cataclysmic shock waves across the country and world that have not subsided and are unlikely to as long as he remains in office Critics of Trump abound as do anonymously sourced speculations about his motives yet the real man behind this unprecedented presidency remains largely unknown In this innovative analysis American presidency scholar and trained psychoanalyst Stanley Renshon reaches beyond partisan narrative to offer a serious and substantive examination of Trump s real psychology and controversial presidency He analyzes Trump as a preemptive president trying to become transformative by initiating a Politics of American Restoration Rigorously grounded in both political science and psychology scholarship *The Real Psychology of the Trump Presidency* offers a unique and thoughtful perspective on our controversial 45th president

The Trump and Harris Doctrines Stanley A. Renshon,Peter Suedfeld,2024-10-02 The 2024 U S presidential election will hinge on two very different basic approaches to domestic and foreign policy two very different sets of underlying premises and two very different types of presidential and high level official personalities at the administrative helm putting them into effect Republican presidential nominee Donald

Trump is campaigning on a nationalist conservative preservation platform. It is a direct antithesis of the Biden Harris Waltz progressive transformation agenda. This volume comparatively analyzes the choices of presidential doctrine that are likely to define the principles, beliefs, and nature of U.S. foreign policy in the years following the election of either candidate and their vastly different agendas. Renshon Suedfeld and contributors do an excellent job of analyzing the different foreign policy assumptions and implications associated with the Trump and Biden presidencies at a time of deepening international crisis. Richard Ned Lebow, King's College London, I can think of no better book to objectively compare and contrast President Biden's foreign policy with that of the Trump administration. A very useful and fair-minded collection of essays containing a range of perspectives. Colin Dueck, George Mason University.

The US Middle East Policy In Post 9/11 Era Mukhtar Ahmad Bhat, 2020-01-01. Middle East, the mother of civilisations, is one of the very few regions of global politics which have remained the hot spots and orbits around which the global power game revolved uninterruptedly. In beginning, it was due to its geopolitical location as it is at the crossroads and a trade link between big Asian, African, and European countries turned the region into a trade hub. Then the life-changing discoveries of natural resources, particularly of oil and gas in the region, as well as the industrial revolution in other parts of the world, increased the strategic importance of the region at the global level. The adoption of policy of securing control over the resources by global powers gave new shape to the political structure and configuration, like disintegration of Ottoman Empire and creation of new political entities in the region. In addition to that, the break out of the First and Second World Wars, creation of Israel, as well as the emergence of the Cold War, are such events that transformed the region into a battle ground for the global super powers, which ended at the collapse of the USSR in 1992 and emergence of the US as the dominant global power. No doubt, after the emergence of uni-polar global order, the region saw a phase of peace and end of the war gaming on the part of the big powers, but the US continued to dominate the regional political structure. During the same period, the region also experienced one of the toughest periods of inter-state wars: first the decade-long Iraq-Iran war, and then the Iraqi invasion of Kuwait, which added more fuel to the already increasing division and hatred among the regional countries.

U.S. Foreign Policy Akis Kalaitzidis, Gregory W. Streich, 2011-09-13. A critical tool for the study of U.S. history, this volume offers an analysis of important documents and decisions in U.S. foreign policy from George Washington to Barack Obama. The study of historical primary documents provides a uniquely beneficial and insightful view into history. To that end, *U.S. Foreign Policy: A Documentary and Reference Guide* presents and interprets important documents from throughout U.S. history, from the administration of George Washington to that of Barack Obama. Examining U.S. foreign policy through this lens identifies the ideals of the United States during different periods, illuminates the intent behind its military actions, and reveals how each American president interpreted his moral responsibilities as leader of one of the most powerful nations in the world. Organized to allow readers to examine the historical evolution of U.S. foreign policy, the book includes treaties, speeches, and other documents that illustrate important doctrines and decisions over the more

than two centuries of American history covering all presidential doctrines to the current administration It also highlights various phases of foreign policy from regionalism to westward expansion from the Cold War to a New World Order In addition to the documents themselves the authors provide invaluable analysis and commentary that will help students understand what the documents mean both in the context of their time and in terms of their broader historical significance

Barack Obama's Post-American Foreign Policy Robert Singh,2012-06-07 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com After one of the most controversial and divisive periods in the history of American foreign policy under President George W Bush the Obama administration was expected to make changes for the better in US relations with the wider world Now international problems confronting Obama appear more intractable and there seems to be a marked continuity in policies between Obama and his predecessor Robert Singh argues that Obama s approach of strategic engagement was appropriate for a new era of constrained internationalism but it has yielded modest results Obama s search for the pragmatic middle has cost him political support at home and abroad whilst failing to make decisive gains Singh suggests by calibrating his foreign policies to the emergence of a post American world the president has yet to preside over a renaissance of US global leadership Ironically Obama s policies have instead hastened the arrival of a post American world [American Grand Strategy from Obama to Trump](#)

Zeno Leoni,2021-03-01 This book maintains that the theory of imperialism should incorporate the concept of an operational code of political elites to account for agencies actions This concept would explain the strategic continuity and tactical change in US grand strategy from Obama to Trump While both presidents pursued a strategy of off shore balancing their competing worldviews led to tangible differences in the way they sought to restore American power after Bush and to contain the rise of China This book offers an important contribution after the departure of Bush concluded the 21st century debate on imperialism at a time when an increasingly post American world order has undermined the end of the state thesis Indeed over the last twelve years US grand strategy has emphasized inter state competition rather than the annihilation of rogue regimes These events require renewed efforts for the theory of imperialism to contribute to Globalisation Theory at this crucial historical junction **Comparative Political Leadership**

Ludger Helms,2012-07-25 This volume has been designed as a key resource in the field of international political leadership research Written by a team of distinguished leadership scholars from three continents and nine countries the original chapters gathered in this volume cover all the major fields of political leadership from executive legislative and party leadership to leadership in social movements and international organizations The special value and appeal of this book relates to its genuinely comparative focus that characterizes all chapters *The Powers of the Presidency* ,2013 This is a comprehensive and illustrative work on the historical and contemporary perspective on presidential powers guiding readers through the presidency as a constitutional office with many updated features from the previous edition

Guide to the Presidency and the Executive Branch

Michael Nelson, 2012-08-13 This comprehensive two volume guide is the definitive source for researchers seeking an understanding of those who have occupied the White House and on the institution of the U S presidency Readers turn Guide to the Presidency and the Executive Branch for its wealth of facts and analytical chapters that explain the structure powers and operations of the office and the president s relationship with Congress and the Supreme Court The fifth edition of this acclaimed reference completes coverage of the George W Bush presidency the 2008 election and the first 3 years of the presidency of Barack Obama This includes coverage of their handling of the economic crisis wars abroad and Obama s healthcare initiatives The work is divided into eight distinct subject areas covering every aspect of the U S presidency and all chapters in each subject area have been revised and updated Origins and Development of the Presidency including constitutional beginnings history of the presidency and vice presidency and presidential ratings Selection and Removal of the President including the electoral process a chronology of presidential elections removal of the president and vice president and succession Powers of the Presidency including the unilateral powers of the presidency and those as chief of state chief administrator legislative leader commander in chief and chief economist The President the Public and the Parties including presidential appearances the president and political parties the president and the news media the presidency and pop culture public support and opinion and the president and interest groups The Presidency and the Executive Branch including the White House Office the Office of the Vice President supporting organizations the cabinet and executive departments presidential commissions and executive branch housing pay and perquisites Chief Executive and Federal Government including the president and Congress the president and the Supreme Court and the president and the bureaucracy Presidents their Families and Life in the White House and Beyond including the daily life of the president the first lady the first family friends of presidents and life after the presidency Biographies of the Presidents Vice Presidents First Ladies This new volume also features more than 200 textboxes tables and figures Major revisions cover the supporting White House organizations and the president s role as chief economist Additional reference materials include explanatory headnotes as well as hundreds of photographs with detailed captions *Noncitizen Voting and American Democracy* Stanley Allen

Renshon, 2009 Continuing large scale migration to the United States raises the question of how best to integrate new immigrants into the American national community Traditionally one successful answer has been to encourage immigrants to learn our language culture history and civic traditions New immigrants would then be invited become citizens and welcomed as full members of the community However a concerted effort is underway to gain acceptance for and implement the idea that the United States should allow new immigrants to vote without becoming citizens It is mounted by an alliance that brings together progressive academics law professors local and state political leaders and community activists all working to decouple voting from American citizenship Their effort show signs of success but is it really in America s best interests to allow new immigrants to have the vote Their proposals have been much advocated but little analyzed Neither a polemic nor a

whitewash Stanley A Renshon provides a careful analysis of the arguments put forward by advocates of this position on the basis of fairness increasing democracy civic learning and moral necessity and asks Do they really help immigrants become Americans

Beyond Global Crisis Terrence Edward Paupp, 2017-09-29 In this volume Terrence Paupp critically describes the various dimensions of today's global crisis Among other things this volume analyzes nuclear weapons proliferation climate change and international lawlessness in the form of wars of aggression Paupp argues that much human conflict and environmental degradation is the direct consequence of poverty and inequality Until these issues are addressed many of the world's problems will remain Paupp asserts that around the world peoples and nations are becoming more open to a strategy and culture of peace that evolves through discovering a commonality of interests the value of mutual cooperation and the desirability of forging consensus By using various road maps and remedies supplied by noted Japanese peace activist Daisaku Ikeda and his contemporaries viable solutions will emerge In this new endeavor equipped with some of the proposed solutions and strategies that this book provides humanity will collectively become engaged in remaking the character of global governance in order to build a global culture of peace

Theory of Unipolar Politics Nuno P. Monteiro, 2014-04-21 Since the collapse of the Soviet Union the United States has enjoyed unparalleled military power The international system is therefore unipolar A quarter of a century later however we still possess no theory of unipolarity *Theory of Unipolar Politics* provides one Dr Nuno P Monteiro answers three of the most important questions about the workings of a unipolar world Is it durable Is it peaceful What is the best grand strategy a unipolar power such as the contemporary United States can implement In our nuclear world the power preponderance of the United States is potentially durable but likely to produce frequent conflict Furthermore in order to maintain its power preponderance the United States must remain militarily engaged in the world and accommodate the economic growth of its major competitors namely China This strategy however will lead Washington to wage war frequently In sum military power preponderance brings significant benefits but is not an unalloyed good

National Security In The Obama Administration Reassessing The Bush Doctrine Introduction

In the digital age, access to information has become easier than ever before. The ability to download National Security In The Obama Administration Reassessing The Bush Doctrine has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download National Security In The Obama Administration Reassessing The Bush Doctrine has opened up a world of possibilities. Downloading National Security In The Obama Administration Reassessing The Bush Doctrine provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading National Security In The Obama Administration Reassessing The Bush Doctrine has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download National Security In The Obama Administration Reassessing The Bush Doctrine. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading National Security In The Obama Administration Reassessing The Bush Doctrine. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading National Security In The Obama Administration Reassessing The Bush Doctrine, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect

themselves, individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download National Security In The Obama Administration Reassessing The Bush Doctrine has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

FAQs About National Security In The Obama Administration Reassessing The Bush Doctrine Books

1. Where can I buy National Security In The Obama Administration Reassessing The Bush Doctrine books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
