Online Contemporary Challenges Securing Human Rights:

Contemporary Human Rights Challenges Carla Ferstman, Tony Gray, 2018-09-03 The Universal Declaration of Human Rights UDHR was drafted by the UN Commission on Human Rights in the aftermath of the World War II in an attempt to address the wrongs of the past and plan for a better future for all With contributions from President Jimmy Carter UNESCO Secretary General Audrey Azoulay and the former Archbishop of Canterbury Rowan Williams this collection of essays *Contemporary Human Rights Challenges* The Universal Declaration of Human Rights and its Continuing Relevance by leading international experts offers a timely contemporary view on the UDHR and its continuing relevance to today s issues Reflecting the structure of the UDHR the chapters written by 28 academics practitioners and activists bring a contemporary perspective to the original principles proclaimed in the Declaration s 30 Articles It will be a stimulating accessible read with real world examples for anyone involved in thinking about designing or applying public policy particularly government officials politicians lawyers journalists and academics and those engaged in promoting social justice Examined through these universal principles which have enduring relevance the authors grapple with some of today s most pressing challenges some of which for example equality and gender related rights would not have been foreseen by the original drafters of the Declaration who included Eleanor Roosevelt Ren Cassin and John Humphrey The essays cover a wide range of topics such as an individual s right to privacy in a digital age freedom to practise one s religion and the right to redress and make a compelling and detailed argument for the on going importance and significance of the Declaration and human rights in our rapidly changing world

Human Rights, Digital Society and the Law Mart Susi, 2019-05-31 The Internet has created a formidable challenge for human rights law and practice worldwide International scholarly and policy oriented communities have so far established a consensus regarding only one main aspect human rights in the internet are the same as offline There are emerging and ongoing debates regarding not only the standards and methods to be used for achieving the sameness of rights online but also whether classical human rights as we know them are contested by the online environment The internet itself in view of its cross border nature and its ability to affect various areas of law requires adopting an internationally oriented approach and a perspective strongly focused on social sciences In particular the rise of the internet enhanced also by the influence of new technologies such as algorithms and intelligent artificial systems has influenced individuals civil political and social rights not only in the digital world but also in the atomic realm As the coming of the internet calls into question well established legal categories a broader perspective than the domestic one is necessary to investigate this phenomenon This book explores the main fundamental issues and practical dimensions related to the safeguarding of human rights in the internet which are at the focus of current academic debates It provides a comprehensive analysis with a forward looking perspective of bringing order into the somewhat chaotic online dimension of human rights It addresses the matter of private digital censorship the apparent inefficiency of existing judicial systems to react to human

rights violations online the uncertainty of liability for online human rights violations whether the concern with personal data protection overshadows multiple other human rights issues online and will be of value to those interested in human rights law and legal regulation of the internet
