# COSY 2014

42ND CANADIAN ANNUAL SYMPOSIUM  
ON  
OPERATOR ALGEBRAS AND THEIR APPLICATIONS

June 23-27, 2014 • Fields Institute

The theory of operator algebras and operator theory has held a significant place in the Canadian mathematical community for many years. One of the centrepieces of the field in Canada has been the Canadian Operator Symposium (COSy), which was founded by Israel Halperin in the early 1970's. This year's Symposium will be held at the Fields Institute in Toronto as the closing conference of the January-June 2014 Fields Thematic Program on Abstract Harmonic Analysis, Banach and Operator Algebras.

The meeting will bring together leaders in the area from Canada and abroad, and will provide an opportunity for stimulating exchange especially for young researchers.
