Handbook of Digital Forensics of Multimedia Data and Devices, Enhanced E-Book Anthony T. S. Ho, Shujun Li, 2016-05-20 Digital forensics and multimedia forensics are rapidly growing disciplines whereby electronic information is extracted and interpreted for use in a court of law. These two fields are finding increasing importance in law enforcement and the investigation of cybercrime as the ubiquity of personal computing and the internet becomes ever more apparent. Digital forensics involves investigating computer systems and digital artefacts in general while multimedia forensics is a sub topic of digital forensics focusing on evidence extracted from both normal computer systems and special multimedia devices such as digital cameras. This book focuses on the interface between digital forensics and multimedia forensics bringing two closely related fields of forensic expertise together to identify and understand the current state of the art in digital forensic investigation. Both fields are expertly attended to by contributions from researchers and forensic practitioners specializing in diverse topics such as forensic authentication, forensic triage, forensic photogrammetry, biometric forensics, multimedia device identification and image forgery detection among many others. Key features: Brings digital and multimedia forensics together with contributions from academia, law enforcement and the digital forensics industry for extensive coverage of all the major aspects of digital forensics of multimedia data and devices. Provides comprehensive and authoritative coverage of digital forensics of multimedia data and devices. Offers not only explanations of techniques but also real world and simulated case studies to illustrate how digital and multimedia forensics techniques work. Includes a companion website hosting continually updated supplementary materials ranging from extended and updated coverage of standards to best practice guides, test datasets and more case studies.

Policing Sexual Offences and Sex Offenders Terry Thomas, 2016-08-13 Sexual offending has become a mainstay item of reporting in our daily newspapers and television news bulletins. This book offers an account of the policing of sexual offences and the difficulties that confront the police in the investigation of these intrusive crimes. It surveys the breadth of sexual offences and examines the reporting of sexual crime and the attrition level that follows. It proceeds by critically assessing the efforts the police are making to overcome these difficulties and the degree to which they are making progress. The book outlines the relatively new police role of policing the convicted sex offenders themselves who are living in the community and are subject to risk management by the police and the requirements of the sex offender register held by the police. Written by a leading expert, this timely book will be of great interest to scholars of sexual offending and criminal justice.

Police Response to Riots Garth den Heyer, 2019-11-13 This book is a study of the response that the police take to modern urban riots. It takes a principally police perspective on the lead up to a riot, the police response and the evaluation of the police response. The book is based on the development and analysis of four extensive case study riots: France 2005, London 2011, Ferguson 2014 and Baltimore 2015. The methodological approach to the case studies is comparative and includes an interactive framework that incorporates a number of key variables. These variables examine how each riot began

how they developed the response strategies and tactics used by the police and how the riots eventually ended The first section looks at defining riots and examines the riot literature and research to date The second section analyses the current police response to rioting The third and final section includes an analysis and comparison of the case study riots along with an examination of how the police response to riots could be improved With its focus on police practices this unique volume will be useful for researchers students police law enforcement and policy makers

Producing Bias-Free Policing Lorie A. Fridell, 2016-08-03 This Brief provides specific recommendations for police professionals to reduce the influence of implicit bias on police practice which will improve both effectiveness in a shift towards evidence based rather than bias based practices and police legitimacy The author is donating her proceeds from this book to the National Law Enforcement Officers Memorial Fund nleomf.org

Private Policing Mark Button, 2019-04-24 The second edition of *Private Policing* details the substantial involvement of private agents and organisations involved in policing beyond the public police It develops a taxonomy of policing and explores in depth each of the main categories examining the degree of privateness

amongst several other issues The main categories include the public police hybrid policing such as state policing bodies specialised police forces and non governmental organisations voluntary policing and the private security industry This book explores how the public police and many other state bodies have significant degrees of privateness from outright privatisation through to the serving of private interests The book provides a theoretical framework for private policing building upon the growing base of scholarship in this area Fully revised this new edition not only brings the old edition up to date with the substantial scholarship since 2002 but also provides more international context and several new chapters on corporate security management security officers and private investigation There is also a consideration of what the book calls the new private security industry working largely in cyber space Bringing together research from a wide range of projects the author has been involved with along with the growing body of private policing scholarship the book shows the substantial involvement of non public police bodies in policing and highlights a wide range of issues for debate and further research Private Policing is ideal reading for students of policing and security courses academics with an interest in private policing and security and practitioners from security and policing

Tough on Crime Michelle Bonner, 2019-09-06 Crime and insecurity are top public policy concerns in Latin America Political leaders offer tough on crime solutions that include increased policing and punishments and decreased civilian oversight These solutions while apparently supported by public opinion sit in opposition to both criminological research on crime control and human rights commitments Moreover many political and civil society actors disagree with such rhetoric and policies In Tough on Crime Bonner explores why some voices and some constructions of public opinion come to dominate public debate Drawing on a comparative analysis of Argentina and Chile based on over 190 in depth interviews and engaging the Euro American literature on punitive populism this book argues that a neoliberal media system and the resulting everyday practices used by journalists state and civil actors are central to explaining the dominance of tough on crime discourse

Boundaries Kenneth Watkin OMM, CD, QC, 2016-05-03 The international law governing armed conflict is at a crossroads as the formal framework of laws designed to control the exercise of self defense and conduct of inter state conflict finds itself confronted with violent 21st Century disputes of a very different character Military practitioners who seek to stay within the bounds of international law often find themselves applying bodies of law IHRL IHL ICL in an exclusionary fashion and adherence to those boundaries can lead to a formal and often rigid application of the law that does not adequately address contemporary security challenges Fighting at the Legal Boundaries offers a holistic approach towards the application of the various constitutive parts of international law The author focuses on the interaction between the applicable bodies of law by exploring whether their boundaries are improperly drawn or are being interpreted in too rigid a fashion Emphasis is placed on the disconnect that can occur between theory and practice regarding how these legal regimes are applied and interact with one another Through a number of case studies Fighting at the Legal Boundaries explores how the threat posed by insurgents terrorists and transnational criminal gangs often occurs not only at the point where these bodies of law interact but also in situations where there is significant overlap In this regard the exercise of the longstanding right of States to defend nationals including the conduct of operations such as hostage rescue can involve the application of human rights based law enforcement norms to counter threats transcending the conflict spectrum This book has five parts Part I sets out the security legal and operational challenges of contemporary conflict Part II focuses on the interaction between the jus ad bellum humanitarian law and human rights including an analysis of the historical influences that shaped their application as separate bodies of law Emphasis is placed on the influence the proper authority principle has had in the human rights based approach being favored when dealing with criminal non State actors during both international and non international armed conflict Part III analyzes the threats of insurgency and terrorism and the state response This includes exploring their link to criminal activity and the phenomenon of transnational criminal organizations Part IV addresses the conduct of operations against non State actors that span the conflict spectrum from inter state warfare to international law enforcement Lastly Part V looks at the way ahead and discusses the approaches that can be applied to address the evolving diverse and unique security threats facing the international community **Gendered Perspectives on Preventing Violent Extremism** Sam

Andrews, 2022-09-16 The UK's Prevent strategy aims to dissuade vulnerable groups from supporting terrorism and women have been involved since its inception in 2006 Sam Andrews argues that women are still viewed within a traditional gendered framework as primarily peaceful and are mostly engaged as mothers enlisted by Prevent to watch over and guide their families and communities Drawing on interviews and case studies this book reveals how Prevent goes beyond simple counter terrorism messaging to fund a diverse array of projects from support for victims of domestic violence to parenting courses shaping wider engagement with women in society **Banks as Security Actors** Esmé Bosma, 2025-04-22 This book

analyses how banks implement counter terrorist financing measures and experiment with technologies to assess risks and make security decisions Banks have become private security actors As gatekeepers of the financial system they are legally obliged to conduct customer research and monitor bank accounts for unusual or suspicious transactions Given the sheer volume of financial transactions that banks process daily detection of financial crime heavily relies on digital security technologies that help analysts categorise and identify risky customers and financial transactions Drawing from theories at the intersection of International Relations and Science and Technology Studies the book advances the concept of de scription to offer a framework for analysing experimentation with security and digital technologies in practice The research is based on fieldwork conducted in the financial crime sector in the Netherlands and the United Kingdom It explores how political and ethical choices materialise at the human technology interface and analyses the production of customer risk profiles the design and use of transaction monitoring systems and the emergence of public private partnerships to counter terrorist financing This book will be of interest to students and researchers in International Relations Science and Technology Studies and Critical Security Studies

The Welsh Criminal Justice System Robert Jones,Richard Wyn Jones,2022-10-15 This study represents the first systematic attempt to explore the functioning of the policing and criminal justice system in post devolution Wales Its particular relevance is underscored by the revelation that Wales has the highest imprisonment rate in western Europe Drawing on official data as well as extensive interviews with senior figures this book represents the first systematic exploration of the operation of the justice system in Wales across the jagged edge of devolved and non devolved functions There remains little understanding of how the justice system operates in the anomalous circumstances of post devolution Wales This book aims to fill this gap in understanding and concludes with an assessment of the proposals of the Commission on Justice in Wales for reform

Fighting at the Legal Boundaries Kenneth Watkin,2016 Fighting at the Legal Boundaries offers a holistic approach towards the application of the various constitutive parts of international law The author focuses on the interaction between the applicable bodies of law by exploring whether their boundaries are improperly drawn or are being interpreted in too rigid a fashion Emphasis is placed on the disconnect that can occur between theory and practice regarding how these legal regimes are applied and interact with one another Through a number of case studies Fighting at the Legal Boundaries explores how the threat posed by insurgents terrorists and transnational criminal gangs often occurs not only at the point where these bodies of law interact but also in situations where there is significant overlap In this regard the exercise of the longstanding right of States to defend nationals including the conduct of operations such as hostage rescue can involve the application of human rights based law enforcement norms to counter threats transcending the conflict spectrum

Policing and Mental Health John McDaniel,Kate Moss,Ken Pease,2020-02-25 This book explores the relationship between policing and mental health Police services around the world are innovating at pace in order to develop solutions to the problems presented and popular models are being shared internationally Nevertheless disparities and

perceptions of unfairness remain commonplace Innovations remain poorly funded and largely unproven Drawing together the insights of eminent academics in the UK the US Australia and South Africa the edited collection evaluates the condition of mental health and policing as an interlocked policy area uncovering and addressing a number of key issues which are shaping police responses to mental health Due to a relative lack of academic texts pertaining to developments in England and Wales the volume contains a distinct section on relevant policies and practices It also includes sections on US and Australian approaches focusing on Crisis Intervention Teams CITs Mental Health Intervention Teams MHITs stressors and innovations from Boston in the US to Queensland in Australia Written in a clear and direct style this book will appeal to students and scholars in policing criminology sociology mental health cultural studies social theory and those interested in learning about the condition and trajectory of police responses to mental health **Blackstone's Criminal Practice 2018** David
