**66 Love Letters** Larry Crabb, 2011-05-09 Have you ever read the Bible only to come away confused Learn the meaning of each of the 66 books of the Bible and how each one is a love letter to God's people After working with people as a psychologist for four decades author Larry Crabb invites you to explore the Bible in a new way He offers a fresh relational look at Scripture through intimate discussions with God Told through a series of conversations between himself and God Larry wrestles through what God intends us to understand in each of the 66 books of the Bible Each book tells a story that is a part of a larger one of God and how He loves His people Perfect for a small group bible study or used as a daily devotional Larry asks deeply honest questions such as God what is it you wanted me to see in Obadiah And what's up with Leviticus Is there anything there for me This one verse in Galatians has always frustrated me Why is that The way you wrote Revelation makes it difficult to understand why didn't you just describe what will happen in a straightforward way Listen to the story of God unfold through these chapters and you'll find not only His redeeming love but His plan and provision designed especially for you Though life may not be going according to your plan God has another one far better than you can imagine From Genesis to Revelation experience His invitation to get you dancing with joy [Lonely Girls Online](#) Petey

**Internet Fictions** Ingrid Hotz-Davies, Anton Kirchhofer, Sirpa Leppänen, 2008-12-18 The Internet is nothing less than a medium for the indiscriminate and global dissemination of information if we take information in its cybernetic sense as bits of data any data As such it is also a massive amorphous rhizomic collection of substantiated facts guesswork fantasy madness debate criminal energy big business stupidity brilliance all in all a seemingly limitless multiplication of voices all clamouring to be heard It is a medium which proliferates stories narratives fictions in ways which are both new and familiar It is as a generator of fictions that the Internet seems to be just waiting to be explored by the disciplines of literary cultural and linguistic studies Fan fiction slash and straight scam baiting fan sites wild or rogue interpretive universes gossip theories musings opinions As a singularly unstructured and hence as yet uncanonizable body of texts the stories told on the Internet have a distinct element of grass roots fictionalization and so offer an unprecedented opportunity to access hear and investigate the stories and fantasies woven by non professional writers alongside their more formally recognized colleagues As a medium which is beginning to investigate itself by means of various meta debates within the vast community of Internet fictionalizers it is also a location where emergent phenomena may be debated in their process of being generated This collection seeks to explore this for the most part uncharted territory in creative innovative theory savvy ways using the manifold fictions the Internet generates It brings together a wide variety of expertise from the fields of linguistic literary

media and cultural studies All contributors bring to the collection their individual voices and approaches which speak from various positions of involvedness or critique to provide searching and passionate discussions of the issues involved in Internet Fictions
