Team Leadership In Christian Ministry Kenneth O. Gangel,1997-01-05 Team leadership is the exercise of one's spiritual gifts under the call of God to serve a certain group of people in achieving the goals God has given them toward the end of glorifying Christ How is your church or organization governed Does it have an authoritarian top down administration Is the ministry vision developed by a few top officials with little input from staff or volunteers Today the definition of an effective leader has changed No longer does the model leader manage like the Lone Ranger either do it his way or no way Today the model leader shares responsibility with fellow team leaders and seeks to serve them In this complete revision of his earlier work *Building Leaders for Church Education* Dr Gangel carefully lays a biblical foundation for the team leadership model This leadership is not dogmatic control or personality worship It has no room for political power plays Instead it is Paul gently nurturing young Christians in his epistles It is Barnabas willingly thrusting others into situations where they develop their own gifts It is Christ choosing not one but twelve men to carry on His ministry It is servant leadership With examples illustrations and suggestions for further reading at the end of each chapter Dr Gangel prods and encourages the reader to move beyond the safety net of autocratic leadership into the rewarding effective practice of leading with and through others
