Michel Foucault Sara Mills, 2003 Michel Foucault has been written with students of literature in mind but its relevance like that of Foucault's remarkable work extends far beyond literary studies For anyone seeking to understand Foucault and the complex debates engendered by his work this volume is the essential first step **BOOK JACKET**

Foucault 2.0 Eric Paras, 2020-01-14 A dramatically new interpretation of the development of the thought of Michel Foucault one of the 20th century's most influential thinkers In this lucid and groundbreaking work Eric Paras reveals that our understanding of the philosophy of Michel Foucault must be radically revised Foucault's critical axes of power and knowledge which purposefully eradicated the concept of free will reappear as targets in his later work Paras demonstrates the logic that led Foucault to move from a microphysics of power to an aesthetics of individual experience He is the first to show a transformation that not only placed Foucault in opposition to the archaeological and genealogical positions for which he is renowned but aligned him with some of his fiercest antagonists Foucault 2.0 draws on the full range of the philosopher's writing and of the work of contemporaries who influenced and sometimes vehemently opposed his ideas To fill the gaps in Foucault's published writings that have so far limited our conception of the arc of his thought Paras analyzes the largely untapped trove of lectures Foucault delivered to teeming Paris audiences as Professor of the College de France for more than a decade At the same time Foucault 2.0 highlights the background against which Foucault carried out his most foundational work the unrest of 1968 the prison reform movement of the early 1970s and the Iranian Revolution of 1979 Carefully assembling the fragments of a thinker who remains but half understood Eric Paras has composed a seminal book essential reading for novices and initiates alike

Shaping Claims to Urban Land Fons van Overbeek, 2022-10-03 The concept of hybridity is often still poorly theorized and problematically applied by peace and development scholars and researchers of resource governance This book turns to a particular

ethnographic reading of Michel Foucault's Governmentality and investigates its usefulness to study precisely those mechanisms processes and practices that hybridity once promised to clarify Claim making to land and authority in a post conflict environment is the empirical grist supporting this exploration of governmentality Specifically in the periphery of Bukavu This focus is relevant as urban land is increasingly becoming scarce in rapidly expanding cities of eastern Congo primarily due to internal rural to urban migration as a result of regional insecurity The governance of urban land is also important analytically as land governance and state authority in Africa are believed to be closely linked and co evolve An ethnographic reading of governmentality enables researchers to study hybridization without biasing analysis towards hierarchical dualities Additionally a better understanding of hybridization in the claim making practices may contribute to improved government intervention and development assistance in Bukavu and elsewhere
