Third Sector Performance Richard Greatbanks, 2016-02-17 Global financial crisis and colossal sovereign debt has resulted in the need for radical cuts in public expenditure in many countries Against this background the contributions in Third Sector Performance acknowledge that as a result more imaginative ways of delivering public services

are being sought In countries like the UK the new concept of The Big Society envisages third sector or not for profit or charitable organizations and social enterprises stepping in to mitigate the loss of vital public services This development also gives rise to the likelihood that third sector financial institutions such as credit unions and a possible Big Society Bank will grow in importance The performance of all these enterprises looks set to become a much more critical issue than it has been in the past The editors have gathered in this volume chapters reflecting the fact that third sector organizations are not the same as conventional businesses and are also subtly different from the public sector There is currently a dearth of knowledge and a lack of research into issues around performance in the Third Sector or Civil Society This book begins to fill a void in the knowledge base The internationally sourced contributions represent a balanced offering of academic research findings and practitioner accounts from the Third Sector together with a section devoted specifically to third sector finance institutions This book will appeal internationally to policy makers within the third sector or involved in the management of n f p and voluntary organisations as well as to those with responsibility for wider public policy scholars teaching or researching in this area and students of business and management preparing for roles in social enterprises

Brendan Galbraith,2014 *Research Handbook on Entrepreneurship in Emerging Economies* Paresha Sinha,Jenny

Gibb,Michèle Akoorie,Jonathan M. Scott,2020-02-28 This Research Handbook offers contextualized perspectives on

entrepreneurship in emerging economies Emphasizing how national context profoundly shapes incentives for entrepreneurial

efforts chapters dissect the opportunities emerging from various institutions and social practices from the Middle East North and Sub Saharan Africa Asia and Latin America This Handbook is an ideal guide for researchers working on emerging economies particularly those with an interest in global entrepreneurship *The Co-operative Model in Practice: International Perspectives* , Game-Based Learning and the Power of Play Pauline Rooney,Nicola Whitton,2016-08-17 In recent years there has been growing interest in the use of games to enhance learning across multiple educational levels and extensive research has shown that games have considerable potential for enhancing learning motivation and skills development However despite a growing acknowledgement of this potential challenges remain and the use of games in formal education contexts remains far from mainstream While some studies identify design and development issues as a key barrier including associated costs others highlight organisational and infrastructural difficulties involved in implementing games in the classroom More recently increasing recognition of these difficulties has led many to explore how gaming elements rather than fully fledged games can be used to engage and enhance student learning a practice now widely referred to as gamification This edited collection of chapters explores the application potential and challenges of game based learning and gamification across multiple disciplines and sectors including psychology education business history languages and the creative arts With contributions exploring the use of games across the full educational spectrum from early childhood education through to the corporate sector it provides comprehensive insights into the potential of games and play for facilitating learning and engagement at every life stage Shaping the Corporate Landscape Nina Boeger,Charlotte Villiers,2018-02-22 Currently there exists a distrust of corporate activity in the continuing aftermath of the financial crisis and with increasing recognition of the threats of climate change and global as well as national inequalities Despite efforts in the arena of corporate governance to address these we are still beset with corporate scandals and witness companies facing large fines for their environmental and cost cutting misdemeanours Recognising that the usual responses to dealing with these corporate problems are not effective this book asks whether the traditional form of the joint stock corporation itself lies at the heart of these problems What are the features of the corporate form and how does its current regulation underscore these problems Identifying such features provides a basis for the discussion to develop towards suggesting more progressive regulatory developments around the corporate form More fundamentally this book investigates a diverse range of corporate governance models that are emerging as alternatives to the shareholder corporation including employee owned cooperative and social enterprises The contributors are leading scholars from various backgrounds including law management and organisation studies finance and accounting as well as experienced professionals and policy makers with expertise in social and cooperative business models and the role of employees in the corporation **Electronic Commerce** Efraim Turban,David King,Jae Kyu Lee,Ting-Peng Liang,Deborah C. Turban,2015-01-29 Throughout the book theoretical foundations necessary for understanding Electronic Commerce EC are presented ranging from consumer behavior to the

economic theory of competition Furthermore this book presents the most current topics relating to EC as described by a diversified team of experts in a variety of fields including a senior vice president of an e commerce related company The authors provide website resources numerous exercises and extensive references to supplement the theoretical presentations At the end of each chapter a list of online resources with links to the websites is also provided Additionally extensive vivid examples from large corporations small businesses from different industries and services governments and nonprofit agencies from all over the world make concepts come alive in Electronic Commerce These examples which were collected by both academicians and practitioners show the reader the capabilities of EC its cost and justification and the innovative ways corporations are using EC in their operations In this edition previous editions published by Pearson Prentice Hall the authors bring forth the latest trends in e commerce including social businesses social networking social collaboration innovations and mobility

Rural-Urban Linkages and Sustainable Development in Africa Shogo Kudo, Orleans Mfunne, Melissa

Hansen, Jackline Nyerere, 2018-10-18 This book highlights the important role of the complex nature of interactions between rural and urban areas in Africa and how this relates to sustainable development on the continent one with a fast urbanization rate The volume critiques the widely held assumption of a societal divide where rural areas are mostly agricultural whilst urban areas engage in industry and services Contributors provide conceptual arguments and present case studies in Africa which illustrate the complex and multifaceted interdependencies between cities and rural areas through the flow of natural resources people capital information goods and services which directly impacts the socio ecological as well as economic sustainability of these spaces This volume forms part of an Education for Sustainable Development in Africa ESDA book series involving the United Nations University Institute for the Advanced Study of Sustainability and 8 partner African universities running Master s Programs in sustainable development The book series is intended to serve primarily as undergraduate and graduate instruction materials for courses on sustainable development in Africa as well as policy input to key developmental issues in Africa

A Research Agenda for Social Entrepreneurship Anne de Bruin, Simon

Teasdale, 2019 In the last two decades social entrepreneurship has grown in energy and impact as entrepreneurial spirit has increasingly turned to finding solutions for social cultural and environmental issues As social entrepreneurship has grown in popularity so too has its academic study A Research Agenda for Social Entrepreneurship brings together contributions from developing paths in the field to signpost the directions ahead for the study of social entrepreneurship

Social

Entrepreneurship and Neoliberalism Carolina Bandinelli, 2019-12-13 Contemporary Western societies seem to be marked by a revival of ethics virtually every actor claims to be doing something good or even to be willing to change the world Social innovation sharing economy and ethical business are just few of the tags attached to this manifold cultural trend which is indicative of the attempt to reintegrate ethical responsibility with economic conduct But how can entrepreneurship be redefined as the best way to express one s will to change society How can people decide to actualise their desire to change

how things are by means of a business Social Entrepreneurship and Neoliberalism Making Money While Doing Good tackles these questions offering a critical yet empathetic account of the lifeworld of young social entrepreneurs in London and Milan

Social Enterprise in Latin America Luiz Inácio Gaiger, Marthe Nyssens, Fernanda Wanderley, 2019-05-22 In the absence of a widely accepted and common definition of social enterprise SE a large research project the International Comparative Social Enterprise Models ICSEM Project was carried out over a five year period it involved more than 200 researchers from 55 countries and relied on bottom up approaches to capture the SE phenomenon This strategy made it possible to take into account and give legitimacy to locally embedded approaches thus resulting in an analysis encompassing a wide diversity of social enterprises while simultaneously allowing for the identification of major SE models to delineate the field on common grounds at the international level These SE models reveal or confirm an overall trend towards new ways of sharing the responsibility for the common good in today s economies and societies We tend to consider as good news the fact that social enterprises actually stem from all parts of the economy Indeed societies are facing many complex challenges at all levels from the local to the global level The diversity and internal variety of SE models are a sign of a broadly shared willingness to develop appropriate although sometimes embryonic responses to these challenges on the basis of innovative economic business models driven by a social mission In spite of their weaknesses social enterprises may be seen as advocates for and vehicles of the general interest across the whole economy Of course the debate about privatisation deregulation and globalised market competition all factors that may hinder efforts in the search for the common good has to be addressed as well The second of a series of four ICSEM books Social Enterprise in Latin America will serve as a key reference and resource for teachers researchers students experts policy makers journalists and other categories of people who want to acquire a broad understanding of the phenomena of social enterprise and social entrepreneurship as they emerge and develop across the world

Criminology Steve Case, Phil Johnson, David Manlow, Roger Smith, Kate Williams, 2017 Criminology is a textbook with a new approach both student focused and research engaged Written for today s students it provides the framework of knowledge core to exploring understanding and explaining crime The goal is simple and bold to help the next generation of criminologists to be switched on excited and critical

Diversity and Entrepreneurship Vanessa Ratten, Leo-Paul Dana, 2019-08-28 Whilst there has been an increased interest in minorities and their contribution to society the literature on minorities and under represented communities is still weak This edited volume discusses entrepreneurship in the context of minorities and the role they play in society The book looks at under represented communities such as LGBTQ disadvantaged ethnic minority religious entrepreneurs medically limited indigenous refugees young old and other socio economic segments It provides a holistic comprehensive overview of how diversity in entrepreneurship facilitates increased levels of innovation The book will be amongst the first to take a broad perspective of minority entrepreneurs

Electronic Commerce 2018 Efraim Turban, Jon Outland, David King, Jae Kyu Lee, Ting-Peng Liang, Deborah C.

Turban,2017-10-12 This new Edition of Electronic Commerce is a complete update of the leading graduate level advanced undergraduate level textbook on the subject Electronic commerce EC describes the manner in which transactions take place over electronic networks mostly the Internet It is the process of electronically buying and selling goods services and information Certain EC applications such as buying and selling stocks and airline tickets online are reaching maturity some even exceeding non Internet trades However EC is not just about buying and selling it also is about electronically communicating collaborating and discovering information It is about e learning e government social networks and much more EC is having an impact on a significant portion of the world affecting businesses professions trade and of course people The most important developments in EC since 2014 are the continuous phenomenal growth of social networks especially Facebook LinkedIn and Instagram and the trend toward conducting EC with mobile devices Other major developments are the expansion of EC globally especially in China where you can find the world s largest EC company Much attention is lately being given to smart commerce and the use of AI based analytics and big data to enhance the field Finally some emerging EC business models are changing industries e g the shared economy models of Uber and Airbnb The 2018 9th edition brings forth the latest trends in e commerce including smart commerce social commerce social collaboration shared economy innovations and mobility Handbook of Research on Value Creation for Small and Micro Social Enterprises Maher, Chi,2018-12-07 In the corporate world businesses are focused on increasing their revenues but ignore the cries of social and environmental concerns from nearby communities At the other end of the spectrum nonprofits seek to help their local communities but are constantly required to create fundraisers without having adequate time to put those collected donations to use The world needs an industry to combine civic engagement and public service with wealth and value creation to provide self sustaining opportunities for public services that are sometimes overlooked or ignored The Handbook of Research on Value Creation for Small and Micro Social Enterprises defines the concept of social enterprise and provides vital insight into the importance of rebalancing creating and promoting economic activities that achieve social fairness cultural fulfillment and the protection of the environment While highlighting topics such as marketing strategies cross cultural frameworks and public policy this publication focuses on empowering rather than controlling sustainable solutions for various communities and consumers This book is ideally designed for researchers policymakers academicians who teach and or research small and micro social enterprises and advanced level students furthering their research exposure to pertinent topics in this field
