The New Century Dictionary of the English Language Hulbert G. Emery,Katharine G. Brewster,1927 Americans Knocking at Freedom'S Door Bernie Lee (Yoder) Smith-DeBoe,2016-08-05 Americans pursue life and liberty through their religious freedom economic well being and self governance that includes a basic understanding of the constitutional principles provided by our founding fathers Hopefully our pursuit of life and liberty also includes a curiosity to explore our rich and diverse history Americans Knocking at Freedom's Door is a uniquely American heritage of religious freedoms and government of and by the people The author Bernie Lee Yoder Smith DeBoe presents a conversational discussion and a historical exploration of our Christian roots This book begins with Noah's ark and continues with the ancient tribes the Middle Ages religious wars American DNA and why the early settlers came to America Our knowledge of American history generally

includes our founding fathers the Civil War and more contemporary wars however this tells us very little about our early settlers their challenges and their background as people of religious faith This book offers some historical background and stories about those who established and helped the United States to grow and flourish It reminds us that we are Americans We stand together as Americans and we need to come together as Americans Teaching Global History Alan J. Singer, 2012-04-27 Teaching Global History challenges prospective and beginning social studies teachers to formulate their own views about what is important to know in global history and why It explains how to organize the curriculum around broad social studies concepts and themes and student questions about humanity history and the contemporary world All chapters include lesson ideas a sample lesson plan with activity sheets primary source documents and helpful charts graphs photographs and maps High school students responses are woven in throughout Additional material corresponding to each chapter is posted online at http://people.hofstra.edu/alan_j_singer The traditional curriculum tends to highlight the Western heritage and to race through epochs and regions leaving little time for an in depth exploration of concepts and historical themes for the evaluation of primary and secondary sources and for students to draw their own historical conclusions Offering an alternative to such pre packaged textbook outlines and materials this text is a powerful resource for promoting thoughtful reflection and debate about what the global history curriculum should be and how to teach it ,
