Litigation strategies for both right owners and alleged infringers are explained against the background of case law on: types of action, standing to sue, jurisdiction, obtaining evidence, provisional and final measures, trial practice, types of infringement, remedies and counterclaims, costs and issues of retrial, threats and wrongful enforcement. Special chapters cover the Trade-Related Aspects of Intellectual Property Agreement provisions on enforcement, enforcement issues in the European Community, international cross-border litigation and border measures. The reports are written by patent practitioners or academic experts in the field, and the homogenous structure of the country reports allows for an easy identification of best practices and strategic considerations on the choice of jurisdiction.

Direito Processual Civil da Propriedade Industrial João Paulo F. Remédio Marques, 2022-11-21 No quadro do reforço da atração do investimento estrangeiro e da integração dos mercados no espaço jurídico económico e social da União Europeia os direitos de propriedade

industrial tradicionalmente direitos cuja criação e eficácia era circunscrita ao território do Estado cuja entidade administrativa competente principal da territorialidade os concedia ou reconhecia foram submetidos a um regime unitário supranacional. Todavia coexistem com estes múltiplos regimes jurídicos nacionais cujos processos de concessão, manutenção e invalidação convivem com os procedimentos e processos supranacionais de concessão e extinção junto designadamente do Instituto Europeu de Patentes e do Instituto de Propriedade Intelectual da União Europeia. Fornecendo uma visão abrangente das conexões entre os procedimentos administrativos de concessão e registo e os processos judiciais de oposição, concessão, revogação e invalidação dos direitos de propriedade industrial incluindo sobretudo a referência às regras legiferantes processuais que pese embora alvo de tentativas de harmonização na União Europeia no Acordo TRIPS e no Instituto Europeu de Patentes concorrem se sobrepõem e por vezes entram em conflito este livro ajuda o leitor a navegar por uma parte do sistema português e europeu de concessão bem como a compreender a tutela jurisdicional efetiva contra atos de recusa ou concessão de direitos de propriedade industrial por parte das entidades administrativas portuguesas e supranacionais competentes de ameaça de infração ou consumação da infração, revogação e invalidação dos direitos de propriedade industrial.

Intellectual Property Jurisdiction Strategies Torsten Bjørn Larsen, 2017-10-27 This timely and practical guide compares the jurisdictional advantages of litigating a national IP right with those of the corresponding European unitary IP right. The study offers IP practitioners a meticulous yet principled basis for their jurisdictional decisions and shows why it is advantageous for infringers to litigate based on a national IP right and rightholders to litigate based on a European unitary IP right. 112 pages, paperback, ISBN 9781107000000 Lin Zhou, 2002 *Patent Enforcement Worldwide* Christopher Heath, Laurence Petit, Dieter Stauder, 2005 **Patent Enforcement in Selected Countries**, 2000 *Patent Enforcement in Selected Countries* Dieter Stauder, 2000 **German books in print**, 1995 **Patent Enforcement Worldwide, Third Edition** Christopher Heath, 2015 **Global Patents** Marketa Trimble, 2012-02-14 *Global Patents: Limits of Transnational Enforcement* explains why a global patent does not exist. It identifies the barriers to its creation from both historical and current perspectives and discusses the difficulties that arise as inventors, investors and businesses strive to protect their inventions in the widest territory possible. The author analyzes the options available to patent holders and explains how a country's patent law may be used to stop or limit the exploitation of an invention patented in that country and even in other countries where the invention is not patented. **Patent Infringement Worldwide** Jan Busche, Michael Trimborn, Bernd Fabry, 2010 **Infringement of the United States Patent Right** Richard T.
