In addition students and general readers will discover the panorama of food traditions in the context of European contact in the sixteenth century when the Spaniards introduced new foodstuffs adding variety to the diet and the profound changes that have occurred in Mexican food culture since the 1950s. Recent improvements in technology communications and transportation changing women's roles and migration from country to city and to and from the United States have had a much greater impact. Mexican women have always been responsible for everyday cooking including the intensive preparation of grinding corn peppers and spices by hand and a chapter is devoted to this work and a discussion of how traditional ways are supplemented today with modern conveniences and kitchen aids such as blenders and food processors. Surveys of class and regional differences in typical meals and cuisines present insight into the daily lives of a wide variety of Mexicans.
