Social Sciences and the Humanities [microform]* Ontario. Ministry of Education, 2000 [New Perspectives on African-Centred Education in Canada](#) George Jerry Sefa Dei, Arlo Kempf, 2013 *New Perspectives on African Centred Education in Canada* is the first study of African centred schooling in the Canadian context. Starting with an in depth look at the creation of an Africentric public school within the Toronto District School Board it tells the story of the movement behind that school's creation and lays bare a rich history of activism organization and resistance on the part of numerous African Canadian communities and their allies. The book presents a critical overview of the issues facing racialized students and offers a unique vision of African centred education as a strategy for student engagement and social transformation. The authors well known public commentators on African centred education in Canada offer a comprehensive analysis of the media controversy surrounding African centred schools as well as candid reflections on the personal challenges of fighting a largely unpopular battle. **Social Sciences and Humanities** Ontario. Ministry of Education, 2013 [Teaching Africa](#) George J. Sefa Dei, 2009-12-04 One is always struck by the brilliant work of George Sefa Dei but nothing so far has demonstrated his pedagogical leadership as much as the current project. With a sense of purpose so pure and so thoroughly intellectual Dei shows why he must be credited with continuing the motivation and action for justice in education. He has produced in this powerful volume *Teaching Africa* the same type of close reasoning that has given him credibility in the anti racist struggle in education. Sustaining the case for the democratization of education and the revising of the pedagogical method to include Indigenous knowledge are the twin pillars of his style. A key component of this new science of pedagogy is the crusade against any form of hegemonic education where one group of people assumes that they are the masters of everyone else. Whether this happens in South Africa Canada

United States India Iraq Brazil or China Dei s insights suggest that this hegemony of education in pluralistic and multi ethnic societies is a false construction We live pre eminently in a world of co cultures not cultures and sub cultures and once we understand this difference we will have a better approach to education and equity in the human condition The Ontario Curriculum, Grades 11 and 12 Ontario. Ministry of Education,2000 *A Guide to Ontario School Law* Benjamin Kutsyuruba,David Burgess,Keith Walker,J. Kent Donlevy,2014-05 A Guide to Ontario School Law is a comprehensive non partisan fair reading of provincial educational statutes regulations and relevant policies that will be a first aid and reference to the lay reader Our goal is to provide an up to date accessible and user friendly guide to various legal parameters for teachers aspiring teachers trustees school administrators central office administration parents and interested community members In particular the resources and insights in this guide are aimed at helping teacher candidates to develop literacy in educational law and policy and ultimately to successfully transition from teacher education programs into teaching careers

Doing Democracy Darren E. Lund,Paul R. Carr,2008 In this provocative collection of essays with a

distinctly critical and nuanced approach to how democracy is taught learned understood and lived authors from four continents share their visions on how democracy needs to be cultivated critiqued demonstrated and manifested throughout the educational experience The collective concern is how we actually do democracy in education The essays argue that democracy must be infused in everything that happens at school curriculum extra curricular activities interaction with parents and communities and through formal organization and structures One of the book s central questions is Are educators merely teaching students skills and knowledge to prepare them for the world of work or is education more about encouraging students to thrive within a pluralistic society This book reveals that democracy is an ethos an ideology a set of values a philosophy and a complex and dynamic terrain that is a contested forum for debate From seasoned veterans to emerging scholars these writers challenge the idea that there is only one type of democracy or that democracy is defined by elections Using a range of theoretical conceptual and methodological approaches each essay makes a compelling case for how education can advance a more critical engagement in democracy that promotes social justice and political literacy for all Diverse examples illustrate the theme of doing democracy With its numerous models for teaching and learning to encourage critical thinking and engagement this book is certain to be an invaluable resource to educators researchers students and anyone with a passion for democratic ideals

Pedagogy of Multiliteracies Heather Lotherington, 2012-04-23 Based on case studies from public schools in Toronto Canada this book

aims to develop a theory and practice of teaching multiliteracies in culturally diverse linguistically heterogeneous urban classrooms Lotherington argues that in a globalized world literacy must be reassessed on an international scale and multilingualism must be theorized and practiced as a component of multimodal literacy
