Opposing Ambitions Gender And Identity In An Alternative Organization:

Opposing Ambitions Sherryl Kleinman, 1996-06-15 *Renewal* is a holistic health center run by baby boomers whose political ideals were shaped by the counterculture movements of the 1960s Through interviews and observation Sherryl Kleinman takes us inside *Renewal* and shows us how its members struggled to maintain a view of themselves as progressive and alternative even as they sought conventional legitimacy In *Opposing Ambitions* we meet the members of *Renewal* as individuals learn about the differences in power prestige and respect they are accorded why they talked endlessly about money and how they related to each other Kleinman shows how members attempt to see themselves as unconventional but also as serious operators of a legitimate health care organization led them to act in ways that undermined their egalitarian goals She draws out the lessons *Renewal* offers for understanding the problems women face in organizations the failure of social movements to live up to their ideals and how it is possible for progressives to avoid reproducing the inequalities they claim to oppose

Co-operative Workplace Dispute Resolution Ms Elizabeth A Hoffmann, 2012-08-01 Understanding the complex dynamics involved in workplace disputes helps improve the way organizations deal with unwelcome but inevitable occurrences These issues have been researched from different perspectives but previously such research has failed to ask how flattened organizational form might impact ways of resolving disputes focusing instead on what occurs in conventional hierarchical organizations only In *Co-operative Workplace Dispute Resolution* Elizabeth Hoffmann considers the question of how workplace disputes are raised in the absence of formal hierarchy In contrast to conventionally organized businesses co-operatives attempt to evenly distribute power and ownership and encourage worker control through egalitarian ideologies flattened management structures and greater information sharing Like conventional businesses though they still pursue goals relating to profit and efficiency Dr Hoffmann argues that lessening hierarchy and sharing power as occurs in co-operatives provides insight into how greater worker involvement and ownership might operate in a less extreme and more modest form in conventional mainstream business This book focuses on dispute resolution strategies at matched pairs of worker co-operatives and conventional businesses in three very different

industries coal mining taxicab driving and wholefood distribution The author s central finding is that the worker co operative members have access to more dispute resolution strategies than their conventionally employed counterparts This leads to the conclusion that benefits might be achieved by conventional businesses that wish to embrace specific attributes usually associated with co operatives including management employee cooperation shared ownership or greater workplace equality

well as researchers throughout the social sciences and in some fields within the humanities **A Neighborhood That Never Changes** Japonica Brown-Saracino, 2010-01-15 Newcomers to older neighborhoods are usually perceived as destructive tearing down everything that made the place special and attractive But as A Neighborhood That Never Changes demonstrates many gentrifiers seek to preserve the authentic local flavor of their new homes rather than ruthlessly remake them Drawing on ethnographic research in four distinct communities the Chicago neighborhoods of Andersonville and Argyle and the New England towns of Provincetown and Dresden Japonica Brown Saracino paints a colorful portrait of how residents new and old from wealthy gay homeowners to Portuguese fishermen think about gentrification The new breed of gentrifiers Brown Saracino finds exhibits an acute self consciousness about their role in the process and works to minimize gentrification's risks for certain longtime residents In an era of rapid change they cherish the unique and fragile whether a dilapidated house a two hundred year old landscape or the presence of people deeply rooted in the place they live Contesting many long standing assumptions about gentrification Brown Saracino's absorbing study reveals the unexpected ways beliefs about authenticity place and change play out in the social political and economic lives of very different neighborhoods
