## **Michael Groom Sheer Will:**

Sheer Will Michael Groom,1999 This is an updated and revised edition of the autobiography of extraordinary Australian mountaineer Michael Groom which we published in 1997 Even among the many achievement against all setbacks books on the market Michael Groom s story stands out In 1987 he lost a third of both his feet to frostbite while climbing one of the world s highest mountains He was told to forget about an active outdoor life but by 1990 he had not only taught himself to walk again he was back climbing the Himalayas To increase the challenge Michael climbs without supplementary oxygen an extraordinary thing to do in the thin oxygen deprived air at the top of the world In 1999 Michael climbed Makalu in the Himalayas Makalu is the fifth highest mountain in the world and it s generally considered to be a harder climb than Everest which is why so few people have done it Michael is now one of the very few people in the world to have climbed all six of the six highest mountains The book features two stunning 8 page colour photo sections and has an introduction by respected mountaineer Lincoln Hall Its appeal will reach far beyond those already interested in mountaineering it is ideal for anyone with a taste for gripping biography struggle against the odds stories inspirational books or travel in Nepal **Sheer Will** Michael Groom,1997 **A Day to Die For** Graham Ratcliffe,2011-02-03 On the night of 10 11 May 1996 eight climbers perished in what remains the worst disaster in Everest s history Following the tragedy numerous accounts were published with Jon Krakauer s Into Thin Air becoming an international bestseller But has the whole story been told A Day to Die For reveals the full startling facts that led to the tragedy Graham Ratcliffe the first British climber to reach the summit of Mount Everest twice was a first hand witness having spent the night on Everest s South Col at 26 000 ft sheltering from the deadly storm For years he has shouldered a burden of guilt feeling that he and his teammates could have saved lives that fateful night His quest for answers has led to discoveries so important to an understanding of the disaster that he now questions why these facts were not made public sooner History is dotted with high profile disasters that both horrify and capture the attention of the public but very rarely is our view of them revised to such devastating effect **1999 American Alpine Journal** , Published annually since 1929 The American Alpine Journal is internationally acknowledged as the world s finest journal of its kind The latest volume of climbing s journal of record offers the most complete picture available of the world of climbing for 1998 From articles that present the climbing possibilities of Antarctica and Africa to stories on the new bigwall frontiers of Mexico and Madagascar to the alpine sagas on Bhagarathi III and Khan Tengri and the emergence of the former Soviet climbers on the world stage the 1999 AAJ continues its tradition as mountaineering s institutional memory **The Third Man Factor** John Geiger,2009-09-01 The Third Man Factor is an extraordinary account of how people at the very edge of death often sense an unseen presence beside them who encourages them to make one final effort to survive This incorporeal being offers a feeling of hope protection and guidance and leaves the person convinced he or she is not alone There is a name for this phenomenon it s called the Third Man Factor If only a handful of people had ever encountered the

Third Man it might be dismissed as an unusual delusion shared by a few overstressed minds But over the years the experience has occurred again and again to 9 11 survivors mountaineers divers polar explorers prisoners of war sailors shipwreck survivors aviators and astronauts All have escaped traumatic events only to tell strikingly similar stories of having sensed the close presence of a helper or guardian The force has been explained as everything from hallucination to divine intervention Recent neurological research suggests something else Bestselling and award winning author John Geiger has completed six years of physiological psychological and historical research on the Third Man He blends his analysis with compelling human stories such as that of Ron DiFrancesco the last survivor to escape the World Trade Center on 9 11 Ernest Shackleton the legendary explorer whose account of the Third Man inspired T S Eliot to write of it in *The Waste Land* Jerry Linenger a NASA astronaut who experienced the Third Man while aboard the Mir space station and many more Fascinating for any reader *The Third Man Factor* at last explains this secret to survival a Third Man who in the words of famed climber Reinhold Messner leads you out of the impossible
