Cass Fleming, Tom Cornford, 2020-10-15 The culmination of an innovative practice research project Michael Chekhov in the Twenty First Century New Pathways draws on historical writings and archival materials to investigate how Chekhov's technique can be used across the disciplines of contemporary performance and applied practice In contrast to the narrow actor training only analysis that dominated 20th century explorations of the technique authors Cass Fleming and Tom Cornford along with contributors Caoimhe McAvinchey Roanna Mitchell Daron Oram and Sin ad Rushe focus on devising directing and collective creation dramaturgy and collaborative playwriting scenography voice movement and dance as well as socially engaged and therapeutic practices all of which are at the forefront of international theatre making The book collectively offers a thorough and fascinating investigation into new uses of Michael Chekhov's technique providing practical strategies and principles alongside theoretical discussion The Rhythm of Space and the Sound of Time Cynthia

Ashperger, 2008 The Rhythm of Space and the Sound of Time examines the place of Chekhov's Technique in contemporary acting pedagogy and practice Cynthia Ashperger answers the questions What are the reasons behind the technique's current resurgence How has this cohesive and holistic training been brought into today's mainstream acting training What separates this technique from the other currently popular methods Ashperger offers an analysis of the complex philosophical influences that shaped Chekhov's ideas about this psycho-physical approach to acting Chekhov's five guiding principles are introduced to demonstrate how eastern ideas and practices have been integrated into this western technique and how they have continued to develop on both theoretical and practical levels in contemporary pedagogy thereby rendering it intercultural The volume also focuses on the work of several contemporary teachers of the technique associated with Michael Chekhov International Association MICHA Current teacher training is described as well as the different modes of hybridization of Chekhov's technique with other current methods Contemporary practical experiments and some fifty exercises at both beginner and intermediate advanced levels are presented through analysis examples student journals and case studies delineating the sequences in which units are taught and specifying the exercises that differ from those in Chekhov's original writing This book is for practitioners as well as students of the theatre **The Art of Acting** Dawn Langman, 2014-04-07

This book will be invaluable to teachers acting students and practitioners alike Langman's inspired methods fed by some 45 years of teaching and practice ensure the highest outcomes for the integration of voice speech and language as a central ingredient of the actor's craft She is the most unique and brilliant master teacher in this area I have ever encountered Rosalba Clemente Head of Acting Drama Centre Flinders University A rite de passage working with Langman's book is an initiation into the practice of Future Theatre Dr Jane Gilmer Assistant Professor of Drama VPA National Institute of Education Singapore A remarkable achievement that communicates a lifetime of teaching artistry with grace and depth and most significantly reveals the profound spiritual impulses at the heart of Michael Chekhov's original impulse A gift for the

generations Dr Diane Caracciolo Associate Professor of Educational Theatre Adelphi University Over the past decades there has been a resurgence of interest in Chekhov's acting technique The original publishers of his fundamental text *To the Actor* removed most of the author's references to Rudolf Steiner but recent studies acknowledge Chekhov's personal interest in anthroposophy as the source of his artistic inspiration Dawn Langman explores the fundamentals of Chekhov's psycho-physical technique and the metaphysical principles on which it is based She examines this technique in relation to the specific challenges and gifts provided by the actor's constitution of body soul and spirit and in the context of the canon of great poetic and dramatic texts illuminated by Steiner's insights into humanity's evolving consciousness The *Art of Acting* lays the foundation for the second and third books in her series in which Langman explores Rudolf Steiner's art of speech and its integration with Michael Chekhov's methodology Together these books offer a contemporary spiritually enlivened path of development for the actor in which the combined insights of Steiner and Chekhov lead to new possibilities for the performing arts
